## Today's Roundup

**THE** energy displayed by Harold E. Stassen in his just-completed visit to Oregon was little less than remarkable. He managed to get around to a great many places with great rapidity, and to appear fresh and vigorous on every appearance. He showed none of the strain that we have observed in other candidates for the presidency on visits in this state, although it is possible it would be different were he under pressure that goes with a campaign after one becomes the nominee and is in the heat of battle with a specified opponent. For the moment, Mr. Stassen is out on his own, and appears to be having a fine time of it.

The fact that he is campaigning independently for the nomination in this manner may prove a handicap in the final analysis. Personally, we like his direct approach to issues and his forthright efforts to line up support, but that might not go so well with the powers that be in his party. The brass may consider it impudent and up-startish. It is a pretty safe bet, however, that Stassen at the moment has a lot of strength in Oregon. He has made favorable impressions wherever he has appeared, proving that he is a good campaigner, one with the strength to carry on and the courage to face issues.

### Potato Situation

POTATO prices are at their season peak now but there are not a great many left for shipment from the Klamath basin. The count today for the season is right around the 5800 carload mark, and only a few hundred carloads can be left. Estimates on the season total vary from 6000 to 7000 carloads. Although there may not be many potatoes to sell on the very high markets now existing, the crop has generally gone for an excellent price and potatoes will contribute substantially to the final report on 1947 agricultural values expected soon from the county agent.

There was a sharp decrease in potato plantings in the Klamath basin in 1947. The total acreage was something around 15,200, where plantings of 24,000 acres or more have become commonplace in this region in recent years.

The outlook for 1948 is that plantings will get back into the over-20,000 acre brackets in the coming season. Reported farmer goals indicate a possibility of 21,000 acres, or an increase of maybe 40 per cent over the 1947 plantings. All of which indicates that we are deep in the potato business in the Klamath country and will continue to stay in it.

### Mrs. Cornett Files

WE are pleased at the news that Mrs. Marshall E. Cornett has completed her filing for republican national committee woman for Oregon. Mrs. Cornett is an intelligent, able and personable woman who will most certainly do a creditable job in this leading party position, one which has never been accorded to a Klamath woman.

There has been a gratifying unanimity of support for Mrs. Cornett among party leaders and others. She has been urged to run, and others who might be interested have held off in deference to her possible candidacy.

### New Bus Route

THE new bus route to Southern California from Northwestern points through Klamath Falls, Reno and Bishop, which we have talked about off and on for quite a while in this department, has at last become a reality.

Pacific Greyhound, which took over the OC and N stage line from here to Reno, promptly consolidated this run with other runs from Reno south and

Klamath Falls north, and made an entirely new stage route on the inland route. This will not only enhance Klamath's position on the coast bus line map, but it will direct attention to a fine north-south highway route that has not yet received the public attention and patronage it deserves.

## These Days

By GEORGE E. SOKOLSKY  
FEW men are as respected by their colleagues in any field as Senator Arthur Vandenberg is in the congress of the United States. More, he is liked. I have heard both of the leading republican contenders for the nomination speak of him with real affection. This is so unusual in a pre-convention campaign in which everybody seems to say that none of the others can be elected.

It is therefore distressing to listen to a new line of propaganda put out by the Stassen people that the best of all tickets for the republicans to nominate would be Vandenberg and Stassen. That is certainly a permissible aspiration, but what is extremely bad taste is the reason given for the association. It is that Senator Vandenberg suffers from a heart ailment and that if anything happened to him (it almost sounds like a wish) the vice president would be fit for the presidency.

### "Cheap And Nasty"

TO me, that sounds pretty cheap and nasty. Cardiacs (and I do not even know if that is true about Senator Vandenberg and I do not choose to inquire) have a way of fooling the most optimistic about the state of their health. They often go on and on outliving their most athletic relations whose hopes are shattered by their persistence.

Senator Vandenberg has stated that he is not a candidate and that ought to be final about him and General Eisenhower and anyone else who chooses not to run. Certainly, he is too big a man, within his party and the nation, to be a stalking horse for Stassen or anyone else. The Stassen propagandists exhibit extremes of desperation, even in their ambition to make him a vice president. They seem to imply that any job is good enough for him.

