Mis-Use Of Facilities Bad For Youth Program—Smith

By SAM SMITH
City Recreation Supervisor

We frequently hear the comment that more use should be made of the buildings we now have, and John Q. Public can't understand why groups are sometimes hesitant in permitting use of their facilities.

In talking to the persons in charge of our several large buildings we find them a very agreeable group of people. They, too, feel the facilities should be used to capacity but they have the worry that we will misuse rather than use the facility.

We must show good faith with the custodians of our public and private buildings and use the equipment only for its intended purpose and use only that portion of a building we agree to use. Above all, if damage is done, report it at once and make arrangements for repair. Such thoughtless acts as chinning on basketball hoops, taking advantage of an unlocked door to go into other parts of the building, etc., lead only to hard feelings and eventual loss of the use of the facility.

Let's remember that being notified we can't use a certain building is a reflection on our mis-use of the building or a similar one in the past. Now, for this week's activities. We

are including the teen-age activities in this column to encourage all teenagers to participate in their own program:

Monday—6:30, swim party at natatorium for Altamont Junior High Glee club; 7:00, teen-age dance instruction at Moose lodge (Mr. Proctor); 8:00, Ceramics club in art room, KUHS (Mr. Banister).

Tuesday—7:00, private swim party at natatorium.

Wednesday—7:30, swim party for women's physical education class at natatorium under Lillian Redkey; 8:00, Ceramics club in art room, KUHS (Mr. Banister).

Thursday—8:30, swim party for all teen-agers at natatorium (Mr. Proctor and Mr. Friedman); 8:00, Ceramics club in art room, KUHS (Mr. Downs).

Friday—6:30, swim party at natatorium for Camp Fire Girls and Girl

DUMMY MINE
FLORENCE, Ore., March 6 (AP)—An American-made practice mine washed ashore here Sunday but a navy expert said it was a harmless type occasionally used by the navy as buoys.

Lt. Don Winslow, 13th naval district mines disposal officer, said the mine was partly filled with concrete.
