This Fire Was Man-Caused, Intentionally, On The Klamath Reservation

A view from the air shows this controlled fire—set on purpose to burn away dry grasses and rubbish and prevent a wild accidental fire later in the season. The fire crew working on this controlled fire is from the Indian service and the area burned over is between the Lamm Lumber site and Barclay springs. Upper Klamath lake, the highway and the railroad can be seen in this picture taken from the air by Herald and News photographer, Wesley Guderian, on a flight with Hal Ogle, Klamath Forest Protective association superintendent.

Seventy-Five Initiated At Moose Party

Seventy-five new members were initiated into the Moose association Friday night at the Klamath Falls armory.

Taking the candidates in was the degree team from Merrill. Three honored guests of this sixteenth annual Moose convention gave interesting talks to the initiates and members from the entire state. Those speaking were Al J. Sartori, past supreme governor; N. R. Smith, Northwest regional director; Carl Weise, deputy supreme secretary.

Nomination of officers followed with Al Nyback of Klamath Falls, past governor of the local Moose lodge nominated for president of the Moose state association. Nyback has been active in Moose affairs for many years.

The state was divided into sections, and vice presidents were nominated to represent their respective districts. Districts include the Klamath Falls area, Coos Bay, Portland area and Baker and La Grande.

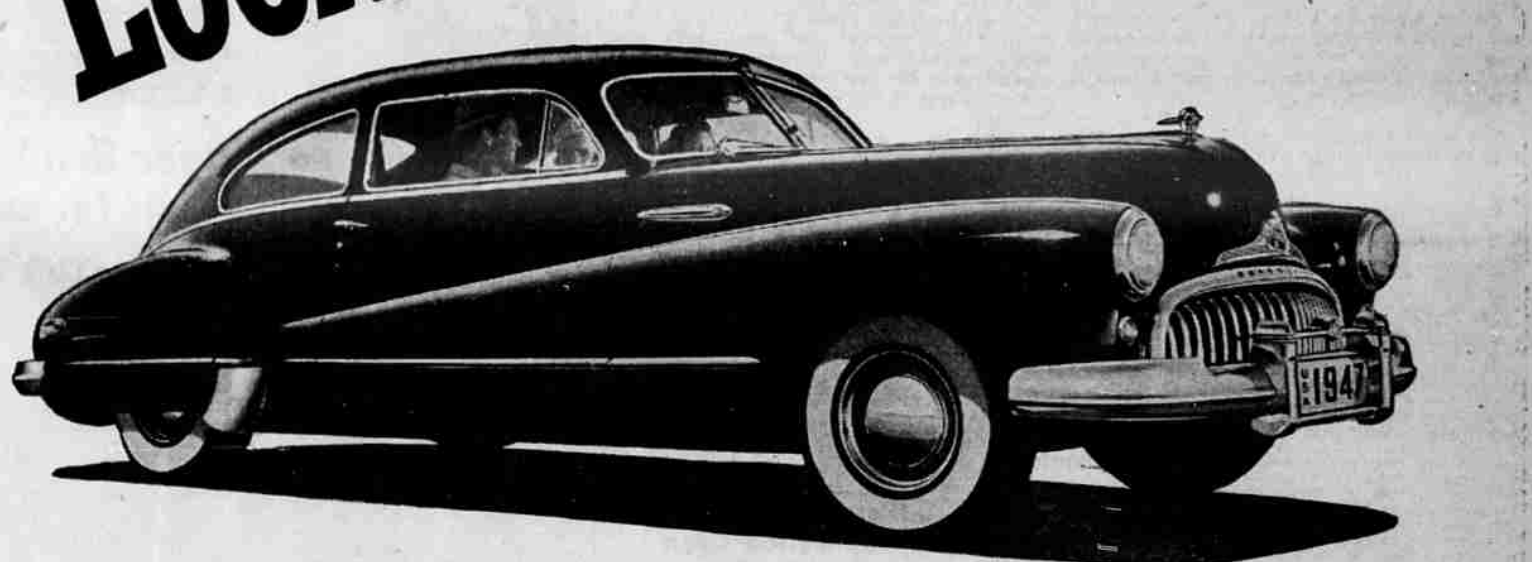

After the meeting there was dancing to music by Shorty Wilkerson and his band. A fellowship breakfast was held this morning at the Winema hotel.

The Corvallis lodge has brought down two softball teams and the challenge was met by the local lodge this afternoon. Other sports activities of note will be the Moose bowlers squaring off at the local alleys for a state tournament on a small scale.

Tonight, Saturday, is the time set for the big banquet at the armory. A six-hour show has been lined up for the affair, including a floor show, drill teams from throughout the state and other entertainment topped off with a dance.

A call is out to all who haven't registered that there is still time to register at the Moose club.

Looks that stay looked at

- and Ability to match

GIVE yourself five seconds, and you know that here's car styling as up to the minute as the time of day.

Spend a few fast minutes to see why — and you spot both smartness right from tomorrow's designing boards and everything that should go with it.

Measure the reach and spread of that Buick bonnet, brim-filled with Fireball power.

Sweep your glance over the broad beam that spells room, the stretch that means easy-riding wheelbase, the size that tells of jounce and jitter.

Here, you tell yourself, is something to see. Here are looks to hold the eye for seasons to come — and lively, durable ability to match:

... Rich abundance of smooth, hushed Fireball horsepower from a straight-eight kept young and lively by Accurite cylinder finish.

... Tireless coil spring on all four wheels, leveling all roads to boulevard smoothness.

... Riding poise from two steadying tons of roadweight — ease of handling from balance to draw a ballet dancer's envy. Soft, roomy cushions seating three apiece — finish that's the very last word in richness and taste.

Yes, it takes no time at all to show that you and Buick belong together, should go together steady — so what's holding you back?
