

### Tyrone-Lana Break It Up

HOLLYWOOD, Dec. 2 (AP)—The romance of Lana Turner and Tyrone Power is just a memory today.

The famous twosome, whose names were linked for months talked things over following Power's return from a four-continent air tour Sunday. The decision, a studio spokesman announced last night, was to call it quits.

Talk of the romance was given impetus when actress Turner kissed Power goodbye before he left 13 weeks ago on his tour. And she was waiting in New York when he returned Saturday, friends said. But Power skirted New York on his return to Hollywood. Miss Turner returned here and they met Sunday.

Power and his wife, Annabelle, have been separated since October of 1946, and she announced last week-end that she was willing to give a divorce. There was no comment on this from Power.

Miss Turner formerly was married to musician Artie Shaw. They were divorced in 1940.

### Officer Dies Fighting Fire

DUNSMUIR, Calif., Dec. 2—Fire of undetermined origin swept through an office building here early Saturday morning and a member of special police, 45-year-old Glenn V. Belnap, died from suffocation which induced a heart attack.

Belnap was assisting in fighting the fire when he was overcome. He leaves a wife, Jewelline, two daughters, Mrs. Mary Lou Lindsay and Faith Agnes Belnap, and one son, Dean. Belnap was employed by the Southern Pacific as a storekeeper and had lived in Dunsmuir a number of years ago, returning in August, 1945, to take the SP job.

Destroyed in the flames was the entire Malone building at the corner of Cedar and Florence streets. The owner, Dr. George E. Malone of this city estimated the loss in real property at \$30,000. The Macaulay beauty shop, D. A. Sirianni insurance office, state employment office and the Chambers liquor store were completely gutted by the flames. The building adjoins the Flamingo club on Dunsmuir's main street, which was destroyed by fire several months ago.

Ellsworth Wickes reported the fire to Dunsmuir police. Wickes said he was on his way home when he walked by the beauty shop and felt a blast of hot air. He did not see fire or smell smoke, so walked past the shop again and placed his hand on the glass which was hot. Firemen were able to confine the flames to the Malone building.

### Hall Pledges State Service

PORTLAND, Dec. 2 (AP)—Governor John H. Hall, in his first public speech since attaining the governorship, Monday promised to make his own decisions and accept full responsibility for them.

"Being governor is not a one-man job," Hall told the Portland chamber of commerce in a brief talk. "It is one which needs advice and counsel, and I will not hesitate to call on the citizens of this state for aid."

"Yet, while I will ask and carefully consider this advice, the decisions I will make will be mine alone, and I shall accept full responsibility for them."

He paid tribute to the work of the late Governor Earl Snell and the two other state officials killed in the plane crash which elevated Hall to office.

### Starlings Show Increase In West

PORTLAND, Dec. 2 (AP)—European starlings, the birds that have become a major nuisance in Eastern cities, have appeared west of the Cascades in numbers.

Stanley G. Jewett, federal biologist of the U. S. fish and wildlife service, said the birds were identified in lower Columbia river towns of Scappoose, Ore. and Woodland, Wash. Starlings became so numerous in Southeastern Oregon last year that heavy crop damage was reported.

### Evans Building To Be Re-Roofed

Burkhard and Schortgen, Klamath contractors, are starting work this week on re-roofing the fire-damaged Evans building at the corner of 10th and Main, and the job will be rushed to completion as fast as weather conditions allow.

The ground and second floor of the three-story building which burned on February 16, will be renovated and remodeled, and a new type of roof will be erected over the second floor. The third story which suffered the worst damage, was removed last spring and will not be restored at the present time, according to members of the Evans family who own the structure.
