The woman who heard her first Radio Program in 10 years
Because I helped HER HEARING!

I don't think there ever was a woman who lived so much through her radio. It was her life. Just think of the big blank in her living when she could no longer listen to her favorite programs. Her family came to me when they heard about a new hearing instrument. They told me that she was starting to live apart from them—almost alone in her silence. I had them bring her in for a FREE demonstration of a hearing instrument UNLIKE any other in the world. Her family now tells me this woman is happy, eager and smiling again—listening to her radio with new enjoyment—once more a part of her family.
