Today's Roundup

AMPLIFYING a bit on yesterday's travogue: The timber we saw in the Klamath back country up north—on the reservation and in the Weyerhaeuser holdings—gave all hands a real thrill.

EPLEY

Incidentally, we were favorably impressed with cut-over land we observed within the reservation boundaries. While the Indian service is not on sustained yield, it has followed a selective cutting process that left a fair percentage of the timber, and the Indian cut-over land definitely is not devastated.

Safety Question AN acquaintance of ours who lives at the Lakeview junction has made a suggestion that something ought to be done about improving the traffic safety situation there.

There is a lot of traffic at the junction. It should have the careful study of a state traffic engineer, to determine if one or more stop signs are needed there.

Briefs From The Pocket File LETTER from Cy Tallon, the handsome dark gentleman who was master of ceremonies at the Klamath rodeo, tells us that The Herald and News rodeo pictorial edition is winning much favorable attention.

Little Brown Men Want To Leave Their Dutch Uncle

By HAL BOYLE NEW YORK, July 22 (AP)—The most exciting family scrap on the horizon is the effort of 70,000,000 little brown people to say goodbye to their old Dutch uncle.

were evidently enjoying themselves watching the work of a pulchritudinous SP train service girl, and no doubt considered the visit to the depot as worth while.

News Behind The News

WASHINGTON, July 22—The republicans could not make their cuts stick on defense appropriations. What the house cut the senate restored. In the end the army got slightly more money than the Truman budget provided; the navy got only one twenty-fifth less.

The paring knife of the republicans would have been more effective except for one factor. The senate republicans decided at the last minute to give the army air corps nearly \$500,000,000 for contract authorizations, mostly to purchase new planes. This was what the air corps wanted but the budget had denied them the amount.

Oil To Russia YOU would think such an air defense-minded congress would be militantly aroused over the shipment of American oil to Russia, but a speech by Democratic Senator Lucas put the administration damper down on that subject.

Embargo On Oil? THE Lucas explanation may excuse everyone for his part in the matter, but it does not excuse or explain the matter. Russia has one main source of supply for oil, the Baku-Caucasus-Rumanian area.

From any objective realistic standpoint it appears to me the newspapers were entirely right in their excitement, and a more thorough, conclusive excuse for shipment of oil abroad is necessary for continuance of the practice indiscriminately.

Another was the loss of face the Dutch suffered when the Japanese army occupied the East Indies and indoctrinated the natives with its heady pie-in-the-sky prospect of the greater East Asia co-prosperity sphere.

The Japs also trained the Indonesians in modern warfare and turned over much of their own equipment on Java to them after the end of the war. With this dubious rusted armament the 200,000-man Indonesian army thus now faces a Dutch army of 120,000 men well-equipped with British and American tanks, guns and planes.

STATIC

Resting casually on his bread and butter, and smiling at a party of friends out of the picture on the left is Eddie Duchin, described in the caption as inimitable. It seems the program I mentioned last week as possibly being a regular feature is exactly that. Eddie gives with the "magic piano fingers" at 1:30 p.m. on Mondays, Wednesdays and Fridays.

A letter reached this desk yesterday from one who described himself as a regular reader of this column, insisting I had become overly critical of radio in general, and KPJI programs in particular.

As to the second count, there is no marking on my radio dial to indicate the stations—no kidding, and half the time I am not aware of whose program I'm giving the needle. However, to correct this shortcoming I shall endeavor in the future to keep it on a 50-50 basis.

The native leaders are well aware the post-war Holland—only 12,712 miles in area with a population of slightly over 9,000,000—is in no financial position to wage a long fight against 70,000,000 subjects occupying a territory of 700,000 square miles half a world away.

HS Summer School Ends

Twenty-eight high school students completed a six-week course of make-up and extra-credit studies last Friday when the KUHS summer-school session closed.

Students lacking credits or required courses for college entrance or who had flunked any course required for graduation were enabled to make up their deficiencies during the six-week round of concentrated study.

SEATTLE, July 22 (AP)—Stephen P. Chadwick, of Seattle, former national commander of the American Legion, and former congressman Charles R. Savage of Shelton will take opposite sides Thursday in an "Americans Town Meeting" of the Air discussion of the question: "Can we have an effective world organization without Russia?"

Assisting Savage with the negative side will be Dr. Peter Odgaard, president of Reed college, while Clarence Streit, author, will side with Chadwick on the affirmative. The one-hour broadcast will be carried nationally by American Broadcasting company starting at 4:30 p.m.

Local Stand On Timber Units Told

A delegation of Klamathites traveled to Roseburg Monday to present the Klamath position in regard to the proposed boundaries of the Klamath cutting unit of the O and C timber administration. The administration held the hearing prior to the determination of the boundaries of the various cutting units of its master timber cutting plan for O and C lands.

On the other hand, if the administration decides to divide the cutting lands according to regional boundaries, then the group wants to see the extension of the Klamath regional boundaries to include Lake of the Woods and Moon prairie areas. They advanced the argument that much of Klamath industry has been built upon the idea that these timber lands would be available to this section for future development.

Representing the county at the hearing were Judge U. E. Reeder and Clarence Humble. Mayor Ed Ostendorf appeared on behalf of the city and chamber of commerce members present were Phil Hitchcock, John Crosby, Frank Eberlein and Jenkins.

Confab Set In Federal Case A brief session of federal court is slated for Klamath Falls on Tuesday, July 29, when Judge James Alger Fee of Portland arrives to conduct a pre-trial conference in a \$10,000 damage suit.

Both attorneys said that the pre-trial conference would be a formality in which the issues of the case are made up.

Judge Fee will come here from Medford, where he is due for a short session July 28.

The World Today

By DeWITT MacKENZIE AP Foreign Affairs Analyst

There is no dark mystery about the warfare which has erupted again between the Indonesian republic and the Imperial Dutch forces; it's just another of many indications that the day of empires is fading.

What's Behind It? This new nation was to have dominion status. Holland was to retain a hand in foreign relations, defense, finance and in subjects of an economic or cultural nature.

The Dutch and the Indonesians are racially as far apart as the Poles. We have little in common. The queen of the Netherlands is a benevolent and lovable personage, but she is not one of us. The members of her government are foreigners to us.

Theme Song The same is true of all imperial powers, because the demand for independence is running around the world like a theme song. We are seeing its effect in the vast sub-continent of India which has been granted its freedom by England.

Dependence is running around the world like a theme song. We are seeing its effect in the vast sub-continent of India which has been granted its freedom by England.
