Boyle's Column

Not All Americans In Germany In Black Market

By HAL BOYLE

NEW YORK (AP)—"It must be the other guy he means." That was one quick reaction abroad to a recent account in this column by a "Berlin Charley" of how American men and women take part in Germany's black market.

A letter from a newspaper colleague in the German capital reports that "Berlin Charley's" cynical picture "raised indignant flushes as well as embarrassed blushes" over there.

The indignant flushes, he said, were on the faces of the Americans in Germany who aren't in the black market and haven't resorted to the tactics the nazis once used themselves to plunder occupied countries.

Presumably the "embarrassed blushes" belonged to those who are playing the black market. My colleague objected, however, that accounts like that given by "Berlin Charley" failed to mention the thousands of conscientious American military government employes in Germany who never made a dishonest dollar. He said they feel the home folks give no credit to the drab but worthy performance of a job well-done; and added:

"A high military government official, commenting on the latest black market investigation which is now being conducted by Judge E. Earle Rives of Greensboro, N. C., as a special representative of Secretary of the Army Kenneth Royall, observed:

"Of course, there's a black market here, as everywhere else in Europe, and many Americans are in it. So are other nationalities. But it seems to me that I've also heard about a black market in the United States—in automobiles and other things—and that's in the richest country in the world.

"We have 150,000 Americans in Germany—a country beset by privation and want, where millions of people, distrustful of their currency, offer fantastic prices for food and cigarettes. Temptation is greater than any ever known in the U. S. But there are thousands of Americans in Germany who never yielded to temptation, and it can be proved that the crime rate here is lower than for a comparable number of people in America."

"There are thousands of people here, Hal, who work seven days a week at their job. There are tens of thousands who, out of their own pockets, are feeding German families—and we don't mean tossing a chocolate bar to a fraulein for favors.

"Communist propaganda here incessantly tries to make the point that Americans and their wives are

Malheur Gets Polio Aid

Malheur county has received a \$6000 check from the National Foundation for Infantile Paralysis to pay for medical care and hospitalization of 25 persons stricken with infantile paralysis in 1947. Felix A. Montes, state representative of the national organization announced in Portland. The average cost of a polio case today is estimated at \$2000.

Judge Robert D. Lytle, Malheur county chapter chairman, requested the aid after chapter funds from last year's March of Dimes were exhausted. One half of the money collected in the annual polio fund drive in January is allotted to the National Foundation for research, education and the epidemic air fund.

Since 20 cases of polio per 100,000 population is considered an epidemic Malheur county experienced a severe outbreak in 1947, with 25 paralytic cases for a population of about 20,000.

Judge Lytle estimated the \$6000 would be needed to pay for treatment of polio patients in the next 60 days, after which the 1948 March of Dimes contributions will be available.

Well, that's the kind of people "Berlin Charley" meant. Guys like him and the lady who tried to send home seven grand pianos. That's the kind the present army inquiry is after.

The others—the ones doing their job and retraining from capitalizing on human misery—are making for America the friends she needs today everywhere.

Soviets Refuse UN Visit Petition

SEOUL, Jan. 23 (AP)—An official source said today Russia rejected a request by the United Nations commission on Korea for permission to pay a courtesy call on the Soviet commander in Russian occupied Northern Korea.

This source, who demanded anonymity, said the commission might pack up and leave without asking permission to enter North Korea to prepare for a national election—the specific purpose for which it was named by the UN assembly. The election, requested before March 31 by the UN, was to have paved the way for restoring total Korean independence and the withdrawal of American occupation troops from the south and Russian soldiers from the north.

Who's jamming a wrench in the gears? 3 Unions Block Labor Peace—Refuse Wage Boost Already Accepted by 19 Other Railroad Unions!

3 Unions Block Labor Peace—Refuse Wage Boost Already Accepted by 19 Other Railroad Unions!

The Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen and the Switchmen's Union of North America, representing 125,000 railroad employees, have refused to accept the offer of the Railroads of a wage increase of 15 1/2 cents an hour.

This is the same increase awarded an arbitration board in September, 1947. This is the same increase accepted by 175,000 conductors, trainmen and switchmen by agreement on November 14, 1947.

Agreements have been made with 1,175,000 employees, represented by nineteen unions. But these three unions, representing only 125,000 men, are trying to get more. They are demanding also many new working rules not embraced in the settlement with the conductors and trainmen.

Incidentally, the Switchmen's Union of North America, represents only about 7 per cent of all railroad switchmen, the other 93 per cent being represented by the Brotherhood of Railroad Trainmen and covered by the settlement with that union.

Strike Threat. The leaders of these three unions spread a strike ballot, while negotiations were still in progress. This is not a secret vote but is taken by union leaders and voters are signed by the employees in the presence of union representatives.

When direct negotiations failed, the leaders of these three unions refused to join the railroads in asking the National Mediation Board to attempt to settle the dispute, but the Board took jurisdiction at the request of the carriers and has been earnestly attempting since November 24, 1947, to bring about a settlement. The Board on January 15, 1948, announced its inability to reach a mediation settlement. The leaders of the unions rejected the request of the Mediation Board to arbitrate. The railroads accepted.

What Now? The Unions having refused to arbitrate,

Compare these wages with what you make! Here is a comparison of average annual earnings of engineers and firemen for 1939 (pre-war) and 1947. Also shown is what 1947 earnings would have been if the 15 1/2 cent per hour increase, offered by the railroads but rejected by the union leaders, had been in effect throughout the entire year 1947. Railroad wages computed from Interstate Commerce Commission Statement M-300. Full year 1947 estimated on basis of actual figures for first eight months.
