Prancing Cottons

... lighthearted as a song or crisp as a starched kindergartner, are still arriving regularly at WHYTALS... adding to an already wonderful array of warm weather chambrays, plaid gingham, casual "linen" weaves, to mention a few.

A fresh selection of chambrays... in light gray, sun yellow and blue... have their simple styling enhanced by wide yokes on which white braid scrolls resemble embroidery work... and a two-piece sky blue cotton of linen-like fabric has an all-over eyelet jacket that's quite fetching.

Cool and summery are Cay Artley's pastel striped cottons, buttoning down the front... and her smart polka dots are well-represented, too, on floral lined grounds. Quality is stressed in the many cleverly designed frocks of Dan Rive's fabrics included in this large selection at Whytal's.

Appealing to Junior Misses are the colorful, full-skirted Pan-American dresses... extremely picturesque... and the Little Alice dresses of garden bloom prints with their wide ruffles. Most of the 9 to 15 sizes for juniors are featuring cap sleeves and the low rounded necklines, as well as other youthful touches.

Cay Artley's Bomberg sheers... most popular for these mid-summer temperatures... are again available at WHYTALS... in the Medical-Dental building, Main at Ninth... in new prints with full gored or pleated skirts... in either regular or half sizes up to 26 1/2... and, besides, there's a variety of summery, rayon prints fashioned especially for larger figures!

The skirts of old formals can be converted into long, apron-like skirts, with the around-belts for wearing with lounging pajamas, converting them into a hostess gown.

Drapery Service

is a specialty of YOUR STORE Inc., 721 Main... and to aid you in selecting the most effective color combinations and materials for beautifying your home, the upstairs drapery department has obtained a wide range of swatches in new fabrics and designs to take home for matching.

Your Store will gladly have drapes made up to your specifications... and, in addition to a variety of yardage materials, can supply you with ready-made drapes and most all types of curtains in white... or in colors... for over-drape effects. Dainty ruffled curtains... in the shortage class for... are now obtainable in all widths from 45 to 96 inches.

Decidedly helpful toward more artful curtaining are the displays arranged in YOUR STORE's drapery department... showing interesting new ideas, such as the festoon arrangement for which special festoon rings are available.

Texagon, a new, closely-knit mesh with lock-stitched construction resembling a sided honeycomb, is providing strong, less saggy net for evening gowns.

Chopped Meats

for wee tots... all prepared, put up in little tins... are given more variety with the entrance of Swift & Co. in the baby food field... and you'll find this entire new line at PINE STREET MARKET... along with strained meats for mere infants.

Among Swift's chopped meats for Junior are Beef, Veal, Pork, Lamb, Heart and Beef Liver... and the same selection is available in strained meats for infants.

Even if we can't get entire meals quick-frozen such as we've been reading about... the Market can certainly supply about everything in frozen foods, separately packaged, for preparing a whole dinner quickly, easily and economically. Martha thinks, because there's no waste.

The arrival of a shipment of Birdseye Country Style Frying Chickens this week provides a delicious main dish... and for the rest of the menu, there's frozen sweet corn or asparagus... strawberries or ice cream. And this is only a smattering of what you'll find in the frozen food compartments at PINE STREET MARKET... corner of Seventh and Pine. Four deliveries daily provide quick service on these items, too... and they're carefully wrapped to prevent thawing!

Seamless hose are growing in popularity to lick the problem of spiraling seams. The seam-proof nylons use new construction principles for leg fit and special twin gusset heels for foot fit.

Spring Freshness

for Easter suits is accented in new blouses just unpacked at WHYTALS... in the Medical-Dental building... lace-front nets in pale pink or white... enchanting crepe sheers with lady neckline effects... and petal-soft white rays with dainty lace inserts. Of course, you'll find lots of other styles... tailored or dressy... in Whytal's blouse department.

Summer Casuals

in cotton fabrics have turned LONG'S into a veritable garden of color... with linens, chambrays, gingham vying with seersuckers, cotton gabs and white piques for popularity.

Already going out fast are the Pat Preme cotton creations of checked gingham one and two-pieces for sports or street wear... but every bit as smart in Martha's estimation... and of perfectly luscious shades... are the simple, tailored linens of petal pink, daffodil, geranium red, robin's egg blue, gray and white on which a belt of simulated leather is the only trim.

Striped effects are many and varied in this selection at LONG'S. Pin stripe chambrays have a neat effect look about them, roomy, slashed pockets at the hipline and contrasting belts of corded silk. The striped gingham are of vivid pastels in several striking combinations... and the practical seersuckers, too, go in for striping in both the one and two-piece styles. Completely different and quite saucy are the bright red, green or black gingham with their horizontal rick-rack designs and white straw belts.

Many of these casuals... including the long and short-sleeved cotton gabs in sunshine colors... follow the trend of "golfer" dresses with button-concealed fly fronts... and practically all are easy-to-slip-on styles.

A little more dressy for hot weather wear are the impeccable Shantungs in lovely pastels with all-around pleated skirts... and the blithe Bomberg sheers now arriving at LONG'S APPAREL... 719 Main.

Skin Stimulants

... concocted by Helena Rubinstein's beauty chemists... the Eau Verte, Eau Qui Pique, Eau D'Or or the Wake-Up Lotion... are in a class by themselves... and you can obtain any of the excellent preparations at CURRIN'S... where the Rubinstein line is an exclusive!

