Spud Cutting Starts Here

Spud cutting is under way in a number of cellars in the basin and planting is progressing toward its peak.

Most growers are using the same help they have used for years in the spud cutting for seed, but any who does not have sufficient help may call the farm labor office, 8241. A long list of experienced potato cutters is on file at the office and most of them can provide their own transportation. Clyde James, manager, advised today. There are at least 25 women cutters with cars. James said, and both men and women have filed application for farm labor.

SALES LADY
MORRISVILLE, Pa., May 12 (AP)—Guild ladies of Morrisville Presbyterian church were having a rummage sale and Church Custodian Richard Watkins peeled off his new topcoat to help.

"Got a good price for it, too," she said.
