Water Outlook For Lake Area Above Average

LAKEVIEW, April 7 (AP)—Continuing March and April storms have lifted the water outlook in this area to average or even better for most hay crops. Tuesday's irrigation forecast meeting was told.

State college, soil conservation and forest service representatives here for the meeting were greeted with a two-inch snowfall last night. It was typical of the weather which in the past month has materially improved the water prospect.

The only real deficiency is seen in north Warner valley, where pumping from Hart lake is necessary.

W. T. Frost, in charge of forecasting for the soil conservation service and OSC experiment station, said snow conditions now indicate that Silver lake land prospects are better than last year. Goose lake valley water users are assured of more than enough inflow into the dry reservoir to meet their needs.

The range condition generally is better than last year, but warm weather is needed.

Frost estimated the Chewaucan river flow at 60,000 acre feet from April through June, 9 per cent under average but nearly twice last year's. Deep creek in Warner valley was estimated at 50,000 acre feet, 18 per cent below average but 20,000 more than last year.

This was the seventh of eight forecast meetings. The final one will be held tomorrow at Medford.

Railroaders Spurn Offer

CLEVELAND, April 7 (AP)—General chairmen of three railroad brotherhoods decided Tuesday that the president's emergency board recommendations of rules and wages are "not acceptable."

At the same time, they said, the wage and rules committees of three organizations are willing to meet operators of the nation's railroads at an early date for further discussions of the board's recommendations. They set no strike date.

"We further recommend that the negotiations, if arranged, will not be carried on beyond April 27," a statement said. "And that, if an acceptable settlement is not reached in the matter prior to or on April 27, a strike date shall be set as soon thereafter as possible."

The presidential board has recommended a wage increase of 15 1/2 cents an hour. The report had been accepted by the railroads.

Russ Blame British For Plane Crash

(Continued from Page One)

til the inquiry has been completed. This much is known, however: Visibility Good

"Visibility at the time of the collision was some five miles. When two miles from Gatow airfield the Viking was sighted from the air traffic control tower at Gatow airfield. Also the Viking had flown from Hamburg down the corridor towards Berlin at a height of 1500 feet with the clouds another 1500 feet above it. The facts in themselves show that the Soviet story is palpably untrue."

A representative of British European Airways, operators of the transport, denied the crash occurred over a Soviet airport.

Seat Collapse Injures 46 At Show

REDWOOD CITY, April 7 (AP)—Forty-six circus spectators—20 of them children—were recovering today from injuries incurred when a reserved seat section collapsed in the main tent of the Bailey Brothers show.

One man's ankle was broken, a woman's back was severely injured but, luckily, most of the injuries were not serious. This was attributed to the fact that the huge seat section, with a capacity of 800, did not pin anyone underneath it when it fell.

The seat section gave way at one end, spilling spectators down on top of the seats and supports.

There was considerable confusion but no panic.

CARNIVAL

By Dick Turner

SALEM, April 7 (AP)—State unemployment compensation benefits in March totaled \$978,133, a drop of one per cent from March, 1947.

Veterans readjustment allowances totaled \$803,654 in the month, a decline of six per cent from March, 1947.

The state unemployment compensation commission said April benefits would decline sharply because claims for recent weeks are 10 to 20 per cent less than a year ago.

March payments in the Portland metropolitan area were 13 per cent under a year ago. Biggest increases were in Tillamook, Lebanon and Cottage Grove, all logging areas. Almost one-fourth of the benefits were paid to jobless loggers and lumbermen.

Chaplain Dies After Attack

TOKYO, April 7 (AP)—Capt. John A. Ryan, U. S. army Catholic chaplain at Sugamo prison, was stabbed fatally in the heart while taking his usual walk last night. Investigators said today they had no clue as to the killer or killers, or a motive.

Captain Ryan was stabbed with an icepick-like instrument.

American soldiers some distance away said they saw some persons leap from bushes and assault the chaplain. His wallet and watch were undisturbed.

The chaplain, about 30, was a member of the Society of Missions, with headquarters at Germantown, Pa. He was booked to sail for the United States May 6.

The U. S. Golf association told her yesterday she wasn't welcome. It said the tournament was strictly for men.

"Applicants must be men who are either professional golfers, or amateurs with handicaps not exceeding three strokes."

No woman had ever before sought to enter the tournament which was first played in 1895.

County School Board To Meet

The county school board is meeting today to take up the matter of replacement for Harold Ashley, whose resignation as superintendent of schools was announced two weeks ago.

The meeting started at 1:30 p. m. It is understood that Ashley may raise the question of whether the board was right in requesting his resignation. He said he was not informed that the board was planning to make a change before March 15, which he said was the date the board should have made known its plans.

Actually, Ashley's requested resignation was announced on March 23.

We have been having some very interesting meetings the past weeks. We meet every Monday with our leader in the fourth grade room at Fremont school. We are bringing clothes to help the Red Cross. We went to Crater lake the 22 of February, we coasted, went skiing, roasted wieners and had a lot of fun. We have swimming classes twice a month at the KUBS natatorium.

National Camp Fire Birthday Week was a busy one for the Camp Fire Girls. Monday at our regular meeting we made plans for the week. Tuesday the Camp Fire Girls from all over town met at the Fremont school gym to practice marching in for the Council Fire. Thursday night the Council Fire was held at the armory with about 200 girls present and several parents and friends. We had a good time at the "Hi-Lo Fun Show" at the Pelican theatre Saturday morning and in the afternoon we had a mother and daughter tea which wound up our week. (Signed) Mary Ann Carlisle.

BLUF BIRDS

Merry

The Merry Blue Bird group is in the second grade of Fremont school, and we have eight girls. Right now we are working on our scrapbooks. We each have different kinds of pictures, such as cats, dogs and dolls. Sometimes we go swimming. For Christmas we made pomanders of cloves and oranges and red ribbon. We are reading Anderson's Fairy Tales and we play games and sing. (Signed) Patricia Case.

Daisy

Marcis and Grace Lou told a story of the tiny brownies. We said the Blue Bird Wish. We sang the Blue Bird song. Mrs. Merryman told us about the children in Hawaii.

We opened the meeting with the Blue Bird Wish. Then we sang the Blue Bird song. We had election of officers. President, Barbara Glen; vice president, Mary Macarty; secretary, Marcia Hafter; treasurer, Oletta Carlisle; scribe, Maureen Griffith. We have a new girl, her name is Mary Macarty. We played games. Then we went to the
