

Demo Party Splits With Wallace--GOP Chairman Says "No Mosoc Wing"

PHILADELPHIA, March 10 (AP)—J. Howard McGrath, democratic national committee chairman, last night turned his party's back on Henry Wallace.

Carroll Reece, republican national committee chairman, speaking with McGrath at the Philadelphia Bulletin forum, said that the "republican party is a united party. It has no Moscow wing."

Predicting that "a united democratic party" would win the November general election McGrath sharply criticized what he termed "the impractical liberalism" of Wallace.

"A Henry Wallace can condemn the bi-partisan foreign policy and offer nothing more than abject ap-

peasement to the forces of Godless communism," McGrath said. "No party bearing the real responsibility of government can flout the national conscience so glibly, can excuse a foreign power so meekly, can abuse it so completely before an alien ideology."

Declaring that the United States "must have a united party in control of our government if we are to have a united nation," Reece said:

No Taint
"The republican party has never been tainted by radicalism, as exemplified in Russia today, which makes the individual the slave of the state."

"The republican party is a united party. It has no Moscow wing. It has no radical wing. It has no Fendegast wing. It has no Jim Crow wing."

The Rhode Island senator laid the responsibility for inflation in the laps of the republican majority, declaring:

"Instead of facing the facts they proceeded to speculate in the political futures market. They sent the president a completely inadequate bill."

Sen. Robert A. Taft (R-Ohio) defended the Taft-Hartley act as a restorer of justice and equality in labor-management relations.

Walter Reuther, president of the United Automobile Workers (CIO), charged congress and industry with responsibility for the high cost of living.

Mrs. Zenie Way Dies In Bandon
Mrs. Zenie Way, widow of George Way and daughter of the late Mr. and Mrs. Josiah Doten, early Klamath county pioneers, passed away at her home in Bandon, Ore., March 7, following a short illness.

Mrs. Way was 17 years and 18 days at the time of her death. She is survived by a daughter, Katherine Way of Bandon; two brothers, Lee Doten of Merrill and Dan Doten of Keno, and Mrs. Ruth Rice of Redding, Calif.

Interment will be in the IOOF cemetery at Bandon at the graveside of her husband.

Mike De Cicco Up For Committeeman
PORTLAND, March 10 (AP)—Mike M. De Cicco, member of Multnomah county's democratic central committee, is a candidate for democratic national committeeman.

He will oppose Monroe Sweetland, Molalla and Newport publisher, who announced earlier. The position is now held by State Senator Lew Wallace, a candidate for the democratic gubernatorial nomination.

History Club Meeting Slated

The first meeting of the Natural History club of the Klamath region will be held Tuesday, March 16, at 8 p. m. in the Klamath Union high school. The aim of this club is to bring to the Klamath region much needed information on wildlife and wild flowers, trees, shrubs and geology of the area. This story of wildlife, plant life and geology will be presented in a non-technical manner by the aid of pictures and prominent speakers. The program is designed so that even the beginner may be able to enlarge and build upon his knowledge of nature.

The club plans to hold a series of field trips during the year to gain personal acquaintance at first hand with the objects of nature.

Everyone in the Klamath region who is interested in nature is invited to attend.

New Government In At Batavia

BATAVIA, Java, March 10 (AP)—A Netherlands East Indies interim government was installed Tuesday at the governor general's palace.

The Dutch-sponsored government will function until the establishment of a united states of Indonesia. The Dutch have set January 1, 1949, as the tentative date for setting up a federation.

There are no representatives of the Indonesian republic in the interim government. The new regime consists of H. J. Van Mook, acting governor general, 11 secretaries of state, two specially commissioned secretaries of state, an army commander, a navy commander and an attorney general.

California Drought Shifts Seasons

Normally the Almaden reservoir (above) near San Jose, Calif., is filled with some 50,000 acre feet of water at this time of the year. Today Almaden creek is a trickle on the bottom of the reservoir. This illustrates the effect of the lack of normal winter rainfall on the coastal water reserves in the San Francisco bay area.

