

Jerusalem Police Station Levelled By Blast, British Officers Killed, Wounded

JERUSALEM, Jan. 13 (AP)—Haifa's 95,000 inhabitants were held under virtual house arrest today by a British curfew imposed last night after a violent explosion wrecked the city's police station, killing four policemen and injuring more than 142 other persons.

The casualty list showed two British policemen and two Arab temporary constables dead; 62 policemen—British, Arab and Jewish—hurt, one Briton severely; 48 civilians hospitalized; 32 given first aid, and many more cut, bruised or shocked.

The blast—set off at 5:10 p. m. in an automobile load of explosives planted outside the station—shook Palestine's main telephone system and started fires that raged for a half hour in the next-door post office and other nearby buildings.

The government said that the six-story headquarters, at the foot of Mount Carmel and about 100 yards from the harbor entrance in a Jewish-Arab neighborhood, was "virtually leveled."

Officials reported that three men, one in police garb and the others in raincoats, drove the bomb-car, labeled "Police," up to the building and fled into a tangle of streets and alleys. Guards fired after them and, noting a blazing fuse in the automobile, gave an alarm to clear the station.

About 15 policemen got out before the blast three minutes later. Debris blocked the waterfront parkway and glass littered streets for blocks.

Immediately guards on public buildings were doubled. Bren gun carriers took strategic posts and roadblocks established by the British first infantry cut off the neighborhood of the explosion. At 11 p. m. the curfew was imposed.

Morse Opposes Any Tax Cut

WASHINGTON, Jan. 13 (AP)—Senators Cain of Washington and Morse of Oregon expressed opposition to a cut in 1947 taxes in separate statements issued over the week-end.

Cain termed tax reduction putting "the cart before the horse," and suggested that "we should first determine what we are going to have to spend and how much money we will have to raise from taxes."

Morse, speaking in New York before an estimated 1200 persons at a B'nai B'rith breakfast, said he would "rather go out of the senate in 1950 than deal in a political hypocrisy with those who tell us we can have a 20 per cent cut in taxes."

Indicating a tax reduction would necessitate a reduction in military strength and lessen this country's influence in Europe, Morse declared:

"Unless the statesmen of our country have the political courage to tell the American people the unpleasant facts about world conditions today and educate them into an understanding of the importance of remaining strong in its defense and sharing its responsibilities in Europe, the war-is-over attitude of the American people will sentence our children to another war."

DEFIES ORDINANCE

OXNARD, Calif., Jan. 13 (AP)—That lonely looking individual leaning on the city limits sign was only Police Judge Garland Nelson, waiting for a police escort to accompany his automobile through town.

He was all set to blow his horn all the way, he added—all in keeping with a 1908 city ordinance which he protests is still on the books. The ordinance adds that a bell or gong will do as well as the horn, so long as a police officer is on convoy duty.

City Attorney William Reppy promised the municipal statutes will be brought up to date quickly.

GALLANT FIREMAN

PEORIA, Ill., Jan. 13 (AP)—Firemen summoned to the home of Mrs. Roy Huston found the house filled with smoke—the result of a clogged pipe leading from the furnace to the chimney.

Mrs. Huston said her husband was in the hospital, and she was unable to clean the pipe. The firemen cleaned the pipe for her. Then the firemen made the supreme effort—they helped scrub the house of smoke and soot.

HIGH-FLYING BUNNY

WELDON, Ill., Jan. 13 (AP)—A Corn Belt Electric cooperative lineman climbed a utility pole to determine what caused farmer Myron Seal's lights to go out—and found a dead rabbit in the transformer.

He surmised the rabbit was the prey of a hawk which had dropped it on the transformer, causing a short circuit.

SEATTLE, Jan. 13 (AP)—Plans now under consideration by the navy may open the way for 400 Boy Scouts of Washington, Oregon, Idaho and Montana to spend an eight-day encampment at Sand Point naval air station this summer, the navy announced.

Plans were discussed over the week-end with O. D. Scharpe and Donald F. Seaman, Portland Scout executives, the navy said.

Semon Gets Ways And Means Job

Henry Semon, veteran Klamath county legislator, this morning in Salem was appointed vice chairman of the highly important house of representatives ways and means committee, and also is named to the agriculture and state and federal affairs committees.

Semon, one of the two democrats in the state lower house, has been on the ways and means committee every legislative session except one since he first went to the legislature in 1932. He has been chairman three times.

The ways and means committee handles the financing for the entire state government.

Mrs. Rose M. Poole, Klamath county republican, was named vice chairman of the committee on bills and mailings, and is also on committees dealing with elections, game, and local government.

Marshall Cornett was unanimously elected president of the senate this morning, a formality since he had enough votes for election cornered several weeks ago, and therefore will not serve on any senate committees.
