LAKE SUCCESS, July 11 (AP)—Bulgaria accused the United States today of intimidation in seeking to establish a United Nations border watch over the Balkans.

Dr. N. Mevorah, Bulgarian representative, told the security council that such a commission as proposed by the United States would place Greece, Yugoslavia, Bulgaria and Albania "in a state of trusteeship which contradicts the principles of sovereignty."

# Legislation Off Docket For Present

WASHINGTON, July 11 (AP)—Measures providing for a long-range housing program and for immediate cash payment of terminal pay for veterans were omitted from a list of legislation scheduled by senate republican leaders for action before adjournment of congress July 26.

Chairman Taft (Ohio) of the senate republican policy committee told reporters the GOP leaders plan to try and push the \$4,000,000,000 income tax-cutting bill and a cluster of 14 year appropriations bills through the senate by Tuesday.

After that, he said, 10 measures regarded as "non-controversial" will be speeded to completion. Missing from this list were bills for housing, terminal pay for veterans, the St. Lawrence seaway project and increasing the national hourly minimum wage scale.

But Taft, in answer to queries about these, said they may get congressional approval if it can be agreed to act "without long debate."

Taft outlined at a news conference the republican plans agreed to at a strategy session of senate GOP leaders last night.

# Group Confers At Housing Hearing

Sen. Harry F. Cain (R-Wash.), D. Elwood Caples, Vancouver, Wash., attorney; Tom Dobson, vice chairman of the Renton, Wash., housing authority; and Herbert Dahike, chairman of the Portland, Ore., housing authority (l-r), confer at a senate banking committee hearing on a bill to provide for disposition of certain war housing.

to 4 today by the senate banking committee.

The house banking committee has voted to eliminate such controls, currently in effect under a presidential executive order.

The resolution approved by the senate committee would prohibit the federal reserve board from fixing less than a 24-month period for paying for consumer goods on credit.

All such goods now covered by the board's regulation "W" must be paid for in at least 15 months.

# Rumor Starts Confusion

A false alarm regarding a burning plane Thursday caused unusual confusion at Klamath airport when numerous light aircraft hurriedly took off for the scene of the supposed blaze.

The report came in when Murel Long's plane which was being used on a mosquito control job at Moore park swooped down and disappeared behind some houses. Almost immediately smoke was seen to rise from where the plane had gone out of sight.

Cliff Hogue was piloting the plane, spraying the area with a DD-T solution provided for the purpose by the city.

Private pilots at the airport, anxious to investigate the report of a burning plane, took off in "gaggle" formation from all angles of the landing strips, plus the hangar apron in what was described by Gene Durant of Lakeland Flying service as "a most confusing manner."

At the same time that planes were hopping into the air from all points, a student pilot attempted a landing cross-wind and after touching the strip took off again intercepting a fire-chasing craft. No mishap occurred, and all planes returned safely to the port.