US Navy Aids Blast Victims

TSINGTAO, China, March 10 (AP)—The U. S. navy used all available facilities today to aid hundreds of injured in the tremendous explosion of a Chinese ammunition storehouse—a blast which killed at least 200 Chinese.

Estimates of the number of injured ranged to 1000.

(In Nanking, Vice Adm. Oscar C. Badger, commander of the U. S. Western Pacific fleet, said no navy personnel was injured in the explosion.)

The blast, of undetermined origin, destroyed the three-story munitions warehouse and 100 Chinese dwellings and damaged 400 others. The warehouse was a half-mile from U. S. navy ships tied up at the docks.

The ammunition was intended for government armies fighting the Chinese communists in Manchuria.

Anti-Truman Bill Up For Action

RICHMOND, Va., March 10 (AP)—Governor Tuck's amended anti-Truman bill awaited senate action today after the Virginia house of delegates approved the measure 74 to 25.

The house's eight republican members joined 17 democrats in voting against the bill yesterday.

Under the amended bill, a state democratic convention can throw Virginia's eleven electoral votes for president and vice president to any-

one it chooses if it fails to approve the ticket and platform of the democratic national convention.

High School News and Comment

By MARY LOU CASE

The why and wherefore of radio will be explained on tonight's Pelicana program at 8:30 over KFJJ.

William Pink, the head of the radio department of KU, will be interviewed and give a short talk. For the week's historical review, the radio theme will be brought in with a brief history of the radio broadcasting in Klamath Falls. Dick Griffiths is the Pelicana member in charge of writing and conducting the program.

Several weeks of research by Mrs. Exene Humble's social economics classes has uncovered the material to be used on the educational broadcast Thursday at 1:15 over KFLW. A round table discussion of the Marshall plan is the topic, keeping in mind the idea of explaining a and understanding the plan and its effects politically and economically. Seven seniors will conduct the dis-

An Easter sunrise service is under way, to be sponsored by the Tri-Hi-Y and Hi-Y in conjunction with the Christian Endeavor Union. The chaplains of the two high school groups are now planning the service which will take place March 28, Lois Landrum, Doretha Miller, Sandra Moore, Margie Robinson, Morris

Wackley and Ronald Woods compose this committee.

Members of the junior class will soon be proudly displaying their class rings and pins. The jewelry has arrived and juniors are picking up their own orders by shifts this week. It is the first time in many years that an oval setting has been selected, and the junior's choice is quite different.

The first portable electric oil well drilling rig is capable of boring two miles into the earth. Weighing 18 tons, its twin-master derrick reaches as high as a 12-story building. It can be telescoped, folded and moved along the highway.

From where I sit... by Joe Marsh

Ben's Bride Gets Chickenhearted

Ben Ryder was mighty proud of his young bride when she offered to care for his new flock of baby chicks. "Just like a mother with her brood," he boasts.

Then came market time for fryers—and the crisis! Sue simply wouldn't let Ben near her chickens with an axe. She'd raised them as babes... she'd named them... they were her very own!

Ben poured himself a glass of beer, to think things over sensibly. He hated to lose the price on fryers... but he figured Sue had put up

with his peculiarities, he guessed he could put up with her fondness for the chickens.

So now Ben has the nicest brood of laying hens in town, and from where I sit, one of the most successful marriages, too. All because he "lived-and-let-live"—literally. And whenever he wants fried chicken, he takes his bride over to Andy's Garden Tavern for a crisp wing and a glass of beer.

Joe Marsh

Brainteaser
We're thinking of an old one... How far can a man walk into the woods—and the answer is... Halfway—because after that he'll be walking out!

THAT ANSWER'S NOT FOR US!... Maybe it applies to woods but NOT to the business of selling new cars. When we say (as we do) "walk in and look at our operation," WE DON'T MEAN JUST HALFWAY. We are franchised new car dealers... factory representatives. We're also responsible members of your business community. We realize, and accept, a rigid position of ethical business practices. Just as you accept YOUR responsibility for SAFE driving by making it a practice to have your car SAFETY-CHECKED, frequently. Don't come just halfway... come all the way in, and let's talk automobiles.