The other day, I called attention to the peculiarities of the contributions to political parties. In the report of the house committee on campaign expenditures, it is stated: "... John Hay Whitney, who contributed to Bryan, also contributed to Tammany Hall." Bryan was the republican candidate; Vito Marcantonio was the Tammany candidate; "Jock" Whitney contributed to both, although they ran against each other. That is an old game, but not a nice one. It represents an utter debasement of our political system. This "Jock" Whitney has been a new dealer, an ardent supporter and follower of Harry Hopkins. He was an intimate of the White House when Franklin D. Roosevelt was president. In fact, he eventually married the first wife of James Roosevelt. Under the new deal, he served as a "special adviser and consultant on public affairs" in the state department. He has been so closely affiliated with the new deal in the public mind that no one suspected him of being a republican; yet his name popped up in this congressional report as having contributed to a republican candidate and to Tammany Hall simultaneously. The question is to which party does he really belong or does he shop around for favorites?

### Significance

NOW, the significance of "Jock" Whitney is that he is being named as a principal financial supporter of Harold Stassen among those who are being told that Stassen has plenty of money to spend in the campaign against Taft in Nebraska and Ohio. "Re-convention" expenses need not be disclosed and therefore this report may never be confirmed, but it is being circulated boastfully by Stassen supporters. Mr. Whitney or anybody else is entitled to make his own choice and to put his money behind any man. There is no crime in that. The question does arise, however, why one who has been an ardent new dealer, a close-to-the-throne adherent of Franklin D. Roosevelt, a votary of the sage Harry Hopkins, finds himself among the republicans and is supporting a republican candidate for the presidency, or why he permits it to be so bruited about.

When General Eisenhower was a candidate, the new dealers flocked to his standard; that was natural, for he had been one of Roosevelt's favorites. But Stassen has been an antagonist of the new deal all these years, a straight republican. Why should new dealers flock to him? Is Truman so offensive that they would prefer Stassen? That might make votes for Truman.

been tried and seem to be helpful in many cases. Recently scarlet fever patients have been given penicillin, and good results have been reported from this treatment. Among the complications of scarlet fever are Bright's disease or nephritis, swollen glands, arthritis, bronchitis or bronchopneumonia, and infections of the ear.

Still Serious Although in recent years most scarlet fever has been somewhat milder than in the past, it is still serious. In 1947, over 125,000 cases and 425 deaths from scarlet fever were reported in the United States. One attack of scarlet fever usually gives immunity for life, though second and even third attacks occur occasionally.

It is estimated that there are between two and three million farmers in the United States who do not own automobiles. The chamber of commerce will hate us for this—Ed Miller, LW tech, drove up to Portland last week and returned Sunday in all that storm. He weathered it fine, snow, flood and slick highways in his Old Look '29 La Salle, built high to spurn bad roads—"part of the fleet," Ed calls it. He made it all OK and snugly drove into the yard of his new home on Harlan drive to sink into the terra (not) firma up to the hub caps. He had to wait till the ground was frozen stiff in the morning to pry the car out. Ed hopes the ground will stay frozen because if it ever thaws he'll have to gravel his driveway.

## SIDE GLANCES

"I'd like to go fight Indians, find gold and discover unknown lands like you did, grandpa—but I have to phone mother if I'm going to be home ten minutes late from school!"

## STATIC

By JOY BIGGS

### Sportsman

KUIS Sports Announcer

"Teletalk" LW's popular nightly program SPONSORED BY DERBY'S MUSIC COMPANY has its own telephone number now—8112—so nobody should be wakened by wrong-number dialing in the future.

Paul Whiteman, starred weekdays over ABC as a disc jockey, says in regard to advertising: "When a goose lays an egg she just waddles off as if she were ashamed of it—because she's a goose. When a hen lays an egg she calls on heaven and earth to witness it! The hen is a natural born advertiser, therefore the demand for hens' eggs exceeds the demand for goose eggs."

We laid an egg in this column yesterday and we'd like to waddle off and forget it because we are ashamed of it. Derby's Music company advertising wants to call attention to the fact, naturally. We named another business firm as sponsor, like a goose—therefore this cackle of apology.

Heading the column today is that KUIS junior Don Pallett, heard on JI's Klamath Sports Album every Thursday at 8:30 p. m. He helped LW's Don Neal out last week on Sports Lineup.

The chamber of commerce will hate us for this—Ed Miller, LW tech, drove up to Portland last week and returned Sunday in all that storm. He weathered it fine, snow, flood and slick highways in his Old Look '29 La Salle, built high to spurn bad roads—"part of the fleet," Ed calls it. He made it all OK and snugly drove into the yard of his new home on Harlan drive to sink into the terra (not) firma up to the hub caps. He had to wait till the ground was frozen stiff in the morning to pry the car out. Ed hopes the ground will stay frozen because if it ever thaws he'll have to gravel his driveway.

There's a lot of good listening on tonight's agenda and you'll likely find entertainment to suit your own special fancy in the Radio Programs time-table in The Herald and News—you don't want to be spoon-fed all the time—or do you?

