We love 'em in December as we do in May

REMEMBER the day you first romped away in that Buick of yours? How those eight Fireball cylinders fairly floated you over the hills—how those road-steady two tons of lively car answered sweetly every light touch of your hand on the wheel—how you glided along with foursquare BuCoil springing smoothing every wrinkle in the road?

That's what your Buick was built to do. Years and years of that kind of driving are in it—especially when it gets the interested, informed car care this fine an automobile should have.

That doesn't mean just periodic lubrication, a body wash, battery check or bolt-tighten. It means thorough attention by competent Buick men—attention that keeps a Buick always a Buick.

Buicks are our babies. Even the smallest details are handled the way they should be for a Buick. We have Buick tools that do jobs better and quicker. We have men who know Buicks best. We have Buick-engineered parts that are precisely right for your car.

Put that all together and it's Buick car care. Pretty clear, isn't it, that here is where your Buick will receive the best attention? After all, we love 'em heart and soul.

"TOP" SECRET

One of the things that play a part in Fireball snap is Buick's wafer-thin steel cylinder gasket. Just 15 thousandths of an inch thick, it's a "must" for the high compression this powerful straight-eight is designed for. Other kinds that are thicker cut down the compression and the car's liveliness.

In carbon and valve jobs, or any other where this gasket must be replaced, only this Buick gasket will assure the fit Buick engineers intended. No wise Buick owner would have any other in his engine.

Just another example of how you get more for your money—in major adjustments, tune-ups, lubrication or anything your car needs—when you make sure it gets Buick car care.

What Is a Customer?

"A customer is the most important person ever in this station... in person or by mail."

"A customer is not dependent on us... we are dependent on him."

"A customer is not an interruption of our work, he is the purpose of it. We are not doing him a favor by serving him... he is doing us a favor by giving us the opportunity to do so."

"A customer is not an outsider to our business... he is a flesh-and-blood human being with feelings and emotions like our own, and with biases and prejudices."

"A customer is not someone to argue with or match wits with. Nobody ever won an argument with a customer."

"A customer is a person who brings us his wants. It is our job to handle them profitably to him and to ourselves."
