Profit Taking Holds Stocks

NEW YORK, Feb. 11 (AP)—Tire company stocks led a selective rally in today's market although many pivotals still were restrained by profit taking.

The direction was downward at the opening. Prices stiffened by midday. Rubbers exhibited strength in the fourth hour and were followed by assorted motors, rails and special issues.

Pre-holiday apathy ruled most of the day—principal exchanges will recess tomorrow for Lincoln's birthday—but there was a pickup in activity on the revival. Early losses running to two or more points were reduced or converted in advances of as much as three or so at the close. Transfers for the full stretch were in the neighborhood of 1,200,000 shares.

In front were U. S. Rubber, Goodrich, Goodyear, Chrysler and General Motors.

Hesitant were Bethlehem, Woolworth, Douglas Aircraft, Union Pacific, Santa Fe, Johns-Manville, Kennecott, Philip Morris and Standard Oil (N.J.)

Bonds steadied with stocks. Cotton, toward the finish, was up 15 cents a bale to off 30 cents.

Idle Pay Drops In January

SALEM, Feb. 11 (AP)—The Oregon unemployment compensation commission paid out $801,936 in benefits to unemployed workers during January, compared with $1,359,802 in January, 1946, the commission announced today.

However, payments to unemployed veterans under the GI bill of rights increased 42 per cent over a year ago.

Unemployed former servicemen and women got $912,268 in January, compared with $726,350 in January, 1946, while payments to self-employed veterans increased from $51,838 to $194,000.

The commission said the increase in veterans' benefits was due to the fact that there now are 120,000 veterans in the state, compared with 70,000 a year ago.

Grain Futures Gain Strongly

CHICAGO, Feb. 11 (AP)—Grain futures turned strong after a weak opening today on buying by commercial interests and some short covering.

Wheat was for sale at the opening and declined as much as 4½ cents before commercial interests, attracted by the sharp decline started buying.

Corn and oats declined with wheat at the opening but announcement that the commodity credit corporation had advanced its purchase price at Kansas City 6 cents a bushel, combined with a steady cash market to lift corn prices well above the previous close. Oats followed other grains in the day's trading.

Factors in the early decline were announcement by the bureau of agricultural economics that there are peak prospects for the 1947 crop and uncertainty of the government's position in the market.

At the finish wheat was 1½c lower to ¼c higher than the previous close, March $2.20¾.
