Martha and Shops

Long's Apparel

received a remarkable selection of swing skirts this past week... remarkable because they're made of rayon strutter cloth, a practical and durable fabric used more often for sportswear than for expressing the latest fashion trends.

One style has a three and one-half yard sweep with a natural bias drape... and the other boasts a five-yard swinging sweep. Instead of being extremely long, reaching very near the ankle like some, their floor-length ranges around a more acceptable and moderate 12 inches. Fullness is confined from the hip-line downward, giving a smooth fit above the swirly flare... and a zipper opening is at the back.

These wonderfully practical strutter cloth skirts for office or school wear come in a choice of black, brown, navy or gray... at LONG'S... 719 Main.

LaPointe's

millinery department has caught the very rhythm of spring, crammed as it is with scores of fascinating hat innovations that will prettify their wearers and be decidedly agreeable toward the changed silhouette and simple hairdos!

Trimmings are luscious... double faced satin ribbons such as we haven't looked upon for years, providing remarkable contrasts by their vivid hues and sheen... yards and yards of nylon caught into charming drapes... changing into delightful new versions of the adorable bonnets and little flowered numbers which never seem to lose their appeal.

Extremely winning among those Martha viewed was an open-crowned turban, softly encrusted by purple violets from which flowed a long drapery in matching purple... a seductive forward-tilting turban, also violet faced... and beguiling off-the-face halos, their light straw brims concealed beneath flowers and veiling.

The millinery department in La-POINTE'S... 507 Main... is in charge of Anona Roberts who also specializes in facials... and includes a beneficial, brisk massage of the feet, as well as beautifying. Call 7151 for appointments with Fern, Anona, Olive, Dorothy or Steve who specializes in hair styling and shaping... at STUDIO OF BEAUTY.

Why?!

has been all topsy-turvy for the past week for redecorating... not exactly the most pleasant place to shop, maybe... but just wait! When all the workmen roll up their equipment and depart, the store's going to look wondrously lovely!

In the meantime, spring apparel has been arriving just the same. Hardly any can be put on display yet... but the many new skirts are out in bright array... the center of attraction. All designed for that "new look"... long and very full for some figures, pencil slim for others.

Especially outstanding are a black and white herringbone in huge herringbone checks, designed with unpressed pleats for bustle fullness in back... a beautiful black faille of excellent quality, cut circular... and a striking plaid of extra fine wool, in a combination of rust, horizon blue, yellow and white, with unpressed pleats at each side of the front.

Noteworthy of teen-age attention are a hi-style black bangle, the ballerina type skirt encircled by silk braid in vivid colors, a la South American... the smooth, gored woollens of exceptionally fine fabrics, in gray, pinkish-beige and flower pastels... and the slender, straight skirts featuring this season's capricious colorings.

More dressy is a handsome black wool crepe... styled with a wide, crushed belt at the waistline included among the good selection at WHY?!, in the Medical-Dental Building, Main at Ninth.

Try using three instead of two coats of tinted polish for "raised medallion" effects on nails. This is a way to achieve a "new look" of lacquered perfection. If three coats give too deep a color effect, use a pale shade of polish for the first coat that you apply.

Studio of Beauty

Lots of women, when they go to the "city" for a holiday, enjoy having a facial and a pedicure... then some home telling how wonderful they felt afterwards. You can get both right here at home now... whenever you want a repeat of that wonderful feeling... at STUDIO OF BEAUTY... on the mezzanine of Why?!

Pedicuring... (a foot manicure, as you know)... is in charge of Anona Roberts who also specializes in facials... and includes a beneficial, brisk massage of the feet, as well as beautifying. Call 7151 for appointments with Fern, Anona, Olive, Dorothy or Steve who specializes in hair styling and shaping... at STUDIO OF BEAUTY.

Now they're manufacturing electric bed sheets with insulated wires permanently stitched down over a large area, which can be sandwiched between two blankets. Heat is regulated by attractive little switch boxes.

Curin's

and Madame Helena Rubinstein especially suggest that newest perfume from Grasse, France... "Command Performance," an essence of romantic tradition... as an offering of affection on Valentine's Day... for the "flowery heart" of this perfume, with its sharp, spicy overtones, makes it a perfect gift that's easy on the budget!

Then there's "White Flame," exotic and haunting, created by Mme. Rubinstein a few years ago... still favored as a remembrance. And always welcome for a Valentine or any gift occasion is "Heaven Sent," a beloved bouquet fragrance, delightfully feminine, which has come to be preferred by many women.

Not only can you have Heaven Sent in a concentrated perfume, but in a lighter form for daytime freshness... and in a complete array of modestly priced bath accessories at CURRIN'S FOR BEAUTY... Ninth and Main... where the Rubinstein items are an exclusive.

