

SOVIET MOVES IN BALKANS MAY BE STALIN'S ANSWER TO TRUMAN

By The Associated Press
A communist maneuver against the conservatively-dominated government of Austria was reported in Vienna today, adding to the swift-moving sequence of events which many Western diplomats regard as Stalin's answer to the Truman doctrine.

A high personality in the Austrian administration quoted a leading Austrian communist as saying Moscow would refuse to sign a peace treaty with the present Austrian government. The communist, Ernst Fischer, was quoted as telling two Austrian cabinet members

that he had definite information from Moscow that repercussions could be expected if "Western orientation" in Austria remained unchanged.

This drew significance from the communist Copu in Hungary, which forced Premier Ferenc Nagy out of office, and the arrest in Sofia of the chief of Bulgarian opposition to the Soviet-supported communist regime.

Second Letter Sent
The British sent a second letter to the Russian commander in Budapest asking copies of documents allegedly implicating Nagy in a plot to overthrow the Hungarian republic.

British Maj. Gen. O. P. Edgumbe made the demand in replying to a letter from Soviet Lt. Gen. V. P. Sviridov, acting chairman of the allied control commission, in which Sviridov said he was unable to comply with a request for the documents because he already had turned over the documents to the Hungarian government and was authorized to give them to "the Hungarian government only."

He added that these copies were the only ones in the possession of the allied control commission—of which the Americans and British are also members.

The Hungarian coup, which President Truman has called an outrage, still was being studied in

Washington. The administration was reported determined to seek full disclosure of Russia's role in the establishment of Budapest's new communist regime.

World interest centered on the U. S. state department's plan to send a strongly worded note of protest to the Soviet Union against the Hungarian stroke, but in Moscow, the Soviet press made no mention either of the prospective note or of President Truman's comments on the events.

Troops Maintained
So long as no peace treaty is signed with Austria and the allied occupation continues, Russia can keep troops in Hungary to maintain communications with her occupation forces in Austria. Retention of such troops conforms with terms of the treaty signed by the allies with Hungary.

Russia has extended recognition to the Austrian government, along with France, Britain and the United States. Since recognition was extended, Austria, under Socialist President Karl Renner and Conservative Chancellor Leopold Figl has firmly opposed Yugoslav claims

to Styria and Carinthia, Yugoslavia's claims are backed by Russia.

A chief stumbling block to the Austrian treaty, however, has been the argument over definition of German assets in Austria. The council of foreign ministers at Moscow failed to agree on that. Deputies of the council have been meeting in Vienna in efforts to pave the way for a treaty draft at London next November.

In Sofia, Opposition Leader Nikola Dimitrov Petkov, under arrest on a charge of plotting against the communist-dominated regime, declared his arrest was "nothing but a prolongation of what has already happened in Hungary." Petkov was accused of having "participated in the formation of conspiracy organizations." Vladimir Topencharov, chief of the Bulgarian government press bureau, said Petkov "acted in fulfillment of suggestions of certain international circles which wished to establish in Bulgaria a government contrary to her democratic and international interests."

Re-Survey Of Timber Started
LAKEVIEW, June 7 (AP)—A re-survey of the timber resources on the Fremont national forest has been started here by three men from the forest and range experiment station of the Pacific Northwest regional office at Portland. It was announced this week by Merle S. Lowden, supervisor of the Fremont.

This survey, last made here in 1935, is aimed at determining the amount and types of timber on the forest. It is started by a study of timber cutting and sales at the Lakeview office, and will be continued by field trips and study of the forest through the summer. The report will be completed this winter and should be available next spring.

Flashes Of Life

THE WORM TURNS
SALEM, Mass., June 7 (AP)—The sea worms of Collins Cove are exceptionally good fishing bait and bring ten cents apiece in some markets.

In fact, they are valued so highly that City Councilman James J. Muse said approval had been given for appointment to protect these worms from poachers.

QUITE A LOAD ON
NEW YORK, June 7 (AP)—The Liberty ship Paul Bunyan wobbled and shivered at sea a few days out of Liverpool, England, Chief Engineer Leonard W. Balentine reported yesterday when the ship docked here.

But it wasn't the cargo—1200 tons of Scotch whiskey—that gave her the wobbles. Balentine said the ship's propeller had snapped.

FALSE ALARM
SEATTLE, Wash., June 7 (AP)—Bank Teller Otto Krueger thought he was in for some excitement when a man carrying a pistol and a paper sack walked up to his cage. Said the stranger: "This is not a stick-up. I just want these \$50 in bills changed to quarters."

