

# Row Looms On Parking Meter Use

The initial skirmish in a possible parking meter fight was to be taken before the city council at 2 o'clock this afternoon by representatives of several trucking companies and local merchants.

Mayor Ed Ostendorf called a special meeting of the council to hear the arguments. Charles F. Bane, manager of the Bend-Portland Freight company, said his complaint was that loading zones are needed in several spots on the main downtown streets, but are not provided.

Donald Sloan of the Sloan company said that the council had evidently overlooked the fact that it was just as necessary for retailers to receive their goods as it was for them to sell.

Both men cited instances in which their drivers were nearly arrested when they were forced to double park in order to deliver merchandise.

A discussion of the meters is also expected to take up a large part of the council's regular meeting time tonight, since both truckers and merchants have expressed strong opinions against having the devices in front of business houses.

Some 500 citizens, mouse-trapped by the parking meters during the first day of operation Saturday, beat a path to the police station booking desk to tell sad stories to the desk sergeant and ante up 50-cent penalty fees.

Most of them came across with the best grace possible, but a few grumbled that they should have been given just a warning ticket for the first offense.

Police Chief Orville Hamilton demurred with a statement that all the advance newspaper and radio publicity was ample warning for everybody.

One woman this morning told of putting her nickel into the meter back of her parked car. But that explanation merely elicited a chuckle at the booking desk and a demonstration of the proper technique on a dummy meter at the desk. She paid 50 cents.

Another complaint which was roundly disregarded was from a government employe, driver of a car furnished by the government, who said that although his Uncle Sam supplied him a car and travel pay, he didn't furnish nickels and pennies to put into parking meters.

The 12-minute and 24-minute, one and two cent meters were giving many people a bad time. People were putting in a nickel and getting clipped on their time.

There are one-cent meters, good for 12 minutes parking in front of the liquor store, Medical-Dental building and bus depot. They're denoted by one black band across the top. Two-cent meters, signified by two

and the flour in its turn was taken back to San Francisco bay and exchanged for more agricultural produce of the rich California soil.

This trade was welcomed by the padres, who had no mechanical skills and whose Indian servants had hitherto ground the wheat in rude stone mortars.

It is well to remember that such is foreign trade, which is actually TRADE—accomplished by the trading of the products of the special skills of one people for the products of the special skills of other people.

ANYWAY, that is the background of San Francisco. It is little wonder that it is a romantic and fascinating city. Growing out of such a background, it could hardly be otherwise.

# Butter Deal Brings Fine

NEW YORK, Jan. 27 (AP)—Federal Judge Alfred C. Cox imposed a fine of \$25,000 against the Dairymen's League Cooperative association and fines of \$1000 each against four officers of the association today after they entered guilty pleas to a criminal information charging manipulation of the New York butter market to fix the January, 1947, milk price.

The individuals named were Henry Rathbun, president of the association, and three members of its board of directors, Leon H. Chapin, Hedley Benson and Herbert Seeley.

# Grade School Burns To Ground

CHIMACUM, Jan. 27 (AP)—The Chimacum consolidated grade and high school burned early today with loss estimated by Supt. D. W. Selby at \$100,000. It was the second largest school building in Jefferson county, and served 370 children, including 105 high school pupils, of Chimacum, Port Ludlow, Shine, Nordland, Hadlock and Irondale.

Selby was arranging today for temporary transfer of the pupils to schools at Port Townsend and Quilicura.

Origin of the fire was not determined though the Port Townsend fire department reported it may have started from a furnace.

black bands and good for 24 minutes, are located on N. 2d and S. 8th, alongside the banks.

# Swollen Rivers Threaten Flood

SEATTLE, Jan. 27 (AP)—A 12-foot tide backed up the flood waters brought down by the Green river and threatened new inundations in the Earlington flats just south of here.

The Green's overflow also had blocked highways into Kent, in three directions. Kent police reported, leaving as its only vehicular connection the Benson highway from Renton which enters Kent from the east. The west highway was blocked just north of Kent, and the east highway was covered with six inches of water in the lowlands south of Renton.

The highway patrol also reported the Pansley Canyon road, west of Auburn, was blocked to all but one-way traffic due to a Sunday earth slide.

Part of Kent's southwest section was slightly inundated last evening when flood waters swirled down Naden avenue.

# Power Company Men Rescue Cat From Power Pole

Three men of the California Oregon Power company service crew answered an emergency call at 8:15 Monday morning from Henley, and rescued a little white cat perched on the power lines.

The cat, apparently frightened by claws had climbed the pole some time Saturday night, dug its claws into the high line arm, 45 feet above the ground, and sat there howling over the weekend among 66,000 volts of electricity.

A Henley resident, disturbed by the stricken yowls throughout two nights and a day, finally called the power company.

Vernon Keese, Phil Quisenberry and Bill Carter went out on the call. Carter climbed the pole and after soothing the frightened animal was able to remove it from the high line arm.

Wind Cave in the Black Hills, which has passages reaching 240 feet below the surface, gets its name from strong blasts of wind which blow in and out of the entrance.

