

Aussie Visit Explained

CANBERRA, June 12 (AP)—A joint U. S.-Australian statement today defined the purpose of Adm. Louis Denfeld's visit to Australia as designed "to insure the continuance of close co-operation between the United States and Australian serv-

ices which existed all through the war." The statement was issued over the names of U. S. Ambassador Robert Butler and Australian Minister for External Affairs H. V. Ewart a few hours before the U. S. naval commander was scheduled to leave for Samoa and Pearl Harbor. During a four-day visit Admiral Denfeld conferred with Prime Min-

ister J. B. Chifley, Ewart and various Australian defense chiefs. The statement said the admiral's talks with the Australians were "purely defensive in character" and had been "entirely successful from all points of view." Winter Wheat Yield Figure Dropping

SEATTLE, June 12 (AP)—The drought which has put its withering finger on many Pacific Northwest grainfields has prompted the U. S. department of agriculture to revise downward—by 6,338,000 bushels—its

estimate of the prospective winter wheat yield in the three Northwest states.

Rex Stewart, department economist, said the new estimate was 90,765,000 bushels, compared with 107,103,000 bushels actually harvested last year. The 10-year average is 61,170,000.

Fifty Believed Drowned On Ship

SHANGHAI, June 12 (AP)—At least 50 persons were believed drowned when the passenger ship Tancheng sank during a storm in the Yangtze river delta Monday.

No exact figure was available. The