Cecil Carlile has many interests. Preserve Those Valuable Papers and Documents. Let Us Copy Them. Up to 8 1/2"x11" — 60c. Underwood's Camera Shop 727 Main Phone 7063

for leisure hours after work in his post office magazine stand, among them radio. He has his own short-wave station with call letters W7JWM and holds a class B amateur radio license. Not content with his present standing he is being coached by Gordon Lee of KFLW, evenings on radio telegraph and code toward a class A license—the highest amateur rating obtainable.

## Police Busy With Wrecks

Two automobile accidents downtown early this morning kept city police officers on the dawn patrol.

The first occurred at 7:10 a. m., when cars driven by Roger David Rose, 20, 235 Union, and Wilson Sylvester Bennett, 37, of route 1, collided at Elm and 7th.

Bennett was arrested for failure to yield the right of way and posted \$10 bail.

While Officer Fred Olin was investigating that mishap, he got a call to go to 11th and Klamath, where cars operated by Virgil Brian Bickenback, 38, 406 Lowell, and Charles B. Heinebauch, 22, of 3847 Bristol, collided at that intersection.

Bickenback likewise posted \$10 for failure to yield the right of way.

## CITY BRIEFS

Condition Unchanged—Jerry Baker, employed on the Jerry Rajnus ranch at Malin, was reported in a critical condition today and there is little change following his admittance to Hillside hospital late Monday night. Baker drank from a jug which he thought to have been filled with water but which held bichloride of mercury, used on the ranch for potato spray.

Called East—Dorothea Ellingson left the first of the week for San Francisco where she met her mother, Mrs. Robert P. Ellingson Sr., and the two continued to Ladysmith, Wis., where they were called by the illness of Mrs. Ellingson's sister, Mrs. Emory Ellingson.

Auxiliary To Meet—The Woman's auxiliary to St. Paul's Episcopal church will meet Thursday at 2 p. m. at the parish house. The Rev. F. C. Wisenbach will give the third of a series of Lenten lectures and the business meeting will follow.

Hand Injury—George Coates, 419 Torrey, was admitted to Hillside hospital at 11:45 p. m. Tuesday suffering from a painful hand injury received while at work with the night shift at Modoc Lumber company.

Stamp Club—There will be a meeting of the Klamath Falls Stamp club tonight, Wednesday, at 7 o'clock at the home of Mrs. A. J. Dorlaque, Lazehore drive.

From The Valley—Mrs. Edward Gralian and young son Michael were visitors from Langell valley Wednesday.

## The World Today

By DEWITT MACKENZIE AP Foreign Affairs Analyst

The United Nations security council finally is face to face with the necessity of answering its Palestine commission's report that the partition of the Holy Land can't be carried out without force.

It's a difficult and dangerous problem. And it's unwelcome, for the UN must either produce a judgment of the peace or the peace organization may come a cropper from which it never will recover. In short, the UN is on trial in a big way—maybe for its life.

The Palestine commission not only says force is a requisite for the carrying out of instructions, but it warns that quick action is imperative. To my mind that warning is one of the most vital points of the report, as should be clear to anyone who reads the headlines recording the bloody warfare between the Jews and the Arabs, and the preparations by both sides for all-out war.

Look To Us The world has been looking to the United States for a lead in dealing with the Palestine issue—one of the most controversial of these troublesome times. Yesterday Chief U. S. Delegate Warren R. Austin went before the security council and made a declaration. It was a most carefully worded statement—so guarded, indeed, that we await further enlightenment.

Austin's main points would seem to be these: America proposes that the Big Five powers (The U. S. A., Britain, France, Russia and China) begin immediate talks with the Arabs and Jews in an effort to settle the problem, but the exact nature of these talks isn't clear. The United States pledges that its policy "will conform to and be in support of United Nations action on Palestine." Austin said the council must act to restore peace but declared that it had no legal authority to enforce a political settlement, that is, partitioning of the Holy Land.

"The council's action," he said, "is directed to keeping the peace and not to enforcing partition." Austin added that the United States is ready to enter consultations on the creation of an international force to keep peace in Palestine if the council decides such a course is necessary.

Armed To Teeth Well, now, where does that leave us? The UN has decreed that the Holy Land shall be divided between the Jews and the Arabs. The Jews want partition and the Arabs don't. Both are arming to the teeth to maintain their viewpoints.

With the present temper of the Jews and Arabs, partition can't be carried out without the employment of outside force to keep the peace. Therefore if the security council doesn't provide a force to maintain peace the Arabs and Jews will fight it out to a terrible finish.

