# School For Fairs Urged

PORTLAND, Jan. 17 (AP)—The Oregon Fairs association took up resolutions and election of officers today at the closing session of a three-day convention.

Delegates heard Leon S. Davis, manager of the Washington county fair, advocate a Pacific Northwest school for training fair managers yesterday.

A plea to avoid conflicting dates in fairs came from Charles T. Meenan, Washington Fairs association secretary, who also urged standardization of regulations for exhibits and livestock.

Four-H club members who won the national honors last year were presented. They were: Doris Lane, Marion county, better methods electrically; Bill Swing, Linn, poultry; Charles Colesgrove, Benton, farm safety; Grace Connell, Washington, food preparation, and her sister, Jane, health.

## Scott May File For Governorship

PORTLAND, Jan. 17 (AP)—Speculation increased today on the possibility that State Treasurer Leslie M. Scott might run for governor.

He congratulated 4-H club contest winners at an Oregon Fairs association meeting here yesterday and said he hoped to be as successful politically as they had been in their work.

Asked later if this meant he would be a gubernatorial candidate, he said, "Let's see how many candidates appear."

# Martha and Shops

## Long's Apparel

had an assortment of those classic Sorrel Shirts . . . rated as America's finest mannish shirt . . . to show Martha this week . . . and you'll be glad to know that the deeper shades in these are available again.

Fashioned of smooth Bur-Mil crepe that launders so well, there are short sleeve styles in white, brown, red or green, enhanced by touches of stitched trim . . . and the long sleeve shirts come in a soft rose beige or chocolate brown.

Pastel Sorrels . . . designed with a tucked front . . . include maize, aqua and pink . . . and LONG'S . . . at 719 Main . . . is expecting a shipment most any day of the popular black shirts in both long and short sleeve styles.

Bound for kitchen fame is an automatic pot polisher that protects manicured fingers. The head is padded with steel wool and attached to a spirally grooved handle that whisks the steel wool against a blackened pan.

Among the entire selection, however, Martha was most impressed by an aqua blue gabardine of excellent quality . . . whose styling is a direct contrast to the more voluminous numbers. This topper is beautifully fitted by use of wide tucks around the waistline, has a belt and big, loose sleeves, making it comfortable for over-suit wear.

Shortie coats are still in favor, the newest being the sassy cut-aways similar to those pictured in Mademoiselle . . . patterned after the jacket-length coats worn years ago by our mothers . . . which are supposed to emphasize the neckline.

Neatest and niftiest among these at WHYTAL'S . . . in the Medical-Dental building, Main at Ninth . . . is a navy blue reefer type of gabardine, with a double row of silver buttons adorning the front . . . but more extreme is the pale gray cut-away in smooth suede cloth, designed with the quaint chin-up collar, full armhole sleeves tapering to narrow at the wrist, and highlighted by antique-ish gold buttons.

Any leg discoloration or disfigurement that's apt to loom up under sheer hosiery, can be concealed under leg make-up creams or liquids such as many women use during the summer.

Women who scringe at the thought of their sterling silver flatware being marred by scratches, should be interested to learn that no conscientious praiser of silver until it begins showing tiny surface scratches, and silver-smiths would even welcome a machine that could duplicate these scratches which give a finish that is more wearable.

Kathy's Hat Shop is receiving early spring straps, predominantly black, and most of them are draped down for a fetching side-line silhouette, practically covering the ears. However, they still maintain an off-the-face look . . . and you'll find they're charming when you try them on. Also, most of the crowns this season are either open or slit. Kathy's has a lay-away plan . . . so you can choose early while selections are fresh.

In addition to re-trimming and styling favorite hats of past years, KATHY'S . . . at 1114 Main . . . will do dress alterations . . . and will make blouses to match any hat, for which you can provide your own material if you wish. And Kathy told Martha that orders are now being taken again for those becoming crocheted handbags . . . available in a number of shades.

Shopping around PINE STREET MARKET . . . corner of Seventh and Pine . . . Martha noticed that Helen's Fully Prepared Cake Mix . . . in a choice of devil's food, yellow or white . . . is appearing in bright, new blue and yellow packages in place of the cello bags; that those tender Nabisco Wafers we used to call ice cream cookies are becoming plentiful again . . . and that shipment of Standby Pure Strawberry Preserves has been received.

Many women of Turkey, Syria and Palestine reverse our occidental custom of applying make-up. They put it on before going to bed, instead of taking it off. Their logic is that women should look their best during the last and first moments of wakefulness, and they may have something there, at that.

## Miller's

sportswear department . . . on the second floor . . . blossomed out in elegant spring colors this week with the arrival of gayly plaided skirts and a truly outstanding selection in Helen Harper sweaters.

Among the gracefully full swing skirts are lightweight wools . . . mostly inspirational plaids that'll quite take your eye, but with a sprinkling of solid shades, too . . . and, for dressier wear, the black moires and black failles. Prices in this group range from \$7.95 to \$10.95.

Straight skirts, pencil skirts, include all-wool gabs of good quality or sheer wool fabrics . . . in elusive stripes or pin checks . . . priced at \$6.95 and \$7.95.

Considering their moderate price of \$2.98, it's a temptation to buy one of every exquisite pastel shade, even iris (a delicate lavender), in the new slipovers of lightweight knits . . . at MILLER'S. The Hen Harper cardigans, selling for \$6.95, resemble the more expensive cashmeres . . . and there's an attractive choice of pastels in these, as well as cherry (a vivid rosy red).

Hats can betray your age if they're all angles, with no curves, if they're set straight and stiffly on the head, or if sombre black is unrelieved by shining trims or glittering details.

## Whytal's

earliest arrivals in spring toppers are quite, quite gay . . . like those of several seasons ago . . . including such vivid shades as geranium or melon reds, emerald greens and peacock blue . . . and in styling they, too, follow the ballerina trend. However, many confine a graceful fullness from the waist down, instead of from the shoulders.

Appealing pastels, particularly lacy pinks or aquas . . . are in favor, too . . . in suede cloth, fleecy wools or gabardines . . . and among the fleecy materials is a variety of gray shades, ranging from a very light off-white to pigeon tones. Some hoods will still be worn, too . . . like that on a full-back woolen fleece in pink.
