

Gala Parade Slated Here

The annual parade of the Klamath Rodeo will open that event at 10:00 Friday, July 4th. It is expected to be bigger and better than ever this year with hundreds of horses and other entries. It will represent sections of community life in the Klamath basin.

There will be the civic section headed by Judge David Vandenberg with U. E. Reeder, Orville Hamilton, Vern Moore, and U. S. Balentine. This section will include city and county activities. Then there will be the community section with Robert Walker and Joe Bally of Merrill; A. E. Street of Malin; Lawrence Horton, Dairy and Bonanza; Jack Harrison, Bly; Seth Dixon, Fort Klamath; Ray Gieger, Chiloquin; John Bechon, Sprague River; Don Potter, Tulelake; Jack Mayne, Lakeview; R. E. Harlan, Keno; and Bill Hagelstein of Dorris making arrangements for these communities.

The big commercial section will be headed by Nick Long, with Keith Moon and N. B. Drew. Handling the industrial section will be William Spangler with Gene Hooker and Don Kenyon.

The fraternal section will be headed by Brady Nary, who is also marshal of the whole parade plus the committee representing the fraternal orders in Klamath Falls.

It is expected that the labor section will have G. C. Tatman with Hugh Haddock, Dean Howell and M. C. King, on the committee.

The automotive section which will show some of the new models together with some old machines will be headed by John Ashley with Darryl Miller and Mel Henry.

The Indian section has B. G. Courtright, Jesse Kirk and John Copeland in charge. The veterans section will be headed by Lynn Roycroft with Jack Benner and E. Z. Zell. The juvenile section will be headed by Sam Smith with Spec Murray, Bob Lamont and Joe Peake.

The stunt section, which will carry the large number of individual exhibits of clever and striking nature which has characterized our parade in the past, will be handled by R. C. Woodruff, assisted by E. C. Brandeberry and Ernest Paddock.

As usual the largest portion of the parade will be made up of mounted individuals and organizations. In this will appear various Sheriffs Poses, Klamath Riding clubs and representatives of various stables about town. In addition to this will be the huge number of individually mounted horsemen and horsewomen who make this occasion to show their equipment and horsemanship an annual event.

The horse groups will be interspersed among the floats in groups of 25 or 50 and will not bring up the rear in one vast armada as has been the practice in the past. Lou Serruys will be in charge of these sections assisted by Kenneth Hill, Beth Chase and Bud Howard. The harness horse section will also be represented under the chairmanship of Chet Barton with Dr. Riker.

Prizes of ribbons for 1st and 2nd entry in each section will be awarded. There will also be ribbons for the 1st and 2nd best entry in the whole parade together with awards for the best dressed cowboy and cowgirl in fancy costume and the best dressed cowboy and cowgirl in the best dressed cowboy and cowgirl in

Chevrolet Presents New Truck

Unprecedented improvements and advancements for the comfort and convenience of the driver are featured in the new "advance-design" line of Chevrolet trucks and commercial cars which are being shown to the public for the first time June 28 by Chevrolet dealers across the nation. Shown above is a heavy-duty chassis and cab with a gross vehicle weight of 16,000 pounds and a payload capacity of five tons. The vehicle has a 137-inch wheelbase and accommodates bodies up to nine feet long. The steel cab is all-welded and will seat three men comfortably. New cabs and bodies, featuring new fenders, grille and hood, combine highest appearance standards with greater operating efficiency.

working costume. It is also hoped that prizes consisting of merchandise orders will be available to accompany the ribbons, and the cooperation of the merchants on Main street in presenting these prize awards to the committee will be very much appreciated. The committee believes that these merchandise orders will be far better than articles or presents because the order identifies the merchant with the award in the eyes of the public. Prizes require judges. The judges of the entries will be announced at an early date.

The parade will form on Spring street, march down Main and will go back to the starting points on

is handling the publicity, assisted by Jack Keating, KPJI and Bud Chandler, KFLW. The parade itself will have at its head Elmer Balsiger, president of the Klamath Rodeo association, to be followed by the queen and her court of princesses, together with other officers and directors of the association.

PARADE COMMITTEE

Elmer Balsiger, General Chairman
Publicity—Mac Epley, Jack Keating, Bud Chandler, E. P. Ivory.
Civic section—Judge David Vandenberg, U. E. Reeder, Orville Hamilton, Vern Moore, U. S. Balentine.

Alturas Pool Said Certain

ALTURAS, July 1—That Alturas will have a swimming pool is practically assured. Sgt. Schorb, local recruiting officer for the army, presented plans for swimming pools he had secured from army engineers in San Francisco.

The plans met with the approval of the pool committee, and on the advice of the city engineer they will be sent to the state board of education at Sacramento for approval. As the pool will be built on school property, this procedure must be followed.

Sgt. Schorb will also try to secure a water purifying unit from army surplus. Andy Anderson, foreman for the Goose Lake Box company, has offered his services free in the construction of the pool.

Community Cannery To Open Soon

ALTURAS, July 1—Unless unforeseen problems arise, Alturas will have a community cannery in operation July 7.

The cannery formerly operating in the high school agricultural room was forced to close when school opened. The school board purchased a building belonging to the state that housed highway vehicles, and it will be used for canning all during the season.

Mark Smith and Harvey Milligan of the school faculty will be in charge.

Vacation—Mr. and Mrs. Lawrence Pearson and son, Ronnie Dimick, left early Sunday morning on a one-week vacation. They plan to visit relatives on the Oregon coast, in North Bend, Marshfield, Salem and Portland. The Pearsons live at the Lincoln apartments on East Main.

CLINTON P. ANDERSON
Secretary of Agriculture Says:

American Women—

Your Used Fats Are Still Needed!

America's homemakers have saved and turned in over 600 million pounds of used cooking fats since 1942. This is an average of nearly 20 pounds for each family in the United States. It is a record of which every woman can be proud.

However, it is still necessary to conserve every pound of fat, since the over-all fat supply situation is little better now than it was last year when we were desperately short, particularly of industrial fats.

Manufacture of many of the things we all use and wear in our daily lives requires industrial fats or the products of industrial fats. Used cooking fats turned in by American women have been and continue to represent an important part of our total industrial fats supply. Every pound of salvaged fat helps meet the need.

Clinton P. Anderson, Secretary of Agriculture

Put the right nameplates on these old-timers
... and learn three ways the right oil would keep them young today

With that radiator ornament to tip you off, this one is easy to guess. But it wasn't so easy in this old-timer's day, to keep rust from ruining engines. Experts say rust actually causes 80% of cylinder wear. Today, RPM Motor Oil's rust-proofing compound stops this hidden car-killer cold. "RPM's" added compounds end two other enemies of modern cars—bearing corrosion and crankcase foaming.

It wasn't many years ago that this front-drive car was a sensation. But it came a little, too soon, alas, to get the hot-spot protection of "RPM." Ordinary oils creep off hot cylinder walls, leave them bare to wear. But "RPM's" special compounds make it cling to hot spots and cut wear way down. Switch to premium-quality RPM Motor Oil—it's engineered to give modern cars all-around protection.
