

New Orleans Faces Acute Milk Shortage As Strike Continues; Trains Halted

NEW ORLEANS, March 27 (P) New Orleansians, their milk supply already drastically reduced by a strike of Florida dairymen, were faced today with a boycott called by officers of the Teamsters' Brotherhood (AFL) against stores and other enterprises using milk from New Orleans dairies.

Brotherhood officers said the boycott would affect union locals in New Orleans, the state capital of Baton Rouge, Lake Charles in southwest Louisiana, and Amite and Franklinton in the strike area.

The strike already has cut the city's daily supply of 62,100 gallons of milk by 80 per cent, according to an estimate of Charles Hall, director of sanitation in New Orleans and residents wondered how much greater a cut would be effected by the boycott of stores which normally handle fresh fluid milk.

Meanwhile, despite orders to the state police to "keep the roads open," the striking dairymen from the Florida parishes (those east of the Mississippi river) continued to halt trucks and trains in their efforts to cut off the supply of milk from New Orleans.

Illinois Central train No. 3 was stopped last night at Amite for the second time. There was no milk aboard and the farmers allowed the train to proceed. Trucks were halted there throughout the day but none was found to be carrying milk.

The strike was called Monday after New Orleans dairies had notified producers they were cutting the price of milk with four per cent butterfat from \$5.75 per hundredweight to \$5.20. Thousands of gallons of milk were dumped from truck and train shipments Tuesday.

"Big Show" Of Bowling Opens Tonight In LA

LOS ANGELES, March 27 (P) The American Bowling Congress, annual big show of the nation's keggers, gets under way tonight for the first time west of the Rockies, with a host of dignitaries invited to participate in the launching ceremony of the 47-day tournament.

The national guard armory in Exposition park, next door neighbor of Los Angeles' huge Olympic games stadium, the Coliseum, was redecorated for the event in a Spanish motif, and, according to ABC custom 36 new alleys were installed.

Busch Opens Ashland Agency

Jim Busch, formerly of Klamath Falls, is now located in Ashland as the Ford Motor company dealer in the valley city. Busch lived here for a number of years when he was affiliated with the Pacific Finance corporation, later moving to Portland and then Eugene where he was connected with the First National bank.

Mrs. Busch, former teacher at KUHS, is remaining in Eugene with her two children until suitable housing can be found in Ashland.

photographer, had his camera snatched away today when he tried to take pictures of a train search, and was warned against taking pictures with a borrowed one.

When his camera was returned, he said, he was told that it didn't matter if the camera were broken "because no more pictures are going to be taken."

Then several men seized Allen and one of them said "Let's hang the — and get him out of the way." After several minutes of discussion along this line, Allen was released and told to "forget you ever had a camera."

The photographer left shortly afterward to investigate the activities of strikers in the nearby town of Loranger.

"I understand the trees are skinnier over there," Allen told a friend. "I'm a pretty heavy man and I got to get away from these big strong trees at Amite. These are real hanging trees."
