matter who is up top. The Democrats have done plenty of it on their own account.

THIS small time writer has a notion that the best possible policy the Republicans can pursue is to test every situation that arises by this simple rule:

WHAT IS BEST FOR OUR COUNTRY—REGARDLESS OF POLITICS?

If they will apply that test honestly, and act courageously and patriotically, they will be kept in power a long time. If in the present state of the world the Republican party can't rise above piddling politics, it won't last long.

KEEP this in mind; it's important: If the American people lost confidence in BOTH parties—and in our political leadership generally—communism will be the next step.

History teaches that lesson, among a lot of others.

So many things in its favor!

Ask a Pontiac owner why he recommends a Pontiac—and he will likely tell you there are so many things in its favor that he finds it is difficult to enumerate them all.

He likes its "Silver Streak" styling—so distinctive that you can recognize a Pontiac as far as you can see it. He likes its eager, smooth, quiet performance. He likes its comfort and handling ease. He likes the many fine-car features which make it such a pride to own and such a pleasure to drive. He likes its faithfulness—its ability to stay on the job for year after year with undiminished performance. And, of course, he will mention that he gets all this at a price within easy reach of any new car buyer.

Yes, there are so many things in its favor that your next car should be a Pontiac. You can never do better than a Pontiac!

THE SOONER YOU PLACE YOUR ORDER for a new Pontiac, the earlier you will get it. In the meantime, take care of your present car—you will get more for it when your new car is delivered.
