

# Appliance Shop Sold

The appliance department of the East Side Electric company, purchased March 1 by Bob Robbins, Ward street, and Howard H. Henry, 1505 Hope, will now be known as the Robbins-Henry appliances, the owners announced today.

Robbins formerly managed the department for Ray Biggers from whom it was purchased. He has lived in Klamath Falls for many years and founded the Klamath county branch of the Bend-Portland Freight company over 10 years ago.

Henry sold for Balsiger Motor company before he served with the navy during the war. After his discharge he returned to the Hawaiian Islands as a civilian and was married there before he came back to Klamath Falls to go into business with Robbins.

# Back To Prison

Mrs. Margaret Ann Martin, above, waits in Toledo, O., for officials to return her to the Ohio state reformatory for women, from which she fled 13 years ago. She was arrested in Toledo where police said she had lived a crime-free life, since her escape.

# Post Office Fund Rapped

WASHINGTON, May 8 (AP)—Senator Bridges (R-N.H.) charged the post office department today with a "clear cut case of brazen propaganda" by apparently circulating word that mail service must be cut because congress has failed to provide necessary funds.

Asserting that he wanted to "nip the report in the bud," the chairman of the senate appropriations committee told newsmen:

"The truth is that the post office department is living way beyond its means and if there is any blame to be made for having insufficient funds it does not rest on congress but on the bureau of the budget and the department itself."

# No Threat To Marine In Merger

WASHINGTON, May 8 (AP)—Gen. Dwight D. Eisenhower, backing legislation to put the armed services under a single cabinet officer, said Wednesday there is no reason for concern that the army would then swallow up the marine corps.

The army chief of staff told the

house expenditures committee that more than a year ago he proposed a marine corps of 50,000 or 60,000 men—about three times its pre-war strength.

He said he was agreeable to any protection for the marine corps' future that congress cared to write into the legislation.
