

Russians Retaliate With Charges That Allies Are To Blame For World War II

MOSCOW, Feb. 10 (AP)—The Russians promised today to publish secret German documents which they said would prove their charges that the western allies paved the way for World War II.

The Soviet information bureau charged last night that the United States, Britain and France had, in their relations with Germany, provided Adolf Hitler with the strength to launch the Second World War.

The Russians said it was done by "a golden rain of American dollars" and by French and British diplomacy.

The Russian statement was in reply to the U. S. state department's publication January 21 of 200 documents captured from the Nazis dealing with Russian-German relations prior to World War II.

Russia said its charges were supported by "important documents which were captured by Soviet troops during the smash-up of Hitlerite Germany."

Publication of these documents will help present the true picture of how Hitler's aggression and the Second World War were in reality prepared and developed," the statement said.

"Hitlerite aggression became possible firstly because the United States of America helped the Germans establish, within a short period of time after the First World War an economic base for German aggression, and secondly because the rejection of collective security by ruling Anglo-French disorganized the ranks of peace-loving countries."

All Moscow newspapers published the long statement in full, but made no editorial comment. The official statement said the documents mentioned would be published "shortly."

The information bureau charged: 1. A "golden rain of American dollars x x x fertilized heavy industry for Hitler Germany and in particular her war industry."

2. "It was the billions of American dollars invested by overseas monopolies in the war economy of Hitler that reestablished Germany's war potential and placed into the hands of the Hitler regime the weapons it needed for aggression."

3. In 1934 Britain and France maneuvered a non-aggression pact between Germany and Poland which was instrumental "in the preparation of German aggression."

The statement asserted that American financial aid to a beaten Germany after World War I enabled the former reich quickly to reestablish a powerful war industry.

Deep South Eyeing Revolt

JACKSON, Miss., Feb. 10 (AP)—Mississippi legislators, beating the drums of revolt, have called for a grass-roots uprising against the democratic high command.

By such action the legislators hope to drive home their opposition to "anti-southern" legislative proposals.

Within hours of a memorial service yesterday to the late Senator Theodore G. Bilbo, loud exponent of white supremacy, the house of representatives urged an early meeting of southern democrats.

The resolution by the house was directed to Gov. Fielding L. Wright and now goes to the senate.

In the resolution the representatives scored the "dilatory" tactics of a majority of southern governors attending a conference in Tallahassee, Fla., last week-end.

The governors voted to delay for 40 days any action on a resolution introduced by Gov. Wright calling for a convention of southern democrats.

SEARCH VANCOUVER, B. C., Feb. 10 (AP)—Two tugs and an airplane were to go out at dawn today, an official of Pacific Mills Ltd. reported, to resume search for a company scow that sank in Smith sound Saturday with its \$100,000 paper cargo. The cargo included 1000 tons of paper—half of it newsprint. Smith sound is at the north end of Vancouver Island.