American apple pie proved to be a top favorite dessert of United Nations delegates and staff members at Lake Success, New York.

# Why Thousands of Doctors Have Prescribed

# PERTUSSIN FOR BAD COUGHS

(CAUSED BY COLDS)

Pertussin must be good when thousands of doctors have prescribed it for so many years. Pertussin acts at once to relieve such coughing. It actually loosens phlegm and makes it easier to raise. Safe and effective for both old and young. Pleasant tasting, too!

(Continued From Page One)

the 13 years of its existence and built up a reserve of \$217,095.

In the 13 years history of KPCA dividends over \$48,000 have been paid out by the association to stockholders and, on the original government loan, Farmers and stockmen in Klamath, Lake counties in Oregon and the northern portion of Modoc and Siskiyou in California have received loans amounting to \$27,879,000.

Of the \$250,000 loaned by the government 13 years ago, all but \$25,000 is now paid off.

An average of 25 farm loans a week are made by the association.

A. B. Robertson of the Production Credit Corporation, Spokane, giving a brief history of the association, remembered the first meeting, held just 13 years ago in the basement of the city library with 23 present. From this nucleus the association has grown to its present membership of 417 stockholders.

When the capital stock reaches \$200,000 and the reserve stock \$250,000, Robertson pointed out that the association can operate on its own power. He believes that government capital can be retired in the next three years. This is the full aim of the directors, he explained.

Prices are undoubtedly going down and spurring on extra land can bring a "devil of a licking," Robertson said. Economists predict a decline of about 15 per cent in farm incomes for 1947 with the rising costs on machinery and labor. On such a basis farmers were advised against heavy debt and long term commitments.

Some interesting comparisons brought out by Robertson showed that in 1919, 310 sacks of spuds would pay off a \$1,000 debt. In 1932 it would take 1587 sacks to do it and in 1946, 488 sacks would pay off the same debt.

William A. Schoenfeld, dean of the school of agriculture, Oregon State college, Corvallis,

# FOR COLDS' MISERIES

Many Are Changing to PENETRO

Somebody always seems to have a cold in large families, that's why so many young mothers now keep PENETRO handy for quick-acting relief... so clean and white, so pleasant to use—and so effective! PENETRO'S modern-type, medicated vapors release at once to soothe the irritated upper breathing passages, clear the head, relieve sore throat, help quiet coughing of colds.

PENETRO GIVES YOU the home-approved motion suit feature; and scientific medication rubs in to help break up the local congestion and relieve muscular soreness of chest colds. And Penetro keeps on working for hours, encourages restful sleep. Many modern mothers everywhere are changing to clean, white PENETRO QUICK RUB

# Fossum Asks Army Rank

Major Embert Fossum, former publisher of the Klamath Basin Progress here, had his name sent to the senate Monday for commission in the regular United States army. Maj. Fossum's permanent rank will be first lieutenant.

He is the son of Mrs. John Fossum, Pine street, and his wife and daughter, Janet Martha, are remaining in Denver, Colo., until housing facilities are available overseas. Maj. Fossum was sent by air to The Philippines this fall and from there to Okinawa, Tokyo and finally to Seoul, capital of Korea, where he is now stationed with the 7th division as public relations officer in charge of information and education and also the division newspaper. He visited here just before going overseas.

He recently advised his family that homes for officers' families were not completed due to weather and lack of material.

# Lawyer Says Capone Broke

MIAMI BEACH, Fla., Jan. 27 (AP)—The body of Al Capone, once fabulously wealthy Chicago gang leader whose attorney said he died broke, lay in a mortuary here today, waiting completion of plans for the funeral here later this week.

Dr. Kenneth Phillips, who attended Capone for several years and was with the 48-year-old ex-mobster when he died in his 25-room villa on nearby Palm Island Saturday, said the final rites would be held here. Other information, he said, must come from the family.

In Los Angeles, Capone's attorney, Abraham Teitelbaum, said as far as he knew "Al left no will and no money." The lawyer said members of Capone's family had supported him in recent years, and the villa was "mortgaged to the hilt."

Federal officials once estimated Capone's fortune at \$20,000,000 but, Teitelbaum said, "Al still owed the government money when he died."

# Snell Urges Polio Support

SALEM, Jan. 27 (AP)—Governor Earl Snell urged Oregonians today to contribute to the March of Dimes campaign, asserting the fight against infantile paralysis will not be won until every trace of it has been wiped from the country.

He said in a statement: "The day when poliomyelitis will be vanquished can be brought closer by our contributions to the fight which is being waged against this menace.

"Lives broken by infantile paralysis are among our greatest tragedies. The help we give now will contribute much to the rehabilitation of thousands who suffer from paralysis; and the research made possible by these funds will help in finding the cause and cure. I should like to urge that all Oregonians cooperate fully in this fine humanitarian cause."

The highest flow of milk per cow for the month of November was recorded during 1946. Good pastures and the most liberal feeding of concentrates ever reported were factors in maintaining this high rate of flow.