Krueger changed the bills and

Dentists Row Over Treatment

PORTLAND, June 7 (AP)—A Texas dentist's assertion that he had found a way to keep teeth from decaying still provoked arguments today in the final session of the annual Oregon State Dental association's meeting.

Dr. Bernhard Gottlieb, Dallas, Texas, started it all yesterday in a speech before the assembly, describing a process that he said seals off tubules in the teeth and prevents decay from getting a foothold.

He advocated two formulas—one using silver nitrate, the silver then precipitated by calcium chloride, the other using zinc chloride, precipitated by potassium ferrocyanide.

Dr. Gottlieb said either one of these should be applied three times annually during tooth-forming years. After the age of 20, application would be necessary only when new parts of the teeth become exposed at the gums, he said.

The teeth must be completely clean and dry, and applications, which would require at least two hours, could be made only by a qualified dentist, he said.

Considerable argument followed in the meeting hall lobby, reaction of other dentists varying from enthusiastic acceptance to rejection of the idea. Some said it was a modification of an old technique.

Ella Redkey To Head Camp

Ella Redkey, physical education instructor at Jefferson high school, San Francisco, and member of the Klamath Falls family, has accepted the directorship of the Girl Scout camp at Camp Esther Applegate, Camp will open July 13 for a period of three weeks.

Miss Redkey was educated in the Klamath Falls schools, is a graduate of the University of Oregon, spent one summer at Columbia university, New York, and took her fifth year of college work at UCLA. Miss Redkey served as counselor at Camp Cleawax, Florence, Ore., Eugene's Girl Scout camp, was waterfront director at the local camp for two years and counselor at the Medford Girl Scout camp. She also served at the aquatic school at Coeur d'Alene, Ida. Miss Redkey earned her college funds by life guarding during those years. Hobbies include photography, handicraft, metalware, etching and leathercraft as well as wood carving. She assisted in the recreation program in Klamath Falls while engaged as teacher in the public schools here.

The camp committee today expressed gratification on Miss Redkey's acceptance. She will be assisted by a competent staff. Committee members are Mrs. Don Kenyon, chairman; Mrs. J. V. Owens, John Sarginson, Mrs. Roy Carter, Mrs. Rollin Thompson, Mrs. W. M. Bond and Mrs. L. A. Murphy.

Camp opens July 13 and continues for three weeks. Seventy-five girls are accommodated each week. Registrations are still open but the first week is closed. There are a few accommodations available for two-week campers, the committee announced. Balance of the fee for two-week campers must be paid two weeks before the camping period.

Garden Owners Mount Guard

The annual ravaging of flower gardens is in full swing now and home owners are making their annual complaint.

Broken rose bushes, trampled flower beds and scattered blossoms are reported from nightly raids on gardens, and irate "green thumbs" are up in arms.

Much time, energy and expense expended in making a garden is lost in a night of pillage and destruction, and gardeners state that raiders may expect a good wetting from the garden hose, hot water, buckshot or retribution from the police department, if caught.

Put yourself on EASY Street

SKIP styling for a moment — it's pretty well admitted by now that Buick has called the turn on the shape of cars to come.

And for the present, slide over performance — with that big bonnetful of Fireball power, nobody's going to challenge you much on the open road.

What else has the trim Buick got that others can't quite come up to? You find one big answer where the cobbles are plentiful, the car tracks tangled, the bumps big.

This brawny traveler has a *riau* — a smooth, level, easy stride that makes you think of a canoe drifting in quiet waters.

One reason: It was Buick that first introduced the American public to soft, gentle coil springing on all four wheels.

when you seat yourself in a Buick. You make every road a better road—every ride an adventure in smooth and buoyant comfort.

Why not drop in and learn more? Whether you have a car to trade or want to talk on a "clean deal" basis, you'll always find a warm welcome here.

It was Buick that first made it possible for each wheel to step over bumps as they came along, leaving the frame and body to pursue their level way undisturbed.

Buick's coil springs keep their gentle softness always. They need no greasing or attention. They are unaffected by dirt, wear or the weather, and breakage is practically unheard of.

The net of it all is that you put yourself on Easy Street

ONLY BUICK HAS ALL THESE STAR FEATURES

- ★ AIRFOIL FENDERS ★ FIREBALL POWER
- ★ FLITWEIGHT PISTONS ★ PERMI-FIRM STEERING
