## Strike In Atom Plants Postponed

WASHINGTON, March 5 (AP)—AFL unions, bowing to a plea by President Truman, today put off strike plans for at least two weeks at atomic bomb laboratories in Oak Ridge, Tenn.

The president, before leaving Key West, Fla., to return to the capital, took the first step provided in the Taft-Hartley act for dealing with a national emergency strike threat. He said he was naming a board of inquiry and would ask it to report by March 19.

It was the first time Mr. Truman had made such a move under the act passed over his veto last June 23.

After the board reports, the attorney general could ask for an injunction. If granted this court order would postpone a strike for another 60 days.

The AFL unions represent about 500 workers at one of Carbide and Carbon Chemical corporation's Oak Ridge plants. The workers had been set to walk out at midnight tonight after long contract negotiations seemed hopelessly stalled.

The carbide and carbon firm took over from the Monsanto Chemical company at the Tennessee atomic plant last Monday. The unions had a contract with Monsanto which expired when that company ended its Oak Ridge operations.

Another threatened shutdown at Oak Ridge was averted last December, when the CIO gas, coke and chemical workers reached a last-minute settlement with the same company.

The AFL unions are reported to be asking for a wage boost of 18 cents an hour, plus 3 1/2 cents an hour in other benefits.

## Males May Get Color After All

BEVERLY HILLS, Calif., March 5 (AP)—Are you an impatient manic depressive? A loud husband may be the answer.

Such was the suggestion today from a designer and psychologist, who teamed up to test a theory that fancy hats for males will relieve severe mental depression.

Keneth Hopkins, noted creator of women's chapeaux, and Alice La Vere disclosed that their ideas will be tried out this summer in an unnamed California private mental sanitarium.

He and Miss La Vere, a juvenile delinquency consultant here and in San Francisco who has worked extensively with war veterans, say they're convinced that fancy uniforms and rainbow-hued ribbons appeal to men as at least partial satisfaction of male color hunger.

## Copco Plans Bond Issue

SAN FRANCISCO, March 5 (AP)—The California Oregon Power company asked permission Thursday to issue \$4,500,000 in first mortgage bonds, due April 1, 1978. Interest rate will be set later.

The company also applied to the California public utilities commission for authority to sell 100,000 shares of common stock of \$2 par value. Funds from both transactions will be used to reimburse the company's treasury for past expenditures and finance future expansion.

The commission approved the application by Clude Henry of the Klamath Light and Power company to issue a note for \$36,000 at four per cent interest. The loan will finance in part his \$75,000 share of a \$105,000 transmission line into Klamath, Calif., to be built by the California Oregon Power company.

Commission engineers reported the new line would materially reduce the Klamath company's operating expenses.

## Derelet Mine Floats Off Coast

SEATTLE, March 5 (AP)—Sighting of five derelict mines off the Washington-Oregon coast lines in three days brought a renewed warning to shipping Thursday.

The coast guard said four of the five mines have been exploded by gunfire. The fifth is believed still drifting off the coast.

The cutter McLane disposed of two mines off Grays Harbor yesterday and one off Umatilla reef Monday. Another was exploded off Willapa bay Tuesday by the cutter Balsam.

The fifth mine, reported sighted off Coos Bay, was sought by the cutter Bonham for two days without success.

## Portland Claims \$25,000 Windfall

PORTLAND, March 5 (AP)—The Rushlight Automatic Sprinkler company, which won a big contract it didn't want, declined today to do the job and returned the contract to the city.

The firm bid \$429,444 for a sewage construction job; discovered only afterward that it had neglected to add into its price \$200,000 worth of steel. The city council, however, refused to let the bid be withdrawn.

The council will now decide whether to declare forfeit the \$25,000 earnest money Rushlight paid when submitting its bid.

## Patriarch Buried In Sitting Pose

BUCHAREST, Romania, March 5 (AP)—Patriarch Nicodem of Romania was lowered in a sitting position into his tomb Thursday.

The head of the Romanian Greek Orthodox church died last week at the age of 82.

By church tenet, a patriarch or metropolitan is never presumed to have died. Rather, he is considered to have fallen asleep. That is why his body was entombed in a sitting position.

SEATTLE, March 5 (AP)—David Stern III has put the printing presses and other equipment of the defunct Seattle Star up for sale, his Seattle attorney reported today.

The former Philadelphia and Camden publisher bought the plant and equipment November 13. The Star ceased publication August 13. There had been wide conjecture that Stern might attempt to resume publication of the Star.

The attorney, Payne Karr, said he was not authorized to disclose plans for the Star building and site.
