Today's Roundup

By MALCOLM EPLEY

THERE are two things that just about everybody knows all about.

One is traffic. The nation, the state, and our community are filled with traffic engineers and experts. Traffic wiseacres sit in the editorial sanctums of every newspaper. Every columnist and radio commentator knows this subject from A to Z. You can get a learned discussion going on this subject in any group and at any time. No one defers to anyone else's opinion, and no one needs to. We all know all about it.

EPLEY

The same thing goes for wildlife and game, although knowledge of this subject is more widespread among the men than the women, who aren't generally so interested. You and I will let the lawyers talk about legal points, the politicians discuss the ins and outs of politics, the ballistics experts talk about guns, the economists discourse on supply and demand. But on the general subject of wildlife, we all know all the answers. Every man who ever ventured outside his front door has well-informed opinions on every angle of this outdoor subject.

It is amazing that the country has traffic problems and wildlife problems, when virtually the entire adult population—including, of course, the editors and the commentators—has qualified as experts and know all the answers on both these subjects.

County Communities And The Chest

ONE of the really pleasant things that has happened in connection with the Community Chest campaign has been the way the county communities have swung into support of this effort.

This writer, who got mixed up somehow in the Chest drive, has found a real thrill in the way the people in the rural districts and the smaller towns of the county have contributed generously and with good will to the Chest. If everybody will follow their lead, we will make that quota.

Monday is to be county day for the Chest, with county workers under Bryant Williams present as special guests. There should be a 100 per cent turnout of the city and suburban workers to give these people a real send-off on that occasion.

Briefs From The Pocket File

HERE an accolade to Extra Gang No. 1 of the Great Northern railroad, which has just reported 100 per cent contributions to the Klamath County Community Chest . . . The snow scene pictures which appeared in the Yule Tidings edition of The Herald and News were taken on November 16 of THIS YEAR . . . A lot of people have asked me about that . . . There was lots of snow in the Crater lake park area that day, as Wes Guderian's outstanding pictures of little Judy Jay and the skiers well prove . . . Incidentally, the girls in the editorial department have just sent copies of Yule Tidings to eight Klamath county people who are patients in tuberculosis hospitals . . . They had planned to send Christmas cards, but got the excellent idea that these folks would like even better to mull through that special edition of the paper . . . State Senator Lew Wallace, who was here today as chairman of the interim committee on wildlife problems, is toying with the idea of running for the democratic nomination for governor . . . As demo nominee, he opposed Earl Snell the first time . . . Lew is feeling out sentiment as he goes about the state on the interim committee job, to which he was appointed by the late Senate President Marshall Cornett.

Klamath sportsmen, who think they have not always been fairly treated by the state game commission, have a special gripe against Chairman Wilson of that commission, whose attitude, they feel, has been smug and arrogant . . . The hottest statement about the commission given at last night's hearing before the interim committee was by Dr. George H. Adler . . . When doc directs a barb, he really sharpens it . . . Some one remarked after his talk that it was the cleanest incision he had ever made . . . That was a grand weather break for the Henley-Amity football game today . . . We wouldn't give a nickel for the chances of good football weather here after Thanksgiving, but we got it this time.

The World Today

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

We are faced with the tragic but certain fact that war—"cold" but nevertheless war—is being waged between Russia and the democracies, that Moscow's purpose is to communize the world and that the democracies are determined to prevent this. It is a fight to a finish.

The question arises therefore why the combatants devote so much time and energy to international conferences which rarely reach agreement. Take for instance the bogged-down conference of Big Four foreign ministers in London — called to draft German and Austrian treaties. On the face of it this parley is serving mainly to ruffle tempers and act as a sounding-board for propaganda.

Signs Of Worry

Soviet Foreign Minister Molotov shows signs of being worried over the determination of the democracies to proceed with the organization of Western Germany without Russia if the London conference fails. Secretary of State Marshall, British Foreign Minister Bevin and French Foreign Minister Bidault are gravely concerned over the Bolshevist upheavals in France and Italy —key objectives in Moscow's effort to stymie the whole Marshall plan for rehabilitation of Western Europe and thus open the way for Russian domination of that area.

