M. J. Shumate was elected chairman of the Wocou Community club at the group's second meeting, with Dorothea Buck, vice chairman; Martha M. Hurd, secretary, and Mrs. Emmett Chidester, treasurer.  
The men of the club volunteered to donate their time and effort to re-roof the Silver Dome, where meetings will be held. Because of the lack of heating facilities, the last meeting was held at the Fred Howard home.  
On the program for the evening were Janie Burgess and Richard Blevins, who received awards from Mrs. Frank Hurd of bright western shirts given to each for their part in the program. Ten-year-old Jimmie McGee took honors in a guessing contest.

# Artillery Flown Into Chinese City

NANKING, June 10 (AP)—Artillery regiments were flown into Mukden today to strengthen the Manchurian city's outer defenses as strong communist forces battered Szeppingkal to the north and the Fushun area to the east.  
Mukden dispatches to the pro-government newspaper Hsin Min P. o. said 50,000 red troops had renewed attacks on Szeppingkal, 60 miles southwest of Changchun on the Mukden-Changchun railway. The same dispatch said severe fighting had developed around government-held Fushun, 20 miles east of Mukden. The report said the communists appeared to be moving troops in to form an arc around Mukden on the north and east.  
General Arrives  
From Changchun, the official Central News Agency reported the arrival of Gen. Sun Li-jen, American-trained former commander of the government's crack first army. He left his command because of differences with Manchurian commanders but was recalled when the communist offensive developed.  
Travelers reaching Peiping from Antung, on the Korean border, said the situation within Antung three days ago was critical. This lent credence to a Chinese news report that the nationalists had evacuated the strategic city under communist fire.  
Fresh government reversals on the Manchurian front cast doubt on the government's ability to halt the communists' powerful spring offensive toward Mukden.

# Why We Say

**BORN WITH A SILVER SPOON IN HIS MOUTH**  
Godparents at baptism in medieval times presented the child with a set of 13 spoons—one for each of the apostles and the 13th for Christ. Poor children received wooden spoons but children born to wealthy parents were presented with silver sets. So we still say "born with a silver spoon in his mouth" when referring to a wealthy child.

# HISTORIC EVENTS in the ADVANCE of MEDICAL SCIENCE

It was just a century ago that three men voluntarily risked their lives and put themselves under the influence of ether. One of the "vapors" of untried chloroform. They wanted to see if the qualities of this new anesthetic were better than ether. One of the company was Sir James Simpson, later first to use the anesthetic in obstetrical cases.
