Merrill

The Boy Scouts made a survey of Merrill Saturday to determine how many people were using city water. This will enable the city to estimate how much water will be required so they can install a tank of adequate size at the new site beside the community hall where work is already in progress.

A cabin belonging to Bill Hodges was destroyed by fire Sunday afternoon. The cabin was occupied by the Chester Scott family, all of whom escaped the flames but most of their possessions were lost. A six-year-old neighbor boy named Surratt was staying with them at the time, and all of his clothing was lost. The VFW auxiliary is sponsoring a drive to get clothing and household equipment for the family. Items especially needed are clothing for the six-year-old boy and a 6-month-old baby, and bedding. Donations will be greatly appreciated and may be left at Mrs. J. E. Huntwork's home or with Mrs. Tom Chatburn Sr. at her home.

At about 3 a. m. Monday morning, fire broke out in the Carol Surratt apartment, which is part of a five-apartment dwelling owned by Bill Hodges. None of the family was injured and quick response to

the alarm by the Merrill volunteer fire department prevented the fire from spreading to the other apartments. Surratt has been seriously ill in the hospital in Klamath Falls for several months and the community extends sincere sympathy to this family in their added misfortune. Most of the household effects were saved and according to Mr. Hodges, the house was insured but the cabin destroyed earlier was not.

The nozzle is principally for fighting fires within walls and inside cars, etc. The department purchased two of them.

The department purchased two of the large tanks to add to the present equipment.