John Foster Dulles, in Paris to investigate the crisis and report back to General Marshall in London, said on his arrival in the French capital:

"I have come to witness the magnificent effort that the French people are making against foreign penetration. I consider this is more important than what is happening at the London conference."

All this being so, why don't the combatants abandon their conferences and get ahead with the job of finishing that "cold war"? One hastens to add that this is a rhetorical question, which we shall try to explain.

I think the chief reason they don't make a clean break is that both sides are appalled with the gravity of trying to run two worlds in an atomic age. They hate to admit officially that there are two worlds.

Neither Side Sure

Moreover, neither side is absolutely sure of the real strength of the other. For that matter they aren't sure of their own strength, in some instances. That is true of the crises in France and Italy. Communist striking-power in those two countries hasn't yet been put to the final test and therefore is an unknown quantity to both Moscow and to the Western democracies.

Upon this unknown strength hangs the fate of the Marshall plan. If the Reds in France and Italy should succeed in their efforts to cause the downfall of the governments of those countries, Russia certainly would have taken a mighty stride toward winning its "cold war." The Western allies need time to get the plan into operation to give France and Italy the material aid with which to withstand the communist aggression.

Then from the standpoint of the democracies, time might swing countries like Czechoslovakia and Poland back into the democratic fold. And Moscow doesn't overlook that this same delay might enable Russia to consolidate her position in Eastern Europe.

In short, each combatant hopes to grow stronger with passing time. That, coupled with seriousness of openly declaring our globe divided into two more or less hostile worlds, is what keeps the quarrelsome conferences going, but there will, of course, be a time when they will give way to more positive action.

In China, 5000 years ago, ground moose horns were considered a cure for baldness.

Morals Case Sentence Told

A thirty-day county jail sentence was imposed on Eugene Arthur Davis, 24, an ex-soldier from Lima, Ohio, in justice court yesterday afternoon on a charge of disorderly conduct.

The youth entered a plea of guilty. He was accused of making an indecent display before a young Portland woman on a southbound bus yesterday morning.

Earlier a charge of indecent exposure had been placed against Davis, and he pleaded not guilty. But when the count was reduced to disorderly conduct he changed his plea.

A speedy hearing was held because the woman had to leave town. U. S. Balentine was appointed by Justice of the Peace J. A. Mahoney to represent Davis.

Overloading Cause Of Two Outages

Two outages were reported by the California Oregon Power company last night, both attributed to overloads.

One section on the Keno highway was without lights when a resident of that area overloaded with numerous electrical fixtures including several heaters. The second area affected was in the vicinity of Cottage and Wiard and some dozen consumers were without lights for a time until the trouble was fixed by a Copco crew.

WHEAT LEAGUE

BAKER, Dec. 6 (AP)—The Eastern Oregon wheat league turned to consideration of resolutions today at the final session of the three-day meeting.

Among proposals are recommendations for continuation of price support at 90 per cent of parity and for restoration of the $300,000,000 AAA fund.

"Gray Ladies" Do Their Bit For Mental Patients

By HALE BOYLE

NEW YORK, Dec. 6 (AP) — The room was so warm and sunny that at first you didn't see the bars on the windows.

A group of young girls was crowded around a small piano. Taking turns playing were a pleasant blonde and a small energetic brunette lady, both dressed in gray uniforms.

A near-sighted pimply faced girl with a big pink hair bow was singing happily:

"I' just a girl who can't say no, I'm in a terrible fix."

She and the other girls who joined in the chorus really were. They were mental patients in the Brooklyn state hospital.

For more than a year Mrs. Jacob Skeer, wife of a physician, and small Mrs. W. Gordon Dunsmore, wife of a bank official, have come four times a week to play for the patients. They were the first volunteers among fifty Brooklyn Red Cross "gray ladies" who run parties, dances and a library service for 3400 mentally ill at the hospital.

