Today's Roundup

THE well kicked around Marine Barracks vocational school project received another jolt yesterday when the state board of education voted to reject the terms of a WAA offer of the plant to the state, and to reopen negotiations.

EPLEY

Reports from Salem said the board asked that the new negotiations be rushed so that there will be time to ask for a legislative appropriation to operate the school if the state board decides to accept the new terms it hopes to get out of WAA.

Let's Get Going

IT is time for state officials to quit stalling on the Marine Barracks project. The state can now prove its good faith only by pressing immediately for whatever terms it is after from the WAA and coming to a definite conclusion of the issue.

The legislature is now well into its session. Any more fooling around on this matter definitely jeopardizes a program which the state board already has held as worthy, and which has been publicly declared by vocational education authorities as a promising opportunity for meeting a growing demand for vocational education in the state.

When we were in Salem earlier in the week, officials were definitely inclined to look favorably on the WAA terms, and indicated that the major problem was that of obtaining the legislative appropriation to operate the school. Possibly, that is in the background of the delay which, on the surface, was based on a question over the 25-year stipulation.

Day's News

(Continued From Page One)

papers and what story, do you suppose, did they read first?

Why, the story of the fire, of course—the story that they knew all about. That's what people always do. It's why small city papers are FAR better read than the big city papers.

We all like to read about things that are CLOSE to us.

Family Stricken By Gas Poison

VANCOUVER, Wash., Feb. 1 (AP)—A family of five was stricken at their McLoughlin Heights home today by what permanent hospital attendants said appeared to be coal gas poisoning.

The mother, Mrs. S. L. Hair, was hospitalized. The others—Charlotte, 27, Stanley, about 26, Earlene, 14, and Berl, 7—were released after first aid treatment.

The 7-year-old boy fell ill at 4:30 this morning, and the others became sick shortly afterward. Their house burns coal.

Need Described

THE state should immediately get its deal clear with the WAA, and then go into the question of the legislative appropriation on the merits of the project. Educational authorities have stated that Oregon is definitely failing to meet the requirements for a large section of its youth which is in need of vocational education training.

If these people know what they are talking about, it is the duty of the responsible state officials to bring this matter to a head in the immediate future.

The World Today

By DeWitt MacKenzie Associated Press Foreign Affairs Analyst ENGLAND'S royal family—King George and Queen Elizabeth, with Princesses Elizabeth and Margaret Rose—is aboard the strongly convoyed battleship Vanguard, heading in truly regal style toward the Union of South Africa for what is described as a holiday, but which one can see with half an eye is a journey of vast importance to the welfare of the British commonwealth of nations.

It strikes me as particularly significant that it comes at a moment when John Bull's empire is undergoing a vast change—to state the position euphemistically. He is about to lose the great sub-continent of India and Burma as imperial units, but is praying that they may elect to remain within the commonwealth as independent dominions.

Any strengthening of relations with South Africa would tend to strengthen the whole British commonwealth of nations and make it more attractive to India and Burma. The London Times yesterday said editorially that when Field Marshal Smuts, who led his countrymen in arms against Queen Victoria, receives her great-grandchildren in Capetown, a world broken by hate will have before it the example of another spirit.

Man Held On Kidnap Count

RENO, Feb. 1 (AP)—Detective Capt. Joseph Kirkley announced today that Richmond, Calif., police had arrested Ralph Worrell, merchant marine petty officer, and said Worrell had with him a 4 1/2-year-old girl he is accused of kidnaping.

The girl, born in a Japanese internment camp, was unharmed, Kirkley said Richmond police told him.

The officer said attempts will be made to have Worrell waive extradition so he can be returned to Reno immediately.

The kidnaping complaint was issued by the Washoe county district attorney's office at the request of Mrs. Alexandra Agafanova Levkovich, mother of the child, Ramona. She filed suit for divorce here yesterday against the child's father, who is in the Orient.

Mrs. Levkovich told police that Worrell, whom she had refused to marry, picked up the child at a children's day home Thursday, explaining he was acting for Mrs. Levkovich, who was busy packing prior to leaving Reno.

Composer Dies PHILADELPHIA, Feb. 1 (AP)—Ed Edwards, 64, composer of many old-time song hits including "My Little Singing Bird," "Oh, You Blonds," and "What Is the Use to Remember," died today after a long illness.

Cedarville To Get Housing

ALTURAS, Feb. 1—Modoc county fair directors met this week and plans for the 1947 fair were discussed. Permission will be given the county board of supervisors to construct a federal housing unit on the fair grounds at Cedarville. The proposed plan will consist of ten units.

A well will be drilled and a complete water system installed on the grounds at an estimated cost of \$15,000.

