Rail Stocks Take Losses

NEW YORK, Feb. 10 (AP) — Rail stocks, as well as most industrials and utilities, suffered from profit taking in today's market although a few favorites contested selling with moderate success.

Prices skidded after a fairly steady opening revived around midday and resumed the retreat in the fourth hour as the carriers met liquidation. Decline of reactions to 2 or more points predominated at the close. Dealings, while slow at intervals, quickened occasionally and topped the million-mark for the tenth successive full session. The day's aggregate approximated 1,300,000 shares.

Wall Street still was bullish over the labor picture, dividends, earnings and the business outlook. Numerous customers reduced accounts, however, on the idea that the recent bulge of the averages to new peaks since last August called for a technical correction. Sentiment also was cooled by a drop in the London market apparently inspired by the critical British fuel situation.

Bonds were uneven. Cotton futures, toward the last, were up 95 cents to $2.35 a bale.

Wheat Keeps Record High

CHICAGO, Feb. 10 (AP)—Wheat advanced to another new 27-year high today on buying created by strength in cash grain at Kansas City and Minneapolis. The March delivery reached $2.21 at one time, best price for any wheat contract since 1920.

All deferred wheat contracts hit new seasonal peaks, but new crop wheat was not as strong as March and May contracts. Some buying was based upon word that the production and marketing administration had hiked its buying price for flour 10 cents a hundred pounds late last week.

Best prices in wheat were not maintained to the close. Selling sent new crop contracts below the preceding finish and final wheat prices were ⅛ lower to 1½ higher, March $2.20.

Young men with no previous military service, enlist as Seamen Second Class, become Seamen First Class in three months (age 17 to 25). Ex-Army and Marine Corps personnel enter as Seamen First Class, can make a Petty Officer rating in less than six months (age to 30). Ex-navy and Coast Guard Petty Officers of the critical rates may re-enlist in their old rating up to First Class (age 35 plus one year for each year of previous service).