Similar work is being done by Red Cross chapters in Cleveland and Baltimore, and Dr. Julius Rubin, resident psychiatrist, believes these volunteer women have done much to help escort lost minds back from the realms of sick fancy.

"I was scared to death at first," Mrs. Dunsmore admitted as her partner thumped out a sprightly tune. "Until I learned they really were more afraid of me. They are pathetically grateful for what we do."

She said one of the songs most popular with the patients was "When I Grow Too Old to Dream."

Jolly Mrs. Skeer, a former actress, said she found the mental ward audience more fun than any she had entertained in the theatre.

"It's more fun when you don't work for money," she laughed. "These kids are really a challenge. They keep you stirred up."

Three patients paid little attention to the music—a middle-aged red-haired woman with melancholy expression; a dark-haired young girl who leaned against the wall, her face a mask of sullen fear, and a disdainful blonde sitting on her bed at the far end of the room.

"Watch them," whispered Dr. Rubin.

The blonde, annoyed by the carefree singing, got up and flounced around the corner out of sight.

"The other girls don't like her," said the psychiatrist, "she thinks she is superior to them."

Slowly the dark-haired girl against the wall relaxed and stole step by step toward the group, her pinched face losing its fear.

"She was one of our most violent patients," said Dr. Rubin. "The music calms her. It is a kind of focus to draw her back to reality."

The piano began banging out "Hinky, Dinky Parley Voo," and the depressed red-haired woman suddenly lifted her head like an old firehorse smelling smoke. The song reached back to her youth and in a moment she was lustily singing:

"Oh, Mademoiselle from Armentieres, Parley Voo . . ."

Then she grabbed hands with a young black-haired girl, and they swung into a jitterbug dance.

As I turned to leave, Dr. Rubin remarked cheerfully:

"Most of the girls around the piano will be able to go home soon."

And as he unlocked the door he glanced back at the sad, mad singing sorority, and said gently:

"But most of them will be back here again."

STATIC

By BILL JENKINS

The girl with the appealing stuff above is Miss Marjorie Lawrence, a Met opera soprano who will be, and often has been, heard on ABC's Sunday Evening Hour.

Gene Kelly steps into the starring role Sunday when he takes the title role in Marc Connelly's tender and rueful comedy "The Wisdom Tooth." The story is that of a small town boy who dreams of a life dedicated to beauty and the fellowship of man, who finds he has turned into a service yes-man. He is visited in a dream by his grandparents, who restore some of his youthful courage as the drama goes on. Theatre Guild at 6:30 aired on KFLW.

The scene in which the Angel Gabriel announces to Mary that she is to be the mother of the Christ Child will be enacted in "Blessed Among Women," the second of the five programs in the Christmas cycle of the ABC broadcasts of "The Greatest Story Ever Told." The story of Elisabeth and Zacharias, the parents of John, will also be included in the December 7 program. 3.30 p.m., ABC-KFLW.

Galen Drake will discourse on the evils of eating while undergoing an emotional upset Monday at 10 a.m. when he is heard over KFLW.

Columbia university graduate students will fill the "World Security Workshop" Sunday (9:30 a. m. — KFLW) on a program which will put U.N. veto on trial. Question for the day: "Should the veto in the UN security council be eliminated?"

Program Sends Gifts To Klamath

An electric heating pad and a Westinghouse iron were postmarked for immediate delivery to Walter Hamblin of 2162 Hope, Klamath Falls, today as a result of a letter written by his son, Bill Ray, to Ben Alexander of the Mutual Broadcasting System program, "Heart's Desire."

Selected for its earnest and needful desire, the letter was read over the full Mutual network by a member of the studio audience in Hollywood. Master of Ceremonies Ben Alexander, who makes these wishes come true, dispatched the gifts with his heartfelt wish that they might be Mrs. Hamblin's heart's desire.