Bilbo Goes Home After Operation NEW ORLEANS, Feb. 1 (AP)—Senator Theodore G. Bilbo left Touro infirmary here today to return to his "dream home" at Poplarville, Miss., to recuperate from an operation for the removal of part of his pawbone.

He insisted that he will return to Washington as soon as he is able to claim his seat in the United States senate.

Composer Dies PHILADELPHIA, Feb. 1 (AP)—Ed Edwards, 64, composer of many old-time song hits including "My Little Singing Bird," "Oh, You Blonds," and "What Is the Use to Remember," died today after a long illness.

SIDE GLANCES

"Well, maybe I'm not as romantic as Tyrone Power or Charles Boyer, but I might be if I had Hedy LaMarr or Ingrid Bergman to inspire me!"

Pelican City Matron Dies

Mrs. Annibali Conforti, 71, for the past 34 years a resident of Pelican City, died at mid-afternoon Friday at Hillside hospital following a brief illness. Mrs. Conforti would have celebrated her 72nd birthday next Friday.

Mrs. Conforti was born Annabelle Bustiani in Riprafatti, Piana, Italy, February 7, 1875. Her husband was also born in that town. They were married in Yreka, Calif., in 1900. Following a trip to Italy in 1911, the Confortis decided to settle in Oregon and moved to Klamath Falls. For many years Conforti was with Pelican Bay Lumber company. Mrs. Conforti, a member of Sacred Heart church, is survived by her husband and three children, Lillie Pretari and Amelia Pinnelli of Pelican City and Albert Conforti of Klamath Falls. Final rites will be announced by Ward's and present arrangements call for services Wednesday. A full obituary appears elsewhere in this issue.

Junior RC To Pack Boxes

Members of the American Junior Red Cross in the city schools will work in February to pack gift boxes for children in other lands.

This is not a new project since for several years boxes containing toys and other small items have been shipped overseas by American students, but during the present emergency special emphasis has been given to the inclusion of school and health supplies to help make up for the scarcity of such items in war-devastated areas.

The boxes are small, but each always contains pencils, paper, toilet soap, a toothbrush and toothpaste, and a rubber ball as well as items which all students choose to send. All gifts must be "new and clean and of best quality" under Red Cross regulations, and each box is thoroughly inspected before being sent to San Francisco for shipment overseas.

School Boy Breaks Leg

Edward Campbell, 9-year-old elementary student, was a patient at Hillside hospital today recovering from a broken leg received late yesterday when he was struck by a passing car as he left a school bus in front of his home near the Lakeview junction.

Driver of the car was E. Lester Downing of Medford, drug salesman, who stopped the machine immediately and offered to move the child to the hospital. The boy was taken to Klamath Falls by his parents, however, and his injuries other than the broken leg were not found serious. He was dismissed late today. Edward is the son of Mr. and Mrs. I. E. Campbell, farmers.

Secret News Leaks Feared

WASHINGTON, Feb. 1 (AP)—Officials responsible for keeping military secrets are concerned over information leaks in the public writings of retired officers.

In some quarters, government officials in a position to know said today it has reached a point where there is talk of invoking a military law against certain authors still subject to it.

It was emphasized that the objection is not to expressions of personal views on political, military or international matters. What worries the security officials is incidental allusions from which smart counter-intelligence officers of foreign powers might deduce information channels or methods of communication.

One quarter of Hollywood's annual film production consists of "western" thrillers.

How About Klamath Spuds For This Capital Dinner?

WASHINGTON, Feb. 1 (AP)—The Oregon Society of Washington, D. C., is planning a dinner at the Roger Smith hotel February 18 to commemorate the admission of the state to the Union but it is a little shy on home produced food to serve.

Hence it has sent a "please hurry up some grub" call to Oregon business firms asking them whether they do not wish to send some of their food products to be served at the dinner. It hopes there will be sufficient response to convince guests that Oregon can equal the food produced anywhere.

Not long ago the New Englanders had such a dinner and served Maine lobster, fish and potatoes and gave favors consisting of New England products. Other states have done the same. A Washington state dinner last year included huggal salmon, clams, oysters, meat and chicken from that state.

An Idaho dinner served Idaho lamb, roast and chops and some of those large Idaho potatoes. Guests of honor at the Oregon dinner will be Senator and Mrs. Guy Gordon, Senator and Mrs. Wayne Morse, Representatives Ellsworth, Angell, Stockman and Norblad and their wives.

