

Recreation Program For Merrill Gains Momentum

MERRILL, May 1—Interest in the proposed community recreation program for young people is gaining momentum with efforts of all civic and social organizations of Merrill being coordinated to make the venture a success. Kick off for raising funds for providing playground equipment, athletic material, vacation education material and remodeling of the half of a school building from the WRA center at Newell will be a dance, probably May 17.

The program as now planned will be a year round undertaking with full time salaried supervisor who will instruct youth in a wide variety of sports, both indoor and outdoor and in many of the handling of the program. The finance committee headed by

Rotary Area Divided

TULELAKE, May 1—Big Rotary district No. 105 has been divided and part of it in the Reno district is now district 108. Voting on the proposition was on the program for the district meeting at Berkeley, Tulelake will remain in the district with Oakland.

Two new district governors were also elected at the meeting held last week-end at San Francisco with Carl Ekos, of Hayward, new head of No. 105, and Foinaine Johnson, Sacramento, of the newly created district. District No. 105 has been one of the largest in California.

Going down from Tulelake were Rev. Hugh Bronson, president of the Tulelake Rotary club, and Mrs. Bronson, W. R. Moore, Ralph Fausett, Jerry Van Buskirk and Mr. and Mrs. Herman, and T. S. Street. Street is treasurer.

Lloyd Pugh of the Merrill highway will operate an automotive repair shop now under construction by E. F. Breithaupt, owner of Mac's store near Henley. The new building of pumice tile will be completed about June 1. Walter Fotheringham, Merrill, is doing the building. Pugh was employed at one time in the machine shop on Shuck brothers ranch.

W. H. Homes, district distributor for Union oil products hopes to raise the entire cost of financing the building and equipment purchased in the immediate future so that no further demands need be made on the public for contributions. It is expected that \$10,000 will be needed to put the program on an operating basis and quotas suggested for community organizations to raise have been readily accepted.

Later administrative costs of the program will be worked out between the city council and a board of directors appointed by the council.

Homes is being assisted in plans for raising the \$10,000 by Alonzo Hodges, Merrill postmaster; Dick Marks, owner of Mark's cafe; Tony Silva, building contractor and Don Barnes, potato buyer and grower.

The building, now on the grounds in the city park will be remodeled to provide for an auditorium for gatherings, a banquet room and kitchen and a room for the city library. Floor space will be \$0 by 100.

This type of program has long been needed here and the committees are seeking the cooperation of individuals as well as organizations in making it possible. The idea originated with the Merrill Service club.

Malin

Malin home extension unit met April 22 at the home of Mrs. William Rajnus. Mrs. Winnifred K. Gillen gave a demonstration on "Clean As You Go." Projects were suggested for next year's program and officers were elected with the following results:

Mrs. Emmett Lahoda, president; Mrs. Lloyd Mock, first vice president; Gladys Rajnus, second vice president and Mrs. Don West, secretary-treasurer. New officers were installed by Mrs. Gillen. Mrs. Lahoda presented Mrs. Gillen with a gift from the Malin unit in appreciation of her work. Others present for the meeting were Mrs. Jack Minkler, Mrs. Rudy Jelinek, Mrs. Joe Halonsek, Mrs. W. C. Dalton, Mrs. Emil Tofel, Mrs. James Ottoman, Mrs. Dick Hensel, Mrs. Edwin Petrasek, Mrs. Jerry Lyons, Anna Cacko, Laddie Rajnus, Mrs. Elizabeth Rajnus, Mrs. Frank Payr, Mrs. Betty Lou Byrnes, Mrs.

Perry Haley, Mrs. C. H. Johnson, Mrs. C. Cornett, Mrs. Scott, Mrs. Maude Melton, Mrs. Harold Rowe, Mrs. Ivan Ottoman.

Irene's fountain, under the management of Mrs. John Freitag, had its grand opening Saturday, April 26. The store is handling a complete line of fountain service. It will open at noon and be open Sundays and evenings.

The ZCBJ lodge is requesting that everyone interested in the Malin cemetery be on hand next Sunday, May 4, to help clean up the grounds.

