## Mac May Be Called Home

WASHINGTON, Feb. 20 (AP)—The house foreign affairs committee indicated today it wants General Douglas MacArthur to come home and advise it on Chinese and Far Eastern problems.

Chairman Eaton (R-N. J.) asked Secretary of State Marshall how to go about bringing MacArthur back from Tokyo.

The secretary said he did not know whether the request should go to the president or to the secretary of the army. MacArthur comes under the army department.

Eaton then asked Marshall whether he thought the committee should seek MacArthur's advice today. He put the question this way:

"Do you think we need so big a gun to fire so small a shot?"

Marshall said he would prefer "not to express an opinion."

Marshall came before the committee to talk about the proposed \$570,000,000 Chinese aid program.

Marshall had a prepared statement in which he discussed one question congress members have been raising. This is, "Why does not the aid program call for giving China weapons to use against communists?"

The secretary said the Chinese have resources they can use to buy military supplies. He said their gold and foreign exchange reserves were estimated to total \$274,000,000 on January 1.