On the other hand, if the council does provide a peace force, it will be creating a situation which ipso facto will permit the Jews to establish their government against the wishes of the Arabs. In other words, any effective peace force will implement partition.

Try and figure that one out! That's what the security council has to struggle with. And the essence of the situation is speed.

Kiwanis Club To Entertain Farmers Farmers will have their heyday, or hay day at a dinner sponsored in their honor by the Kiwanis club Thursday night at the Willard. This is an annual affair with each member bringing a farmer as a guest and special guests being invited by the club.

R. L. Clark, Portland livestock commission man, will be the main speaker following a social get-together hour 6:30 to 7:30 p. m. Bryant Williams will be chairman for the evening.

Major Surgery—Leland Sneed, Sears Roebuck company employe, had major surgery at Hillside hospital today.

## Boyle's Column

# Freckle Problem Solved, To Great Relief Of Boyle

By HAL BOYLE NEW YORK. (AP)—Freckles... Freckles... Freckles... I've a transcontinental rash of them.

It all began some days ago when I wrote about borrowing a freckle from a five-year-old girl I knew. I found myself in a pickle when she asked me to return it. She said she was sure her freckle had become lonesome for her.

But how can you give back a borrowed freckle to an imaginative child? You can't just tell her: "Sorry, small fry, I had to turn it into the federal freckle tax collector."

My first plan was to tell her that her freckle had changed into a chocolate bar—and hand her one. I figured that the candy bonus would still any doubts in her mind.

But readers from coast to coast began sharpshooting at that prospective solution.

"She'd feel like a cannibal, eating her own freckle," objected Rosemary Sprague of Cleveland Heights, O. "Oh, you didn't mail the chocolate bar!"

She proposed instead that I inform the little girl that her freckle had been changed into a beautiful golden buttercup and that she would find it some day when she grew up.

Fairy Tale "The little girl sounds like one of the sweet sensible kind who know there are fairies," wrote Jennie M. Barholm of Pittsburg, Mass.

"Why don't you let her know the fairies have the missing freckle and are polishing it and polishing it until it gets all spunky new looking."

"Then some night when she's fast asleep, a fairy will fly in and gently put it back on again. She'd better look in the mirror every morning, and when there's a freckle that's apparently brand new, then she'll know it's the one."

A lady in Burlington, Ia., suggested that I buy a dime store doll and "paint a gorgeous freckle right on the end of her nose." Mrs. Rose Emerson of the Bronx, New York City, recommended that I tell the little girl I was pasting the freckle in a letter to her but that freckles in such cases frequently fade and disappear.

More solutions came from Sacramento, Calif., Columbus, Mo., International Falls, Minn., and other cities—but none from Hollywood, where freckles sometimes support people, instead of vice versa.

I got so much varying advice in this "case of the purloined freckle" that I was at wit's end what to do. Nobody agreed except on one point—that my idea about the chocolate bar was all wet.

Then came the letter that solved the whole problem.

"I felt sorry for you so I am sending you a few of my own freckles," wrote 13-year-old Carlene White of Portland, Me. "They are not real, but I hope they'll do."

In the letter was a tiny cellophane packet containing twelve freckles. If Carlene hadn't described them as freckles, I would have sworn they were pieces of red eraser from a lead pencil.

I delivered them promptly to the little girl. She accepted the freckles gravely, thanked me and said: "They aren't exactly my color anymore. You must have left them out in the rain and they got rusty. I bet they're glad to be back with me—'cause I'll take better care of them."

Anyway I learned one thing: I'll never borrow a wart.

## Realtors To Hold Banquet

The first annual banquet of the Klamath Board of Realtors will be an event of tonight, Wednesday, at 6:30 in the Willard hotel banquet room.

Guest speaker will be Claud H. Murphy, real estate commissioner for Oregon, of Salem. This will be Murphy's first visit in Klamath Falls in three years.

Murphy will be introduced by E. M. Chilcote, Klamath Falls realtor and member of the Oregon state board of realtors. President of the Klamath board, Charles Bonney, will preside over the affair.

Hot Chilcote is in charge of arrangements assisted by Al Schneck and Doren Brett, Realtors and their wives will attend.

## Gasoline Motor Said Stolen

A 4-horsepower gasoline motor, property of the Southern Pacific company, was reported stolen sometime last night from a garage at the residence of Jack L. Eagan, 132 Martin.

City police said the motor was of Briggs and Stratton make and worth about \$175.

Also stolen was a tire and wheel, various tools and other items from the garage.

"Dream Girl" tonight. Curtain time 8:00.