Malin firemen met April 21 in the city hall. Plans were discussed for the construction of a new fire station and the installation of a new siren. Jack Slesyskal, Vac Kalina and Emil Tofel were appointed on the building committee, and Bill Rajnus will handle arrangements for the siren. William Saunders, vice president, presided.

Sewer Run-Off Plan Okayed

TULELAKE, May 1—The U. S. bureau of reclamation has tentatively approved dumping of run-off from storm sewers into drain ditches adjacent to the city and with this stamp of approval city fathers expect to present the proposition of installation of storm sewers, curbs and gutters to voters at the special election on May 27 when the proposed form of charter government for Siskiyou county will also be balloted on.

It is probable that a separate ballot will be issued for the city proposition which will call for approval of general obligation bonds totaling \$60,000 for the sewers and formation of an improvement district for installation of curbs and gutters. This project will cost probably \$80,000 and will be divided among property owners of the entire city.

Storm run-off, since the townsite was established, has created a serious problem since the area has little land fall. Maintenance of city streets has been hampered and property has suffered.

Clarence Shelato, co-owner with James H. Brownfield of the El Rancho, Tule, returned last weekend from Illinois, where he visited relatives at Danville. He spent some time also in Chicago and on the return trip by car drove 1700 miles in two days and nights.

N. C. Wilkinson trucked 50 head of two-year-old Hereford steers from the Charles Green ranch at Dorris to pasture at Merrill this week. Wilkinson has been buying beef cattle out of the state also.

New Station Opens In Tule

TULELAKE, May 1—The city's newest modern service station which is handling Union oil products has been opened to the public by Greg Brooks, Tulelake, who has leased the building from John Kandra Jr.

The "L" shaped building is in the new addition on Main street and has facilities in the two story wing for an auto display room. Three apartments occupy the second floor. An office will be maintained in this part of the building also.

Work is still continuing on the shop which when completed will have four bays in addition to storage space.

Brooks was employed for three years by L. A. Scott, manager of the Shell Oil station on Main street.

A. B. Cummins, Klamath Falls, was the contractor. A grand opening is planned when the building is ready for inspection.

Carl Coulson, son of Mr. and Mrs. C. C. Coulson, who will receive his diploma from Stanford university in June, is home until that time, having completed his requirements for his degree in engineering.

The El Rancho is undergoing extensive remodeling and redecorating.

Young men, 17 to 30—if you are accepted by the U. S. navy, you can be assured that you are physically and mentally fit and of good character.

Gloria Ann Griffin attended her first public program on Tuesday afternoon when the fifth grade, of which her sister Merleene is a student, presented an afternoon for guests. The tiny girl had had few previous chances to make a public appearance for she was only 10 days old. She is the daughter of Mr. and Mrs. Lester Griffin.

Mrs. Edward Doty arrived from Mowich on Tuesday evening for a visit with her daughter, Mrs. Miriam Baldwin.

Bill Zeller, son of the Rev. and Mrs. Harley Zeller, arrived this week from Oakland, Calif. He is still in Uncle Sam's employ but terminal leave will end on May 12 and he will be a civilian getting ready for college.

Mrs. Lou Kellison returned from San Francisco last Saturday but will travel occasionally to the bay city for medical treatment.

Mr. and Mrs. William F. Evans of El Monte, Calif., arrived last week-end. Their daughters have been staying with the Jesse Mangum and attending the local schools.

The Evans will make their permanent home in Klamath Falls, where he will be employed as an electrical engineer.

The regular meeting of the Women's Society for Christian Service was held on Tuesday evening at the Pine Ridge home of Mrs. Les Hoback.

Mr. and Mrs. Archie Lawver have been plagued with a gremlin or two in their car. Several days ago the Lawvers, with their two young sons, started for Lapwai, Idaho, for a vacation with his parents, formerly of Klamath Agency. At Chemult engine trouble forced them to turn back. Again on Tuesday they started. The second journey took them only as far as the Fort Klamath junction so the Lawvers are spending that long-awaited vacation at home.

Hob Amicke and his granddaughter and husband, Mr. and Mrs. Ed Thiss, left on Wednesday morning for Los Angeles, where they will make their home close to Amicke's daughter, Mrs. Al Watson.

Mrs. Viola Ruff entertained at a Wednesday evening dinner in honor of her daughter, Edna Mae's birthday. Guests were Mr. and
