# Election Year Price Feud Gains Heat As Anderson Tosses 'Politics' Charge

WASHINGTON, Feb. 10 (AP)—The cry of "politics" echoed on both sides today in the election year price feud between President Truman and Senator Taft (R-Ohio).

The latest jab came from Secretary of Agriculture Anderson.

Anderson said Taft, a candidate for the republican presidential nomination, acted for "political reasons" when he declared the administration was trying to keep prices high for political gain.

There was no immediate reply from Taft who left for a mid-western speaking tour at about the time Anderson's charge was made.

But of the nation's economy in general, the Ohio senator said in a

## In The Day's News

(Continued from Page 1)

the Marshall plan for Europe should be kept free of partisan politics in the pending election campaigns.

He is right—as he often is. Trying to make political capital out of the needs of a hungry and war-torn world is about as discreditable as anything can be.

If we're going to help Europe, we ought to turn in and HELP. If not, we'd better shut up and attend to our knitting here at home.

**SENATOR CAIN** (the new Republican senator from the state of Washington) says in Pueblo, Colorado (he, too, is out making speeches) that the Democratic party is "tired, cynical and decadent."

He's about right.

The Democratic party HELD TOO MUCH POWER IN TOO FEW HANDS TOO LONG. That will wreck anybody. It wrecked the old Republican party in its day.

**SENATOR CAIN**, in his Pueblo talk, describes the Democratic party as "a mixture of liberals, pseudo (fake) liberals and conservatives." The Republicans, he says, are "basically conservative."

Here is something to think about: Conservatism, in the process of CHANGE that goes on perpetually in this world, HAS BECOME LIBERALISM. "Liberalism" (note the quotation marks) became so concerned with SOMETHING FOR NOTHING that it forgot the fundamental truth that "in the sweat of thy brow shalt thou earn thy bread."

True liberalism rests upon fundamentals, and by insisting upon these fundamentals conservatives are RETURNING to liberalism. It sounds screwball, but isn't.

HERE is this writer's advice to Republicans: Figure out what you BELIEVE, and then stick to it. Quit horsing around with politics AS POLITICS. Be sincere.

The people of this country are YEARNING for somebody who will forge politics and be himself. That explains Eisenhower's tremendous popularity in the opinion polls.

## Driver Cited In Accident

Mrs. R. W. Barrett, 57, of 712 N. 3rd, was hit by a car and slightly injured yesterday afternoon at 7th and Klamath, and the driver, Orville A. Kirkpatrick, 29, of Malin, was cited for a court appearance by city police for failure to yield the right-of-way.

Mrs. Barrett was taken to Klamath Valley hospital for treatment and was still in the hospital today.

Kirkpatrick said he was turning off Klamath onto 7th in the snow-storm and failed to see Mrs. Barrett until she was directly in front of his car. He said he applied his brakes and the car slid into her.

Another icy-pavement accident at 7th and Oak late yesterday resulted in Norma Tucker, 28, 617 California being cited into court for failure to yield the right-of-way.

Her car was involved in a minor mishap with a Hurry cab driven by Robert Runkle, 24, 1937 Oregon.

Only two other arrests were made by city police during the last 24 hours. One was that of Roy Hill, 34-year-old negro of 500 Broad, for disorderly conduct. His arrest grew out of the fracas Sunday for which Yastie Johnson, 30, is serving a 20-day disorderly conduct sentence.

## School Law Course Offered

A 10-week course in Oregon school law will be offered beginning at 7 p. m. Wednesday at Klamath Union high school.

Instructing will be Harold Ashley, county school superintendent. Registration will be open at the first meeting. Primary aim is for teachers certification.

The course is sponsored by the general extension division of the Oregon state system of higher education. Classes will be held in room 300, KUHS.

## Owens Final Rites Slated Wednesday

Final rites for Mrs. James Owens, beloved Jackson county matron and mother of J. Vern Owens of Klamath Falls, will be held Wednesday at 2 p. m. from the Perl Funeral home in Medford with interment in the family plot at Central Point.