Telling The Editor

Letters printed here must not be more than 500 words in length, must be written legibly on ONE SIDE of the paper only and must be signed. Contributions following these rules are warmly welcomed.

THANK YOU

KLAMATH FALLS, Ore., (To the Editor)—The Shriners' Hospital for Crippled Children received a generous donation of potatoes from the farmers of the Klamath Falls basin.

As a list of donors was not received, it was suggested that a letter be written to the Klamath Falls Herald and News so that proper recognition, so richly deserved, may be given.

This kind deed and hearty cooperation is certainly motivated by genuine folks who desire to be of service in the cause of these less fortunate children and who have, through experience, come to the realization that it is more blessed to give than to receive. Thoughtfulness of this nature never goes unrecognized but will return to the giver two fold.

May we, in behalf of the board, thank each and every one of you for your generosity in sharing with us the responsibility and joy of the children vested in our care.

Sincerely yours,
EARL RILEY, Chairman
Board of Governors.

NO COMPLAINTS

KLAMATH FALLS, Ore., (To the Editor)—Complaints? What do I have?

I have my right mind. I think it's all right. (What I don't know on the subject doesn't hurt me.)

I have the sky above with a million diamonds that far surpass the sparkle of any diamond I might have had, had I been born rich.

I have two legs and feet, two hands and arms, two reasonably good eyes (that sometimes see too much), a sense of smell, and an extra good sense of taste (my figure will vouch for that.)

I have bread for my stomach, won by the sweat of my brow. (God promised me that.)

The wind and rain in my face that refreshed me.

Free air to breathe (something that is very important in my life.)

Water to quench my thirst (an item sadly neglected by some.)

A sense of humor that I sometimes neglect to dust and keep shining. And as the years go by on zephyr years, a larger stream of milk of human kindness flowing in my veins.

I have the songs of birds to soothe me when I'm weary.

A great symphony of kind thoughts to gladden my soul. God in His heaven to guide me along the pathway of life (free for the asking.)

I like people. If some of them perplex me at times, I start (silently, to be sure) to reason out the "why," and usually come up from fathoms of thought with an answer that satisfies me. And in that answer I find many interesting things.

I have the good earth to walk upon and dig in. The mountains to lift my eyes to. Trees that give me shade and rustle a lullaby when I take time to listen.

Sunrise that gives me the promise of day. Sunset that lifts my spirit at the end of day. The love and respect of my family and friends.

Nope, I just don't have any complaints.

I have everything!

HENRIETTTA SACHER

P. S. My neighbors probably think I'm "nuts!"

TAXES IN SUBURBS

KLAMATH FALLS, Ore., (To the Editor)—I notice the officers of the Suburban league are not satisfied the way the assessor values property in the south suburban area. They feel taxes are too high? Why the right about face? They have been telling people by all means to incorporate, that the Oregon legislature had passed laws that we either had to incorporate as a separate city or else be taken in by the city of Klamath Falls. Neither is true and we want neither.

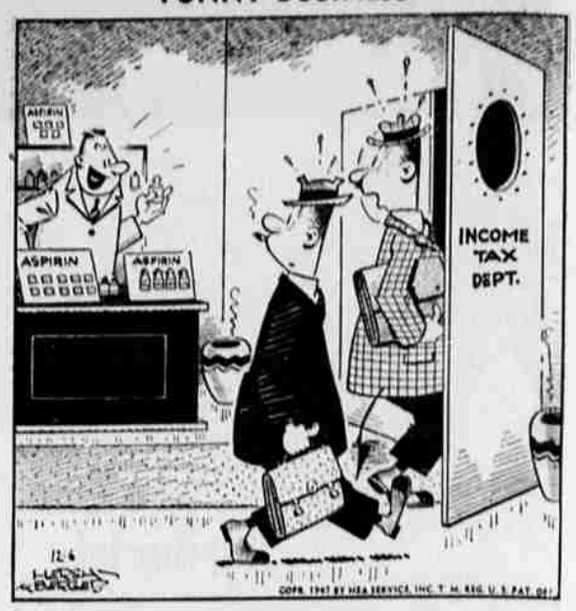
When they were wanting to incorporate they never bothered to tell the public that high taxes and a lot of other nuisances would come the minute the suburbs were incorporated. If the assessed value is too high now, what would our taxes be if we're supporting a police force, building inspector, police judge and all the other officers that it takes to run a city. As to taxes being too high, there is no argument and are all over the United States but what makes taxes high? The voters who put their "X" for every tax measure that comes along and never figure it takes taxes to pay for every cent of money that is spent by the city, county, state or government.

