PALACE NEWS

by "Butch"

PARIS has it Montmarte. San Francisco has its famed Telegraph Hill. Klamath Falls has its famous Palace Market and has just organized its own ART ASSOCIATION!

That, methinks, just about makes the cultural advantages of Klamath Falls rank with the top. If you add agricultural to the cultural advantages of our town you really do have the top.

The Klamath Art Association will bring exhibits of famous paintings and art objects to Klamath Falls. It will also sponsor and encourage the fine, and applied arts in Klamath County. They even plan to eventually build an Art Museum.

We always figured we had a hidden talent for art. But one day an artist named Peter Wagamagorski came along and pronounced us colorblind. Since then, the closest we come to being an artist is when we doodle on blotters as we try to think up things to tell you in this advertising column. And speaking of advertising — here we go, back to that horrid treadmill.

THE PALACE MARKET brings famous brands of delicacies from all parts of the country and thereby cultivates and encourages epicurian tastes among the people of Klamath Falls. We are now engaged in building a food museum such as this fair city has never seen to display these gourmet's delights.

The prices, quality, sanitation and service will amaze you. But about that—more anon.