They're unequalled in the way they give the skin a youthful lift, the feeling of "exercise" which invigorates... when used after cleansing with cream. Of course, you don't need all four stimulants... because all have a similar action on the skin, but are different in strength. Therefore, Martha advises that you consult Connie Baert who will recommend the one having the action most needed for your individual skin.

In addition to stimulating, the Eau D'Or has a bleaching quality for sallow or blemished skin... especially advised for redness left by pimples. The Wake-Up Lotion... mildest of all... sells for \$2.00 and tax... while the other three items are all priced at \$3.00 plus tax... at CURRIN'S FOR DRUGS... corner of Ninth and Main.

Purse Materials

are being closed out by the art department in MILLER'S... and all items for hand-made bags... including pulis and linings... are reduced to half price. Another special being featured is the reduction of white nylon crochet thread from the regular price of 25 cents to 15 cents.

Among new Bucilla stamped goods ready for your needle are lace-edged dresser scarfs in ecru... priced at \$2.19... dainty vanity sets of pure white linen for \$1.49... with two sizes in matching scarfs at \$1.39 and \$1.49.

Bucilla's linen table cloths which just arrived sell for \$4.89... and hemstitched luncheon cloths of white Indian head for \$2.39. The dinner cloth... size 52 by 70... is \$3.25. There are napkins to match if you desire.

The art department in MILLER'S... 512 Main... specializes in stamped items for infants, too... and among the newbies in these are pink, blue or white baby blankets... sheet and pillow case sets.

Interesting is the fact that "Instant coffee" was discovered in 1900 by a native of Belgium who was residing on a Guatemala plantation. By 1910 the idea had been perfected and was being marketed. Down through the years this industry has grown into an important factor in meeting America's huge annual coffee consumption.

Now shared with the world via the tin can... is Genuine Bayou La Batre gumbo, a delectable concoction of shrimp, crab meat, oysters, okra and tomato paste.

"Wired For Beauty"

are the new Rosanne Tri-Bra on display in LaPOINTE'S foundation garment department... and besides being designed for action and comfort, they're so pretty that you won't even mind if a bit peeks through!

These adjustable, strapless bras are a blending of celanese rayon and fine lace... in a choice of white, teardrop or black... sizes 32 to 38... and the \$3.95 price is modest enough so you'll want one of each shade... as they're practically a necessity for wearing with shoulderless gowns, sunback dresses or sheer blouses. The wire frame of stainless steel... providing alluring uplift and perfect fit... is easily removed for laundering.

The foundation department in LaPOINTE'S... 507 Main... now has a complete selection in those comfortable satin elastic pantie girdles... from 26 through 32-inch waists... in white, teardrop or black.

Rose Bushes...

ornamental shrubs of all varieties... fruit trees... evergreens... all these yard beautifiers and many others are now ready at the K L A M A T H FLOWER SHOP'S Sixth Street Greenhouses... and planting time is within the next month... so it behooves you to be making an early choice.

Rows upon rows of Easter lilies are coming into bloom at the Greenhouses... and visitors are invited to see this lovely sight. In fact, you're welcome at any time... without obligation!

Among the many tempting displays always found at K L A M A T H FLOWER SHOP... 1211 Main... is the copper line of planters, cornucopia wall vases and other flower holders of intriguing shapes. Adding to this selection is a new shipment received Friday containing two old-fashioned styles in low candle holders... beautiful hanging "baskets"... and fluted or hammered bowls in large and medium sizes... any of which would make a wonderful Easter gift along with the traditional bouquet.

Holmes & Edward

inlaid sterling service sets... in three distinctive patterns... are available for immediate delivery at RICKY'S... and they're surprisingly moderate... so much so at the \$68.50 price that you don't mind giving these sets every-day use... making them both ideal and practical for a bride's first silver.

"Danish Princess" with its crown pattern is most ornate of the three. "Lovely Lady" is charmingly dainty in design... and the "Youth" pattern, extremely simple. All three are 52-piece services... meaning service for eight... and price quoted above includes the chest.

While you're shopping at RICKY'S JEWELERS... 700 Main... be sure to look for the artistic Easter egg creations in the attractive display windows. They were painted and prettied by the girls in the store.

Pillow Cases...

clearly stamped ready for embroidery... have been received in three patterns... the Basket, Cross Stitch Band, Rose and Lattice... by the ART NEEDLEWORK SHOP... in the Melrose building, across the street from the courthouse... and are priced at \$2.25 a pair. A plentiful stock of rayon embroidery thread is also available here... in plain and shaded colors.

Answering many inquiries received lately in regard to purse materials... Kathleen Kriz told Martha that her shop is fully supplied with Corde and Strawline in all shades... as well as linings, handles and poles for hand-made bags. Or you can have your handbag made to order.

ART NEEDLEWORK SHOP... 325 Main... has started giving S & H Green Stamps on all purchases. You'll be interested to know...

Out of New Orleans' Mardi Gras has come a collection of carnival-inspired prints on which designers have captured the pure fantasy of carnival symbols... black dominoes, court jesters, balloons and fans, parade scenes and sky rocket patterns.