I pay taxes in both Josephine county and Klamath county and the assessment is practically the same in both counties and the taxes in Josephine county are 56½ mills and 55 in Klamath. If my figures are right, why the squawk. It looks to me as if the Suburban League tried to play politics and guessed wrong. Now they are trying to square themselves with the taxpayers, the veterans and everyone else by blaming the county assessors.

There's plenty of good the Suburban League can do in the suburbs if they wish to. Instead they try to cram the incorporation idea down peoples' throats, then blame the assessor because the figure set on property values are too high. Rather inconsistent to say the least.

PAUL E. PFEFFERLE.

FUNNY BUSINESS



"Get your aspirin here—no conference is complete without it!"

The Doctor Says—

Teach Children Food Sense

Proper food selection should be taught children at an early age, to make them aware of its necessity, and its relationship to good health.

The nutritional education of the American people has developed enormously in the last five years, largely as a result of the war effort and of improved economic conditions.

Until they reach the age of 10 or 12, children have little opportunity to select their own food unless their parents are aware of the desirability of their learning to do so. The school lunch program has been an important element in directing the attention of parents and children to the importance of proper food selection.

Children should acquire early in life a willingness to accept pasteurized milk, the ordinary vegetables (cooked or raw), fruits, wholegrained cereals and breads, eggs and simple desserts. Children who are sweet-lovers usually eat an inadequate diet, for normal children seldom crave sweets.

The school day should start with a good breakfast consisting of pasteurized milk, tomato juice or a citrus fruit, an egg, and a wholegrain cereal or toast. Coffee has no place in the diet of children, for it tends to displace milk.

MAKING LUNCH NOURISHING

The school lunch should include pasteurized milk and a main dish of protein food, such as beans, eggs, macaroni or spaghetti made with cheese or meat. A thick meat soup is also a good main item, and it may contain some vegetable.

Whole-grain bread should be used for at least one sandwich if the lunch is carried, and the sandwich filler should be egg, cheese, meat, fowl, or peanut butter. Jelly and jam sandwiches, or those made of spreads of little nutritive value, are not recommended for children.

The noon-day lunch, whether carried or eaten at school, should contain vegetables and fruits.

Ice cream and fruit, not cake or cookies, are the best all-around desserts for growing children.

QUESTION: Is the marriage of first cousins likely to result in defective children?

ANSWER: The marriage of closely related persons, including first cousins, may result in the development of superior children, if such characteristics are present in the family tree, or of defective children, if such characteristics are dominant.

Mexican Arrested For Petty Theft

Pedro Zapato, 18-year-old Mexican, was sentenced to 10 days in the county jail yesterday afternoon on a charge of petty larceny in the theft of a small camera and $8 from another Mexican, Felipe Villaneuva, at Crescent Lake yesterday.

Zapato pleaded guilty. He was arrested by state police.

In addition to the jail term, the youth was ordered held for U. S. immigration authorities.

Burrell Heads Young Republicans

Clayton Burrell, local attorney, was named temporary president of the Klamath Young Republican club at an organization meeting held at the Legion hall Friday night. Fred Ehlers was named vice president and Marion Maxwell secretary-treasurer. Permanent officers will be chosen at the next meeting.

Carl Francis, state representative and state Young Republican president, was here for the well-attended session.
