ATTENTION STOCK MEN AND GRAIN FARMERS
If you are looking for something good and have the money to handle, here it is: a 1600 acre ranch practically all can be plowed; 70 acres leveled, irrigated and in clover; 700 acres of first river bottom land; 900 acres second bottom grain land, which can be leveled and irrigated; plenty of good buildings. This is no junk but a good place and paying good dividends. Will support a lot of stock and at the same time raise several thousand sacks of grain annually. Considering quality, the price is below market. We have many other smaller places, dairies, grazing land and some open grain land.
