The Shape Of Things To Come Is Slimmer, And The Beauty Boys Will Help

By SID MIRKIN

NEW YORK, April 6 (AP)—The shape of things to come definitely is slimmer.

The 26th international beauty show at Grand Central Palace revealed today that miracles of modern science have been harnessed for the slenderizing and beautification of Mr. and Mrs. America.

On hand are such achievements of postwar civilization as radar and television waves, the gyroducing salon, the postural alignment couch, the Massage-O-Mat and assorted other wonders.

The accent is on time and comfort. Most of the gadgets are aimed at speeding up milady's beauty treatment or combining several steps in reducing and beautifying.

The radar wave, which doesn't use radar waves, is powered by electronics and can heat a clip to be used in setting a permanent wave in only three seconds.

The gyroducing salon, showing chairs, tables and hobby horses designed to oscillate various parts of the anatomy, demonstrated another gimmick with which it is attempting to invade the barber shop.

The gyro-lator barber chair can—when a coin is dropped in a box—provide oscillation of the feet and or legs while the customer is being shaved or having his hair trimmed.

One of the most fascinating exhibits, however, was the postural alignment couch.

A pretty blonde demonstrator settled a man on a flat table. His legs were strapped to the table and his shoulders held securely by metal clamps. Then his hands were extended back over his head to a metal bar which was moved away from the table mechanically.

The demonstrator denied that the medieval torture rack inspired the couch. The torture rack didn't oscillate. But the couch does.

Lumber Pay Meet Called

PORTLAND, April 6 (AP)—An AFL Lumber and Sawmill Workers union wage conference is scheduled for April 13 in Eugene with Willamette valley fir operators.

Kenneth M. Davis, union executive secretary, said the session will take up the question of a 5-cent an hour wage increase offered by fir operators in two Washington and Oregon districts—which would bring the minimum up to $1.45, apparently the new standard for the fir belt.

Davis said union councils for the Puget Sound and Columbia districts have referred the latest employer offer to the membership. Both councils met in Seattle yesterday.

Willamette valley and Oregon coast operations manned by AFL workers have not yet been involved in the latest wage offers.

AFL plywood workers in northwest mills, except for one operation, have been offered a similar 5-cent boost, he said.

The 5-cent offer brings to 12½ cents the boost for the AFL woods workers since Jan. 1.

Negotiating committees of most CIO fir belt have also referred a 2½-cent increase offer to their members.

Truck Drivers Tie Up Road

CARLISLE, Pa., April 6 (AP)—Violence was reported today in the unique sitdown strike of a small army of angry truck drivers bivouacked in trucks on Pennsylvania's $70,000,000 "dream" highway.

Major Charles Keller of the state police announced seven of the truck drivers were fined $28.50 apiece on charges of throwing stones at two trucks whose drivers refused to join the sitdown.

Keller said the stones damaged new automobiles which were being transported on the two trucks.

The sitdowners said the demonstration on the streamlined Pittsburgh-Harrisburg express highway was a protest against a state weight law.

A committee of truck drivers said they would call on state police at Harrisburg again today with a brief outlining their demands.

Willamette Locks Tonnage Drops

OREGON CITY, April 6 (AP)—Tonnage moved through the Willamette locks here in March dropped below the same month a year ago.

The army corps of engineers reports last month's total was 144,310 tons, which included 30,476,000 board feet of logs. A year ago it was 194,470 tons, with 45,300,000 board feet of logs.

New Health Rule Starts

PORTLAND, April 6 (AP)—State health officials—in a move expected to become standard throughout Oregon—no longer are issuing birth certificates on request.

Dr. Harold M. Erickson, state health officer, said only a "short form" certificate—not showing the name of the parents—was being issued.

A court order is needed to get the full-length certificate.

Erickson said this was the result of a law passed at the last legislature, as interpreted in a recent opinion from the seate attorney general's office.

The law is designed to prevent officials from disclosing to the public the legitimacy or illegitimacy of births.

Multnomah county officials said they would follow the state's lead, but did not expect this course of action to make any noticeable difference.

They said newspapers' vital statistics, for example, would continue as before, for they intend to make public the legitimate births, along with names of parents, as they have in the past.

Action Expected On Metal Wage

PORTLAND, April 6 (AP)—The AFL metal trade union council in Portland was expected to act today on a new wage offer by employers.

E. A. Bird, council secretary, said the offer of 11½ cents an hour increase was for top classifications. The 1100 members of the unions involved earlier had voted to strike. They also rejected an 8-cent an hour increase. The hourly scale varies for the different unions.

A union spokesman said foundry molders had been offered a slightly higher raise, but did not disclose the amount.