Jewel and Gift Shop

is still stressing all its many wares that go into making a truly expressive Valentine gift... whether it be from an ardent suitor or an affectionate husband... and well worth mentioning again are the pieces of white Portuguese china, embellished by little red hearts! Greeting cards, ranging from a mere nickel to a buck, are still plentiful... or if you want to send a friendly remembrance... on February 14th, there are the colorful monogrammed matches in heart-shaped boxes.

Louise Reinhart who usually provides the theme for Martha's shopping tips from JEWEL AND GIFT SHOP... 519 Main... has gone away to market at San Francisco... and, inasmuch as this spring's big event is rated the most outstanding ever for gift or art buyers, with representing manufacturers numbering far into the thousands... the new merchandise arriving ere long promises plenty in the way of conversation pieces.

Worsted denim

is a newcomer among fabrics. This is a woolen patterned after the two-tone weave and crisp finish of the cotton workwear with which we're all so familiar.

Benefit Malin Fire Department

If you've held off from using decals on woodwork or furniture for fear they couldn't be removed, you'll be interested to know that they can be taken off by soaking them for several hours under a compress of wet tissues. Fasten the pumice over the design with adhesive to keep it in place.

The Candy Jar

There's such a satisfying flavor to maple sweets that it's no wonder the Candy Jar has to re-order frequently on these items. Arrival of another large shipment from the East, however, puts a complete supply on the shelves for awhile... including that meltingly good Maple Butter in one, two or three-pound jars... so delicious. Butter Nut Fudge, packed in half-pound boxes. Ranking in flavor with the Butter is Pure Soft Maple Sugar from the Vermont Maple Orchards, put up in two-pound tins... and there's Maple Sugar in solid cakes, too... or in fancy, bite-size moulds.

Pelican Candy Jar

is simply prepared to fill your Valentine desires... not only by assortments of choice boxed chocolates, but with special containers for packed-to-order candies from an exceptional variety of bulk chocolates and other favorite confections.

High prices of ready-to-wear clothing has started a boom in home sewing, with piece goods and pattern sales soaring to an all-time high. Department stores estimate that piece goods sales have increased over 100 per cent of the 1946 figure, and demand for patterns is expected to be 40 per cent over last year's.

Modernistic Beauty Shop

cosmetic bar is now under the supervision of "Susie" Trippett who invites you to drop in for a consultation on Dermetics thrillingly different beauty program whose results speak for themselves through repeat buying.

During wintry weather, Modernistic particularly recommends Dermetics' creamy hand cream, a salve to chapped or dry hands... available in 30 cents, \$1.00 or purse size containers.

During this next week, "Susie" will gladly help you select a suitable Valentine remembrance for mama... either from the wide assortment of lovely personal items featured by the beauty bar, such as the enchanting Jacques Hunter perfumes and colognes... or a "gift certificate" that insures her own choice.

"Stormy" Borden, owner of MODERNISTIC BEAUTY SHOP... 915 Klamath... is on the job again for appointments, after several weeks of convalescing from an operation.

Yardage prices

have climbed along with everything else but is still far less expensive in comparison to ready-mades. High-grade woolen suitings that retailed at \$1.99 a yard in 1947, is now selling for over \$3.00, and rayon dress crepes, of which there's still a shortage, have jumped to well over a dollar per yard.

Pine Street Market

Standing out among the many packaged products to simplify baking are three new prepared mixes that bid fair to gain rapid popularity... Occident's Cake Bake, Devil's Food Mix and Pie Bake, each contained in the latter holding just enough for a double crust, insuring freshness.

The cake blend lends itself easily to variations of a basic white cake recipe... and both this and the Devil's Food require eggs, making fluffier cakes. Attached to each package is a "Happy Birthday" scroll of pink plastic to use in decorating products here, is also putting out an all-purpose flour... but you'll be hearing more about this soon, along with an introductory offer.

The exhausted supply of Wax Chili Peppers, in pint and half jars... and the Italian Type Sweet Peppers in pints has been replenished at PINE STREET MARKET... where S and H Green Stamps are given with all purchases.

Fyock-Moon

on So. Ninth between Main and Klamath... has received a shipment of apartment-size laundry appliances... small and handy but efficient... Portable Electric Washers and General Electric's Portable Rotary Ironers.

The Washers have a removable wringer that clamps to the stainless steel tub, with a two-pound capacity dry weight. They aren't much larger than a good-sized pressure cooker... can be handily stowed away... and are ideal for washing lingerie, baby garments and many other items. One model sells for \$44.99, the other for \$38.95... both complete with wringer.

The moderately priced GE Ironers which can be used on a table top, will handle all types of clothing or household linens. They have hand or knee action... and heat is thermostatically controlled. Permanently lubricated for quiet operation, each carries a year's warranty. Prices on the two different models are \$45.75 and \$69.75... at FYOCK-MOON, Inc., 121 So. Ninth.
