THE record ought to be kept very straight in these days of alarms and excitements. An historical error can never be corrected; it sets up a chain of events which moves in the direction set by the error until it wears itself out, or is diverted by other events or is stopped by force.

Costa Rican Revolt Held War Threat

SAN JOSE, Costa Rica, March 19 (AP)—Gen. Rene Piedad Michalski, security (war) minister, says Costa Rica's political revolt is building into a general American war.
Piedad answered "Yes" when newsmen asked him last night if the week-old rebellion by forces under Jose Figueres is going to involve all of Central America.

A lass who's climbing up and up is Evelyn Knight, featured on the Texaco Star theatre. Her specialty is ballad singing in a modern mood, and a deft touch in it, too.

Today's Roundup

By MALCOLM EPLEY
DISAPPOINTED applicants for homesteads in the recent drawing can take hope again—already, the wheels are moving for two more important openings on the Klamath project.

A public meeting will be called for March 30 or thereabouts for discussion of regulations to be set up for opening of something around 80 units this fall. These will include 20 units in the Main area, and 60 or 65 more in the Coppock bay area where are located those homesteads which were drawn last Monday.

There should be considerable interest in the public meeting March 30, so that all persons or groups with ideas on homestead regulations will be heard at that time. Previous meetings of this sort have been very helpful, and have been a factor in making the recent openings more fair in some respects than those of a number of years ago.

Among a free people, those who participated in the errors must be held responsible for them. It may be pleasant for those who built reputations and made political profit by making mistakes to have us forget what they did and said when the going was smooth. However, now that their mistakes are being uncovered, they shout, "Stop thief!" We have to assume that those who supported Roosevelt's policy at Teheran and Yalta and Truman's policy at Potsdam, and such trivia as Bumbarton Oaks and Bretton Woods, are responsible for our present misfortunes. It will avail them nothing, for they face the facts of their own incompetence. There is no longer any cover-up.

Therefore, when Jimmy Byrnes or George Marshall or Averell Harriman gets terribly excited about the evils of the Russians, I challenge them to deny the charge that they were accessories before the event, that they condoned in advance the rape of European civilization by Stalin, that Franklin D. Roosevelt and Winston Churchill, in advance, consented to the despoliation of our allies and the countries we liberated. At Potsdam, President Truman joined in these operations.

Boyle's Column Shortage Of Weapons Is Biggest US Power Failure

WASHINGTON (AP)—Manpower wouldn't be the biggest initial problem of the small American army if a showdown with Soviet Russia flamed into a third World War soon.
"Biggest shortage isn't in men—it's in equipment," said one veteran officer.

HAL BOYLE

97 In California
OREGON'S interim highway committee, which is currently considering the state's road problems, should be asked by Klamath people to take a look at the situation with respect to US Highway 97 in California.

Better Managers Needed
ON February 13, 1945, it was reported that War Mobilization Director James F. Byrnes returned to Washington from Yalta and disclosed that President Roosevelt proposed the formula for the solution of the Polish question. Mr. Byrnes did not say that he, Byrnes, opposed that solution nor did he tell us then that other arrangements were made there, even an arrangement making Soviet Russia the successor to Japan's rights and privileges in Manchuria in direct violation of our treaties with China since 1844 and constantly renewed. Mr. Byrnes said nothing about that. Nor did General Marshall or Averell Harriman, or any of the ex-new deal commentators who are trying to run General Eisenhower on the democratic ticket as part of a war scare.

Suburban Fire Meeting Called
Chief Melvin Gordon of the suburban fire department today announced a meeting of all men over 21 interested in joining the suburban volunteer fire department. The meeting will be held Monday, March 22, at 7:30 p. m., in the Altamont junior high school music room.

The Doctor Says— Rest Essential For Pleurisy

Surrounding the lungs is a lining called the pleura. The pleura lies not only between the chest wall and the lungs but also extends between the lobes of the lungs. When the pleura becomes inflamed, pleurisy results.

ANSWER: There is no sure cure for bronchiectasis. In advanced cases, excellent results have been obtained with surgery. Bronchiectasis should be prevented if possible by not allowing a chronic cough to go too long without treatment.

Freak Accident Injures Student

A freak accident Wednesday night sent Delora Jean Hedlund, 15, to the hospital, and she will not return to classes at KUHS until next week.

Early next week a committee of Finns will sit down in the Kremlin to hear what kind of pact Stalin wants them to write with the Soviets. He has already notified the little northern republic that he wants more than a pledge of friendship. He wants a talk about a military pact.

Further, the Russians would have to remember that after their 1939 attack on Finland they were expelled from the League of Nations. History could repeat itself in similar action by the United Nations, and the Russians appear to find their UN membership to their advantage.

Willard Hotel Rooms Changed
An improvement program for the main banquet room and the Blue room, a second floor dining room, is underway at the Willard hotel, according to Manager Eugene Larson.

Dentists Talk Over Problems

Dentists of the Klamath County Dental society, composed of the leading practicing dentists in this city, joined last night in discussion of the unnecessary loss of children's teeth.

No Secret
This, of course, is no secret to Russian military experts. They know the tremendous power of the American industrial colossus—but they know also the months and perhaps years it takes to gear it up to the point it can pour out decisive floods of weapons of all kinds.
