

Slayer Leads Police To Body Of Third Wife, Is Probed In Second Killing

SEATTLE, Jan. 23 (AP)—A 63-year-old retired merchant who calmly led officers to a shallow grave which held the body of his third wife was still being questioned today about his second wife.

Kitsap county Chief Criminal Deputy Dean Jones quoted neighbors as saying that the second wife of Roscoe Lee Hayton—the former Sarah Alice Lane—accompanied her husband on a vacation trip to West Virginia more than two years ago and did not return.

The body of Hayton's third wife, Mrs. Ellen Buckingham Coyle Hayton, 46-year-old Seattle woman who had been missing more than two weeks, was found yesterday in a

Wallace In Race For Governor

Lew Wallace, Portland insurance man, who is well known here and in Lake county, has declared his candidacy for the democratic nomination for governor.

The Portlander, who is a state senator and a former candidate for governor, said that he will campaign "for Lew Wallace" and not against any other person.

Wallace said that his campaign platform includes a declaration that Oregon does not need any more new taxes. Existing revenues are more than adequate, he said, but there is a need for a more equitable distribution of the tax burden. He argued that income tax revenues should be made available for general purposes of the state, and after the needs of the state are taken care of, surplus should go to cities and counties.

The candidate objected to the Oregon plan of using state liquor control revenues for old age assistance, but did not indicate what method of financing he proposes for this purpose.

He favors election of state game commissioners, amendment of the financial responsibility law, and several other changes. Wallace was a leader in the movement to acquire Camp White for the state, and said that proposal is part of his campaign platform.

Fresh Storm Rips Nation

By The Associated Press

A severe cold wave, following the pattern of last week's icy blasts, whipped across the country from the Rocky mountains to the Atlantic seaboard today and crept toward the Gulf Coast and the Carolinas. The North Central region bore the brunt of the biting cold. Temperatures in some parts of the frigid belt tumbled to near 40 degrees below zero. The mercury failed to rise above the zero mark all day yesterday in parts of Minnesota and the Dakotas. There were widespread reports of fuel shortages as the cold intensified.

The lowest readings in the area engulfed by sub-zero weather from Nebraska to Northern Missouri and Northern Illinois were in the Red River valley of the north.

The sweeping cold air is producing snow along the eastern slopes of the Rockies and in parts of Tennessee, Kentucky and Virginia. Falls in Middle and Western Tennessee measured from two to three inches. Seven inches of snow fell in Flat Top, W. Va., five inches in Bowling Green, Ky., four inches in St. Louis and two inches in Nashville, Tenn.

Federal Forecaster H. L. Jacobson in Chicago said the current cold wave, from present indications, will swing south and eastward and start to moderate somewhat during the next two days. He forecast rising temperatures in the western plains states tomorrow and in the north central area Sunday.

WSC To Get New Library

SPOKANE, Jan. 23 (AP)—Construction of a \$2,500,000 library, for which excavation now is almost complete, was approved yesterday by Washington State college regents. Construction will get under way in April, Robert Sandberg, special assistant to President Wilson Compton, said.

The library will be named "Ernest Holland Library" in honor of Dr. E. O. Holland, president emeritus.

Other actions by the regents named Dr. Joseph Batchelder, now at the University of New Hampshire, as associate professor and co-director of the Washington public opinion laboratory to be conducted jointly with the University of Washington, and promoted the following faculty members to full professorships:

Dr. Haakon Bang, pharmacy; H. H. Irwin, mathematics; Dr. R. D. Towsley, business administration; and Dr. Allen White, pharmacy.

Woodring May Take German Post

FRANKFURT, Germany, Jan. 23 (AP)—An American military government official said today he had the "definite impression" that former Secretary of War Harry M. Woodring, came to Germany to take over a top job in the administration of the American occupied zone.

Woodring sent word to newsmen that he had no comments on reports that President Truman is considering him for the post of high commissioner when the military government is turned over to the state department June 30.

Woodring, a former governor of Kansas, was secretary of war under President Roosevelt from 1936 to 1940.

Reds Demand Hearing Voice

WASHINGTON, Jan. 23 (AP)—A communist party official demanded today that party leaders be permitted to testify on bills before the house un-American activities committee to outlaw the party.

