Scientists Hear Lecture

"Is there anything to prevent the spiritual demand of our times from finding its fulfillment?" was one of the questions that George Channing brought to the consideration of his audience at the Christian Science lecture held Tuesday night at the Fremont school. "Can you and I desire and seek after divine intelligence, whose effects are love, health and security, and be thwarted by some influence able to interfere?"

Mr. Channing went on to explain that God is the only power; and God is the mind of man, to be acknowledged and demonstrated. Man is never at the mercy of anything outside himself. It is your privilege and mine to think our own thoughts, to be at one with the Mind that is perfect.

Later in the lecture he touched on the subject of humility, "that glorious quality which robs you of pride but does not rob you of power. Your ability to demonstrate the truth about God and man is God-given. Recognize this fact, and be grateful to the infinite Giver, and you have attained humility."

The lecturer closed with that well-loved passage from the book of Luke, "Fear not, little flock; for it is your Father's good pleasure to give you the kingdom." (Luke 12:32)

Church Urges War Relief

"Ed. Note: The following letter to the church editor asking for support of the clothing drive is printed here as submitted."

"All we can spare? "Have we given all we can spare for overseas relief? "This winter in Europe and Asia is a bleak one with millions going unclothed, starving to death, and dying for lack of shelter and proper medical care. There are literally thousands of unwanted orphans needing clothing and food. Let us consider our responsibility to "feed the hungry and clothe the naked."

"February 16 to 23, has been named as "Week of Compassion." During that period it is hoped that many will gather clean, wearable clothing and take articles to the receiving center, the First Christian church, 9th and Pine. The basement door on Pine street will be open throughout the winter and spring months to receive boxes of clothing. This drive is under the sponsorship of the Klamath Falls United Council of Church Women. "If you care—you will share."

 <p>BEATS Suction lifts the rug off the floor. The revolving brush beats the rug on a cushion of air. Gets out the deeply imbedded germs—and grit and sand that cut the nap.</p>	 <p>BRUSHES The revolving brush sweeps the surface, and the dirt is brought to the surface by the gentle but thorough beating action. Note the brush adjusts itself to the thickness of the particular rug it's cleaning.</p>	 <p>BANISHES The super-powered 1/2 H.P. electric motor sucks up all the dirt, and only the dirt, into the easy-to-empty filter bag. Rugs are cleaner and last years longer.</p>
