

DeWitt To Wait Action

A demurrer to the indictment of Archie DeWitt, 31, on trial for contributing to the delinquency of a minor, was upheld by Circuit Judge David R. Vandenberg this morning and DeWitt was sent back to the county jail to wait for the next session of the grand jury.

His attorney yesterday afternoon had asked that the indictment be thrown out on grounds that the allegations it contained did not constitute a crime. Judge Vandenberg noted that and other flaws in the charge, but would not release DeWitt.

He ruled that since no evidence of merit had been presented the jury, DeWitt would not be placed in double jeopardy by having his case re-submitted by the grand jury.

DeWitt is accused of an immoral lecture toward a 15-year-old girl, November 28. U. S. Balentine is representing DeWitt, who has been in the county jail since early December in lieu of \$3000 bond.

COMFORT SETS THE STYLE

1. This gadget was the latest thing in headsets when grandmother was a girl. Matter of fact, it was the first headset in general use back in 1880. It weighed more than six pounds. It's a museum piece now, of course. Headset styles changed. They grew lighter, more comfortable, more efficient.

2. This chest-style model came along after many modifications of the old timer. Telephone engineers liked its voice "pick-up." Operators as its lightness and the freedom of movement it gave. As transmitters became better, central offices became quieter and more pleasant places.

3. Today's newest streamlined set is tops for comfort, say operators who've used it. It weighs under six ounces. It's an example of how we're making equipment more comfortable . . . to make the company a pleasant place to work . . . the sort of place that helps attract the kind of people who make good service possible.

4. Here's why telephone jobs are good jobs: Pay is good—employees paid while training • Regular raises, overtime and premium pay • Steady work—telephone people can plan ahead • Benefit plan paid for entirely by company—covers sickness, death benefits and pensions • Advancement within company • Paid vacations and holidays.