Chairman Nixon (R-Calif.) of a subcommittee opening hearings February 5 on the legislation released without comment a telegram from Henry Winston, national organization secretary. It read in part:

"We demand that members of the national communist party, to be designated by us, be given ample opportunity to refute your Hitlerite charges that our party serves any interests save those of the American people, or seeks to advance the cause of peace and progress by any but democratic means."

Rubies were believed to have an inner fire by pre-British India Hindus, who thought it possible to boil water with the heat.

Canada May Open Up On Car Ban

OTTAWA, Jan. 23 (AP)—Importation into Canada of United States-made automobiles, now completely banned under the dominion's dollar-saving program restricting imports, may be placed on a quota import basis within the next two weeks, a source close to the Canadian import administration said today.

The ban on importation of American cars was made effective last November when Canada's dollar-saving program was announced. At that time Finance Minister Douglas Abbott said that it was hoped, however, to allow these automobiles entry to Canada on a quota basis at a later date.

Thieves Get Stiff Terms

RENO, Nev., Jan. 23 (AP)—Pleading guilty to a charge of robbing a highway tavern, two Tacoma, Wash., youths were sentenced yesterday to what was described as among the stiffest sentences ever given here for robbery.

Arnold Thomassen, 22, was sentenced from five to 30 years in the penitentiary; James Blake, 21, was sentenced to five to 30 years.

The usual maximum does not exceed 20 years.

A third member of the trio, David Blackwell, 18, has been sentenced to death in the Nevada gas chamber after admitting firing the shots which killed two policemen who sought to question the youths about the robbery. He has appealed to the state supreme court.

Thomassen also had been charged

Battlewagon Asked For Food Carrier

TRENTON, N. J., Jan. 23 (AP)—Federal permission for use of the battleship New Jersey to carry food to Europe during Easter week is being sought by Leonard Dreyfus, chairman of the governor's conservation committee.

In a letter to Secretary of National Defense Forrestal requesting per-

Pet Hospital Slated Here

Newest business addition to S. 8th street will be the Klamath Animal service, to be opened Saturday by Dr. J. E. Hardesty, formerly of Medford.

The business will be operated in a new Roman brick, stucco and glass brick structure at 2726 S. 8th and a complete veterinary service will be offered, including boarding of pets.

Provision has been made in the 10 rooms for three separate wards for surgery, isolation and convalescence of animals.

Dr. Hardesty, a graduate of Washington State college, served in the army during World War II, later serving his internship with Dr. S. E. Phillips of Medford. He will be assisted by Mrs. Hardesty.

The public is invited to open house between the hours of 12 noon and 5 p. m.

A. B. Cummins was the contractor, electrical work was done by the Leach Electric service, the heating plant was installed by the Holland Heating company, building materials by the Swan Lake Moulding and the painting by H. C. Harris.

Hogs Still Not Reason For Row

CLEVELAND, Jan. 23 (AP)—When William P. Bigler of Gates Mills contracted to buy a stone residence in nearby Chesterland from Arnulf G. Rose for \$26,500, he hadn't discovered the existence of a nearby pig farm.

And when Bigler declined to go through with the deal—too much aroma, he said—Rose took the case to court.

Now Common Pleas Judge Julius M. Kovachy, in a six-page memorandum, has ruled the odor in the neighborhood is more imagination than scent. Bigler will have to go through with the purchase.

DEPORTATION

PORTLAND, Jan. 23 (AP)—Immigration authorities today held for deportation 43 Mexicans arrested in Rogue River valley orchards.

Officials said most had slipped away from imported work crews when the time came to return the crews to Mexico. A few, they added, had crossed the border into this country illegally.

Sweet Home Robbery Case Continued

PORTLAND, Jan. 23 (AP)—The possibility that charges would be dropped next week against the four men accused of the Sweet Home and Oakland bank robberies disappeared today.

Federal Judge James A. Fee, who earlier had threatened to dismiss the charges unless all four were on hand for trial next Tuesday, set back the trial date indefinitely.

He said he was taking the action because government prosecutors had started proceedings to get two of the men, Henry Clay Tollett and Sam Scribner, removed from Bakerfield to the trial here.

A third, Henry Clay Green, is held in Oklahoma. The fourth, Joe Berry Bishop, has pleaded guilty and is awaiting sentence here.