City Briefs

WEATHER

NORTHERN CALIFORNIA—Mostly cloudy; north and partly cloudy south portion today, tonight and Sunday. Little change in temperature. Gentle to moderate variable wind off coast, except moderate westerly extreme north portion. OREGON—Cloudy today, tonight and Sunday with intermittent rain west of Cascades and snow or rain east. Warmer northeast part today. Cooler west of Cascades Sunday. Southerly winds off coast, fresh today; increasing to strong gale force Sunday.

Improving—Gerald Hunting, Merrill potato grower who was admitted to Hillside hospital suffering from hatchet wounds in his head, was reported resting comfortably today. He will remain in the hospital for a time. Hunting was injured early Friday afternoon.

Dismissed—Mrs. Ford (Mildred) Kimpton, employed at Sears Roebuck company, was dismissed from Hillside hospital Saturday after being treated there this past week for head injuries sustained last Sunday while skiing at Crater Lake national park.

Henley PTA—The Henley PTA will meet Wednesday, February 5, at 3 p. m. in the grade school. An interesting program will be observed. There will be some colored film shown on social hygiene and all interested are cordially invited to attend.

Kenyon Improves—Don Kenyon, well known Klamath businessman, is reported as recovering satisfactorily at Klamath Valley hospital from a major operation and is expected to be able to return to his home on N. 10th within a week or so.

Malaria Cure Find Reported

SPRINGFIELD, Ill., Feb. 1 (AP)—Discovery of a malaria cure through wartime experiments involving 445 Illinois convicts who voluntarily were infected with the disease was announced today in a report to the state division of correction and Gov. Dwight H. Green.

Results of the anti-malarial studies carried out at Stateville, Ill., prison over three years "exceeded all hopes or expectations," Dr. Alf S. Alving, project supervisor, said in the report.

Dr. Alving, professor of medicine at the University of Chicago, said the research "eventually would mean 'great relief' for an estimated 300,000,000 persons throughout the world who annually suffer from malaria. The disease causes about 3,000,000 fatalities a year.

The curative drug—named "pentaquein"—was the product of 13,276 consecutive experiments at various university and private laboratories which preceded the Stateville tests.

Senate Approves Dancing Measure

SALEM, Feb. 1 (AP)—Dancing long has been going on in school buildings or Oregon, but the senate finally got around to doing something to make it legal today.

The senate approved and sent to the house a measure to legalize dancing in schools. The bill was requested by the Portland school board.

An estimated 50 per cent of infantile paralysis victims in the United States recover completely.

Disease Report

Only four new cases of communicable diseases were reported in Klamath county during the week ending January 18, according to the Klamath county health office. All four of the cases were from scarlet fever. Reported through the central registry from Klamath county were one case of gonorrhea and two cases of syphilis.

Shower Party—At the regular meeting of the Eagles auxiliary on Tuesday, February 4, at 8 p. m. in the lower FOE hall, there will be a miscellaneous shower for the Baugus family, who lost their belongings and home in a fire. There will be entertainment and refreshments after the meeting.

Anniversary—Mr. and Mrs. Paul Otterbein, 524 N. 10th, celebrated their 27th wedding anniversary Friday night with a dinner with friends. Mr. and Mrs. Fred Heilbrunner, Mr. and Mrs. Carl Schubert and Dr. and Mrs. M. E. Cooper.

Medford Meeting—Paul Otterbein, commander of district 4, American Legion, left Saturday noon for Medford to attend the two-day meeting of American Legion executives. Tom Young, local past adjutant, accompanied him.

Meeting—The Knights of Pythias will meet Monday at 8 p. m. in the IOOF hall. Initiation will be given in the rank of Page. All members are cordially invited to attend.

Medical Care—James Waters of Tennant, Calif., was moved by the Klamath Ambulance Service at 6:15 p. m. Friday to Hillside hospital where he is receiving medical attention.

Movies Shown—Highlights of the World Series games, 146, were shown Thursday when C. J. Cox presented movies which were loaned by Frank Drew of The Gun store.

In Hospital—George Smith was moved by ambulance Friday from the Klamath annex to Hillside hospital for treatment of possible pneumonia.

Vacation—Mrs. C. T. Williams starts a month's vacation from Spencer's children's shop Sunday. She will leave by train for Missouri and Oklahoma where she will visit friends and relatives.

Anti-Splashing Bill Proposed

SALEM, Feb. 1 (AP)—Motor vehicles, particularly trucks and buses, which splash mud, dirt and water on cars which are behind them would be curbed by a bill introduced in the senate today.

The measure would require motor vehicles to be equipped with fenders or covers to prevent the throwing of dirt, mud and water. Maximum penalties for violation would be \$100 fine and 30 days in jail.

Fly fishing rods are now made of glass fiber which equal bamboo rods in elasticity.