Mrs. Owens, a native of Jackson county, died Sunday evening in Ashland. She was a member of the First Christian church of Medford. Mr. and Mrs. Owens and children will leave for the valley Wednesday morning to attend services for his mother.

# Mothers Get Brutal Surprise

SAVANNAH, Ga., Feb. 10 (AP)—And what if your child were charming at breakfast, offered to do a chore and paid you a compliment before leaving for school?

They are all assignments for students of Mrs. Martha M. Mavromat, who aims to put her high school civics class into practice, with the home as the proving ground.

One startled mother gave her son a castor oil because she thought he "was coming down with fever. I didn't realize he was going places with citizenship."

# Marshall OK's Plant Plan

WASHINGTON, Feb. 10 (AP)—Secretary of State Marshall says the dismantling of idle German war plants for use elsewhere "will aid, not hamper, the economic recovery of Europe."

He feels "it would obviously be unwise to abandon the Potsdam reparations settlement merely by reason of Soviet malfeasance."

Marshall set forth his views in a letter to Senator Vandenberg (R-Mich.), which was released for publication today. It followed what the secretary called "widespread criticism" of the dismantling program.

Marshall hinted that Russia must begin shipping to Western Europe food, fertilizer, coal and other commodities if the Soviets expect to get any more German machinery.

# Tule WRA Sale Slated

Another sale of buildings at the former Tulelake WRA center is scheduled for February 13 to March 3, and all sales will be on a sealed bid basis.

The sale will involve 16 barracks buildings, 1 ironing building, 1 shop building, 4 warehouse buildings, 5 bathroom buildings, 25 laundry buildings, 6 guard towers and 1 cooling tower. There will be a public opening of bids received at 2 p. m. on March 3.

Bid forms will not be mailed to prospective buyers but may be secured by calling in person at the Tulelake center, Newell, Calif., after February 12.

# Grain Futures Break Sharply

CHICAGO, Feb. 10 (AP)—Grain futures broke sharply on the board of trade after the opening today. Brokers said general trading was influenced by liquidation in corn which was off as much as 4 1/2 cents a bushel shortly after the start.

Wheat and oats broke around three cents a bushel.

Traders said the prospects of continued limiting of the use of grain by distillers had a disturbing effect on the already nervous corn market.

Prospects of better European crops and declining estimates by the government for export wheat were factors in the break in the grain.

During the first half hour of trading wheat was one to four cents lower than yesterday's close, May \$2.53 1/2; corn was 2 1/2 to 4 1/2 cents lower, May \$2.16, and oats were 1 1/2 to three cents lower, May \$1.07.

# 20 Die In Old People's Home Fire

ST. JOHN'S, Nfld., Feb. 10 (AP)—Twenty or more persons died today when fire enveloped an old people's home.

A fire official said more bodies may be found in the ruins of the Hull House structure. It was a three-story concrete building which sheltered indigent and ill people.

Some occupants escaped. Some suffocated or died of burns while still abed. Nine bodies were found in beds in one room. Some reached windows before collapsing.

The cause of the fire was not known. A 50-mile gale fanned the flames quickly out of control. The weather was below zero.

# Midland

Mrs. Edna Travers left Thursday morning for Fortuna, Calif. to spend a few days with relatives.

Ralph Mistler has returned to school after a week's illness.

Mr. and Mrs. Carroll Mistler returned to Midland after he completed his master aviation mechanic's course at the Aero-Industries Technical Institute in Oakland, Calif.

Mr. and Mrs. LeRoy Houck and Mr. and Mrs. Francis Flowers will leave Sunday for Portland. They will be gone a few days.

Last Wednesday evening the Midland grange was honored to have Francis Skinner out to talk to the boys and girls about the projects they intend to work on this year. Plans are being made for a number of projects among the young people.

# More Snow Needed In Oregon Area

CORVALLIS, Feb. 10 (AP)—Oregon will need heavy snows in the next two months to bring the irrigation water supply up to normal, the first snow survey of the winter disclosed today.

