

# Soroptimists Hear Defense Program

The Soroptimist club of Klamath Falls had a number of guests at its Thursday luncheon meeting in the Pelican party room. Mrs. Irma Clause and Grace North, Soroptimists from Lakeview, attended. Mrs. Clause, president of the Soroptimist club of Lakeview, brought greetings from her club and gave a brief summary of its activities.

Ida Odell had as her guest her niece, Mrs. W. Mischke, who is visiting her from Walnut Grove, Minn.

Marguerite Keasler, chairman of the day, introduced the guest speakers, D. E. Van Vactor and Dave Totton, who were speaking to stimulate interest in the national defense program.

Van Vactor discussed the United Nations, the Marshall plan and national defense. He told of the necessity to have a proper administration of the distribution of the food sent to Europe rather than have it flow into black market channels.

Totton, who is captain of the local national guard unit, told of the progress already made by the national guard in this locality and of the problems that confront it in the future. The present problem is the recruiting of high school boys and finding a proper building to use as a training center and to house the \$500,000 worth of equipment to be used in their training program. This equipment is the very best that is available and the training will be educational as well as stimulating.

At present negotiations are being made to lease the armory with future plans to make extensive improvements and repairs.

Next week will be United America week and the beginning of the local recruiting program.

## Custom Made

suits at WHYTAL'S are the ultra for Easter... both in fabrics and styling... but just about the most appealing is a fine gabardine in candy pink... exhilarating as the first apple blossoms. Jacket of this suit is medium length. Hand-stitched trim outlines the collar... and its triangular pockets are adorable. The kored skirt is slightly flared.

A color contrast to the pink is a kelly green wool crepe... exact duplicate of a suit shown in Paris at the American designers' show! Front of the long jacket... embellished by gold buttons... is artfully draped for fullness above a slim skirt. As brilliant in hue is a bitersweet red in finest quality gabardine. The fetching, scalloped jacket is short... and goes are used in a full, flaring skirt.

Youthful girl jacket suits... for the girl graduate... are found at WHYTAL'S... in the Medical-Dental building, Main at Ninth; in an assortment of shades and fabrics... each a wee bit different in styling. There are all types in navy, too... the ever popular shade for spring... and one of skipper blue in gab features a moulded cut-away jacket.

Cheese goes on the shelf in new 14-ounce vacuum packed tin cans. No special refrigeration is required to preserve the cheese, and varieties available include American cheddar, Gruyere, and smoked cheese.

## White Icing

or pastel tints for your Easter suit are abundant in the blouse department of WHYTAL'S... but branded new is a snowy crepe adorned with gold and pearl studs in place of buttons. Bands of horizontal tucking extend across the front... and the ample collar is pointed.

Trimming detail on a lovely rayon with short, cuffed sleeves is similar to that on many batistes this season. Each front tuck is edged in lace... and this, too, wears a pointed collar. Should you prefer long sleeves, you'll like the white crepe fastened with crystal buttons, flaunting ruffles of lace about the high neckline and at each cuff.

Among other styles is a gossamer sheer white with attractive gathered neckline. Sleeves are long and extra full. Of special interest to the school girl are the seeds of practical and pretty cotton blouses among WHYTAL'S... in the Medical-Dental building... but you'll be hearing more about these later.

Maybe it's the desire to look more feminine or maybe because it's Leap Year, but don't you think the latest hat creations have quite a sentimental appeal with their fanciful ribbons and flowers and their delicate linings?

## Adjustable Belts

of leather or metal are among new arrivals at WHYTAL'S. Extremely dressy are the mesh in gold or silver. Their buckles are easily removed for adjustment to your waistline. Square links are used for another type of metal belt... and these can be shortened simply by removing the necessary number of links. The leather belts... which slip through a snap buckle for cutting down to size... are available in red, brown and black... in inch or inch-and-a-half widths... at Whytal's.

## Scandals

for your sandals... by Arterraft! These newest nylons received by LONG'S are scandalously sheer. And they look even sheerer than ordinary 15 denier because the heels have no reinforcement. They're extremely flattering to the leg... and tests have proved they wear ever so well. Only one shade... sable, dark glossy brown... a fashionable contrast for spring pastels.

Exceptionally popular since first introduced by Arterraft is Indigo, a midnight color to wear with navy, gray or bright reds. Other beautiful shades... available in both 15 and 30 denier stockings of elegance by Arterraft... at LONG'S APPAREL, 419 Main... are Poppy, a burnished copper, good with all spring or summer hues... and Lotus, a cocoa beige.

Two more of Arterraft's soft and lovely shades... Heather and Dahlia... arrived at Long's yesterday, just in time to get mentioned.

Wind your wrist watch once a day at the same time, advises the Jewelry Industry Council. If left un wound for any length of time, the watch's mainspring may lose its tension.

