Widow Wins \$22,500 In Radio Quiz

CHICAGO, March 8 (AP)—The 68-year-old widow who won the rich "Walking Man" radio contest Saturday night described her exciting week-end simply today as "such fun."

"I think the best part of it has been hearing from a number of friends I haven't seen in 15 years," she said.

By identifying Jack Benny, radio comedian, as the mysterious "walking man," Mrs. Florence Hubbard, lingerie saleswoman in a loop department store, showered herself with prizes valued at \$22,500. She will have to pay approximately \$8500 taxes.

She said she has not decided what to do with all the prizes.

"There's much too much for my three-room apartment," she said. Besides household appliances, the prizes include a Cadillac automobile, airplane, trailer, and two-week vacation at Sun Valley, Idaho.

The contest was sponsored by Ralph Edwards of the "Truth or Consequences" program. Rules required a statement of why "we should all support the American Heart Association," along with a contribution to the organization.

Mrs. Hubbard said she submitted 30 entries during the 10 weeks of the contest because she was "very much interested in the American Heart Association. Her husband, a physician, died of a heart ailment 10 years ago.

Edwards said contributions to the association totaled approximately \$1,500,000.

Navy Rocket Hits Speed Of 3000 MPH

WASHINGTON, March 8 (AP)—A new navy rocket has sputtered 78 miles into the sky and hit a speed of 3000 miles an hour, the army and navy said Saturday.

It is the highest and fastest an American missile is disclosed to have gone. The wartime German V-2 reached 114 miles and about 3500 miles an hour in tests at White Sands, N. M. proving grounds.

The navy rocket, called the Aerobee, was tested there yesterday, the joint announcement said.

The performance of the liquid-fueled Aerobee greatly exceeds the 34-mile altitude, 2100-mile speed of the only other American rocket so far announced. This was the army ordnance "Wac Corporal." However, both still are far short of marks achieved by the V-2.

Details of design of the new rocket and the fuel are secret.

However, photographs of it in flight indicate a pencil-thin design like the Wac Corporal, contrasted with the bulkier girth of the V-2.

The Aerobee was developed for navy ordnance by the Aerojet Corporation of Azusa, Calif., and the Douglas Aircraft company. The applied physics laboratory of Johns Hopkins university at Silver Spring, Md. supervised.

It carried 150 pounds of instruments for recording cosmic ray activity. Under the joint navy-army program, an initial group of 20 Aerobee rockets is being made ready for tests.

It's shocking, but not very surprising, to hear from Frau Gertrud Scholz-Klink Heissmeyer, fuhrer of German women in the Hitlerian era, that she is "still a Nazi—as much as ever."

Frau Heissmeyer and her husband, Maj. Gen. August Heissmeyer, one-time officer in Hitler's hand-picked elite guard, have been arrested in Wuertertemburg where they had been living under the name of Stuckebrock. They are being held by the French to determine what, if any, charges shall be brought against them.

The female fuhrer clenched her fist as she proclaimed to members of the press: "Hitler still lives for me and my husband."

Of course that's what one would expect from a hard-boiled Nazi chieftainess. Still, as remarked, it's shocking that she be brought face to face with a harsh reminder that while Hitler is as dead as a doornail, his totalitarian creed lives on. And it persists not only in Germany but has close imitators in other countries.

Boyle's Column Household Hints From The Poor Man's Philosopher

By HAL BOYLE
NEW YORK, March 6 (AP)—Trellis Mae Peeble and her friend, Hortense, were talking about their husbands' money.

HAL BOYLE

"What burst me up about my Wilbur," said Trellis Mae, "is the money he throws away in tips. He's such a mouse he hates to offend anybody. I could buy three new dresses a year with the tips he gives."

"If housewives get tipped for service the way waiters and barbers and bellboys do," agreed Hortense, "we could all have wardrobes like movie stars."

A glint came into Mrs. Peeble's eyes. Hortense had given her an idea.

When her hero came home that night, Trellis Mae felt from mental cramp induced by correcting his secretary's spelling. Trellis Mae announced: "Wilbur, I'm tired of being a slave. That's all a housewife is. You men treat your home just like it was a hotel or a restaurant. Okay, if that's the way you feel. But you're going to have to pay for it."

From now on I'm going to charge you 25 cents a night to check your hat and coat here. You're going to have to tip me 15 cents for serving you breakfast and a quarter for dinner. I want at least \$2 a week for being your chambermaid and 50 cents every time I have to run your suit over to the cleaner's like a bell-boy."

IWA Asked For Strike Okay

OLYMPIA, March 8 (AP)—The International Woodworkers of America (IWA) regional negotiating committee had a request today that it authorize a strike vote among the 40,000 CIO timber workers in Oregon and Washington.

The request was made by the executive board of the Boommen and Rafter District council No. 11. It represents 600 men in Southwest Washington.

The board conditioned its request to be effective "unless there is a satisfactory offer made" by employers' representatives that they intend to "enter into sincere and honest negotiations" when they meet with union representatives in Portland this Wednesday and Thursday.

The union seeks a general wage increase of 3 1/2 cents an hour, paid holidays, and a 7 1/2 cent a man hour payment into a health and welfare fund.

of 10 Washington mayors reached to be in favor of the plan on a costwise basis, the newspaper said. Mayor N. K. Buck of Yakima was said to be opposed to the plan in any form. Mayors in approval, according to the Oregonian, are Seattle, Spokane, Tacoma, Centralia, Kelso, Walla Walla, Vancouver, Aberdeen and Longview.

Time Shift Plan Eyed

SEATTLE, March 8 (AP)—A drive for the inauguration of daylight saving time in Washington state will get under way soon.

Charles T. Oliver, president of Daylight Savings, Inc., said today signatures will be sought to a petition to state officials to turn the clocks ahead one hour.

Backers of the move, he said, are cheered by growing interest in Oregon and California.

"What would the dress cost?"
"O-o-only \$65," wept his wife, quickly upping the figure by \$10.
So Wilbur sat down and wrote out a check. Now he is telling his friends at the office how he put one over on his wife. But Trellis Mae—she's got a pretty new dress.