W. T. Frost, Medford, said in the report that snows in the mountains above 5000 feet elevation had a water content only 87 per cent of average on February 1. Those below 8000 feet were only 69 per cent of average.

In general, Frost reported, the irrigation outlook is similar to that of 1944, a "poor water year."

The seven best prospects are in the Deschutes, Hood River, Umatilla, Walla Walla, Grande Ronde, Wallowa, Powder and Burnt River basins.

Unless conditions improve, greatly restricted water supplies are in prospect for the irrigated lands of the Rogue, Silver Lake, Chewaucan, Warner valley, Silvies, Crooked and portions of the Klamath, Goose Lake and Malheur river basins.

Reservoir storage is spotty with good supplies in the Deschutes region, but critically short storage behind some smaller dams. On the favorable side, however, are well-soaked, generally unfrozen watershed soils.

The report is made for the cooperative project of the soil conservation service and the Oregon State college extension service.

# Designer Says Skirts Should Go Up---Now

PARIS, Feb. 9 (AP)—Christian Dior, the designer who introduced the look that last year was called "new, has crossed up the fashion world again. He's shortened skirts this year.

Not much, just enough to trick the Paris experts who had quite frankly expected him to lengthen them some more.

To be exact, the difference this year amounts to only an inch, or from 13 inches above the ground to 14. Aside from that which didn't appear too world-shaking to the laymen present, Dior's three hour show yesterday, presented no startling innovations.

Except perhaps one little thing—spats. They looked somewhat like leather stockings, but actually were garters which buttoned up the side.

The crowd applauded one little number, a pink afternoon dress with a bare back, and it also liked a blue woolen thing with a pocket all across the front like a kangaroo's pouch. There was another one which got applause. It was called "Storm" and was made of steel blue satin that looked just like a threatening cloud.

# Truman Wedding Rumor Quashed

WASHINGTON, Feb. 10 (AP)—The White House said today President Truman's daughter, Margaret, is not engaged to be married.

Presidential Press Secretary Charles C. Ross was asked about a published report that Frank Handy of Ypsilanti, Mich., would become engaged to Margaret soon. Handy is the son of G. C. Handy, publisher of the Ypsilanti Press.

"The answer is positively no," Ross said.

Mrs. Reathel Odum, secretary to Mrs. Truman, also said the report "definitely is not so."

Margaret herself could not be reached by reporters.

# Lumber Pay Issue Rises

ROSEBURG, Ore., Feb. 10 (AP)—A reopening of contracts for negotiating further wage increases was unanimously authorized by delegates attending the convention of the Willamette Valley council of Lumber and Sawmill Workers, AFL, here Saturday and Sunday.

At the same time, a referendum strike vote, to be taken immediately among the 6500 members of the union, employed in 86 lumber operations in the six counties embraced in the council, was also unanimously approved, said Eldon Kraal, Eugene, secretary-treasurer of the council.

Kraal said the strike vote was intended only to implement the coming wage negotiations, in which the union will try to boost the 7 1/2 cents an hour increase recommended January 25 by the council and employer representatives.

# Historic Events in the Advance of Medical Science

The origin of the peculiarly shaped bottles filled with colored liquids that used to be the sign of a pharmacy is not too clear. In the 17th century in France "apothecary" shaped jugs for syrups, medicinal herbs and other were used, but probably the ones known today originated in the early English shops when chemistry was new, and the greatest advertisement for the shop was to surround it with an aura of mystery.

# Wright Plane Row Up In Air

LONDON, Feb. 10 (AP)—Herman Shaw, director of the science museum in Kensington, said today that whether the Wright brothers' pioneer plane "Kittyhawk" will be sent back to the United States "depends upon what we hear from the executors of Orville Wright's will."

"As the matter stands now things are rather up in the air," he said. "So far we have received no word from the executors."

He declined to speculate on future custody of the plane which Orville Wright, who died recently, bequeathed to the London museum. Doubt of the validity of the bequest rose after a letter authorizing the Kittyhawk's return to America.