**The Double Oven**  
Frigidaire ranges... you can see them any time at Vern Owens' CASCADE HOME FURNISHINGS CO... have proved wonderfully satisfactory... and Klamath women who've already purchased this type are singing their praise.

For that matter, why shouldn't they? The price of \$339.75 isn't prohibitive... and you never have the worry of getting foods that require different oven heats baked on time. Furthermore, if the family holds conflicting ideas on whether broiled steaks should be rare or well done, the problem is solved.

These Frigidaire ranges at CASCADE HOME FURNISHINGS CO... 124 No. 4th... are equipped with separate controls for each oven... and every detail of the larger is repeated in the smaller. Each has a broiler pan that serves double duty for open roasting... and both light up when the door is opened. Beneath them is a handy, full-width drawer for storing kettles and pans.

Here's a simple test for color fastness in fabric: Wet a bit of the hem and press against a white blotter. If the blotter shows a stain, the dye will probably run when the fabric is laundered.

## Plaid Shirts

of washable taffeta bearing the world-famous Graft label... butcher lines in ice cream shades... buoyant prints or crisp checked gingham... these are only a sampling of the amazing variety of moderate-priced blouses awaiting you at THE TOWN SHOP... for casual, sports or dress-up wear.

Sophisticated Romaine crepes vie with more simple but deftly styled Patty Woodruff. Susan of California comes forth with two dazzling white crepes. One sports a huge bow tie and buttoned gauntlet cuffs, a la Miss Gibson... another, fanciful trims of grosgrain ribbon spliced to the collar and cuffs.

Designer Ann Foster shows a flair for cotton sheers, using pin stripes pastels in pink, gray or blue for a Gibson-ish number with a button-on black tie. Then, to express her versatility, produces a handsome casual blouse of fresh white shark-skin with a clever, rounded yoke.

Cameron's man-styled shirts for the ladies... in soft-toned tailored or plaid combinations... is another well-known line carried by The Town Shop.

And if it's skirts you're wanting to team up with blouse accessories, THE TOWN SHOP... Main at Fifth... has plenty. There are black ballerinas, smartened by gold kid belts... pastel plaids with a graceful flare... the novel cuffed-hem type... and all sorts of straight, slim woolsens.

## A Special Offer

of Revlon "Fashion Plate," plus a gift box of matching powder... both for \$1.75... is being featured by CURRIN'S... and if you haven't yet tried this cream wafer make-up that gives a luminous glow to the skin, Martha can assure you from experience that it does work wonders!

However, it is important to select a shade best suited to your complexion... one that won't make it look "coated"... from Revlon's "genius-colors", including Cinderella's Pumpkin, Rosy Future, Ultra Violet, Bachelor's Carnation, Pink Lightning and others.

Fashion Plate is not a cake make-up... doesn't require water or sponge... and doesn't feel the least bit drying. Just stroke it lightly over face and throat. Then pat on the matching powder for a velvety finish.

This special combination offer of \$1.75 and tax... the regular price of Fashion Plate alone... will last only a limited time at CURRIN'S... that's the friendly drug store at Ninth and Main... so don't put off your purchase too long.

Check up on your vocal mannerisms. A mature woman should have the added charm of a soft, well-modulated voice, never the shrieks, squeaks and high-pitched laughter that are part of the exuberance of the teen-age period.

## Modernistic

"Stormy" Borten brought home a lot of ideas for giving your coiffure the new look after attending the Educational Show held for beauticians in Portland last week-end... where milliners and hair stylists worked together in demonstrating modes most flattering to the new hat silhouettes.

So... if your spring bonnet doesn't have quite the effect you desired, Martha suggests that you let Stormy show you a hairdo to enhance its lines. More waves will be seen... shadowy, not deep. A variety of smooth, cap styles cover the ears... but for you who don't favor these, updos are still in vogue—swirled into new versions, as for the Gibson Girl trend, Stormy explained it isn't at all necessary to cut hair shorter... simply have a smoother and longer coiffure.

Next time you visit MODERNISTIC BEAUTY SHOP... 915 Klamath... ask "Stuie" at the cosmetics bar to see Revlon's Snow Pink nail polish and lipstick... created for wearing with pastels.

## 'Tis Leap Year

and RICKYS are offering a substantial reward to you gals for your efforts at snoring. But you certainly can't get all these important gifts into a hope chest... and what would a marriage license be doing there, anyway! So why wait?

Here are the facts to back up your proposal: By paying the price of a Zenith refrigerator for your new home... that is, \$274.95... Riklys will present to you and your groom a \$14.95 Proctor electric iron, a \$14.85 automatic toaster, a \$5.95 set of International Silverplate, a \$3.75 Stawell ironing board... and last, but not least, a marriage license... all absolutely FREE! In other words, you'll be getting over \$37 worth of value just for the price of the 7-cubic foot refrigerator.

All of these items... except the license... are on display in the downstairs store of RICKYS JEWELERS... 700 Main.

## Domino Coats

... in fly-away styles of airy-weight wool gabardine, with great yards sweeping out from stand-up collars... are the debonair spring toppers being shown at LaPOINTE'S. You can't help being impressed by their distinction, as well as the prices which start at \$39.95.

A classic casual of Miron Victorian gab... the same as pictured in Vogue... has all the right detailing for dressier affairs. Buttoning completely down the front, unusual in itself... it boasts an embroidered taffeta tie at the collar. Then, there's the flowing great-coat, designed by Kay Saks in Betsy's famous super-shan gab. This topper can be changed into a gracefully fitted number by simply tying the clever ascot around the waist. It sells for \$69.00.

These are merely two examples from a superb collection of carefree coats at LaPOINTE'S... 507 Main... designed to include our favorite Barrymore collars, pronouncedly pointed... the round elephant ear collars... pockets slashed in or set on... all lending plenty of dash. Junior sizes mingle with to 18 regulars... and in the color splash are beige, navy, skipper blue, gray, red and black.

When buying a new foundation garment, it's most important to try it on under the supervision of an experienced saleswoman for proper fit. Then test it for maximum comfort by walking, sitting, bending and standing.

## Token Bells

in porcelain, exquisitely hand-decorated, proved so popular at holiday time that JEWEL AND GIFT SHOP... another assortment from the Poinsetta Studios in California to embellish gift packages... or wear as lapel ornaments. Only this time there's a suitable design for almost any occasion... "Happy Birthday," "Get Well," "Thank You," "for the Blessed Event," "To Mother"... even a souvenir K. F. bell decorated by a pelican.

Martha suggests these for inexpensive bridge prizes... or a set of the copper ash trays that sell for \$1.95... or any of the hand-decorated china ash trays priced at 50 cents each.

If you have a wedding gift on the shopping list, you'll be interested in this outstanding buy at Jewel and Gift Shop... the new sterling hollow ware salt and pepper, pleasingly shaped, priced at only \$13.50 a pair.

Beginning of the Lenten season saw the appearance of myriads of Easter greetings at JEWEL AND GIFT SHOP... and H Green Stamp gift store at 518 Main... and they seem even more fascinating than usual.

New Irish linen napkins, oblong in shape instead of square, are christened "lapkins" because, says the designer, they won't slip off the lap as easily as ordinary napkins.

## Plastic Lace Hats

... originals by Syl-Rose of California... are newcomers at KATHY'S... and they'll certainly glorify your Easter suit! Crocheted in Italy, they resemble our lacy, summer straws. Clever designers give them the finishing touch... shaping them into charming, off-the-face silhouettes or picturesque, wide-brimmed sailiors. These come only in black... but their sprightly trims are many and varied.

KATHY'S HAT SHOP... 1114 Main... has been simply deluged with all sorts of straws this past week... black, brown and navy, beribboned, beflowered and veiled... but most distinctive, to my notion, are the closely woven, wool straws made in China. Off-white and toast shades predominate. And, perky as can be, is an audacious straw sailor in frosting pink with looped streamers showering from the back.

It's a busy time in millinery... but Kathy's will still re-trim your last season's bonnet if you can't bear to part with it.

Basic dress patterns have been re-styled to conform to the radical change in silhoues, so that the amount of fabric required for the average pattern is now three and a half yards instead of the former three.

## Fried Chicken

... prepared Irish style by O'Brien's catering service at Medford, then frozen... is a new menu item in the freezing compartment at PINE STREET MARKET. Each package holds half a fryer. All you have to do is pop it into a piping hot oven for 15 minutes... and dinner is served!

Also from O'Brien's this week came ready cooked, quick frozen Chili and Beans... put up in pound cartons. Simply add water and re-heat. Van Camp's popular Beans Weenies... a combination of white beans, tomato sauce and sliced wieners, two servings to a jar... are on the shelf again.

For dessert, let's pick up a carton of delicious Crater Lake ice cream and, for topping, a can of Hershey's chocolate syrup with that unbeatable fudge-like flavor. A reorder shipment of National Biscuit company's tinned wafers... chocolate or ginger... has arrived at PINE STREET MARKET... corner of Seventh and Pine... where you can get the S and H Green Stamps.

**Belle's Beauty Shop** formerly known as Mrs. Finley's shop in the Steward-Drew building... has been all re-decorated under the new ownership of Belle Johnson... and former patrons... as well as new customers... are reminded again that all types of permanents are given, including the Supersene Waves. Belle has had exceptionally pleasing results with this improved method... and will be glad to tell you more about it. The telephone is 5377.
