

MacArthur To Wait On Nebraska

TOKYO, April 8 (AP)—General MacArthur indicated tonight he would await the results of the Nebraska primary election next week—at least—before issuing any further statement on his presidential candidacy.

His only comment on the Wisconsin balloting, in which he ran second to Harold E. Stassen, was this brief and unrevealing statement:

"One of the things which have made our country great is that men may thus freely speak their minds and fearlessly record their individual viewpoints. Let us always preserve it that way."

Observers here could detect no hint of a withdrawal in the statement. Its generalized nature continued the aloofness he has maintained since he announced his availability for "any public duty to which I might be called by the American people." That was March 8.

Nevertheless, today's statement puzzled Tokyo. Some saw in it a measure of disappointment which is apparent among his headquarters supporters — although politics are not generally discussed.

The Japanese appeared surprised by the results. They conceded that the general had lost face.

"His reputation in the United States does not correspond with his reputation here," said one Japanese editor. However, Nipponese newspapers have not yet commented editorially.

The general's self-appointed Japanese campaign drum beater — Poet-Contractor Toshiyo Oda — seemed undaunted.

"The idea that they need MacArthur soon will seep through to Americans," said Oda. He added that he would try to go to the United States himself to plead the general's cause.

White Swans Winter Here

The beautiful white whistling swans, so picturesque on the lakes and ponds of Southern Oregon and Northern California have been wintering in the Klamath basin in ever increasing numbers, a California wildlife official said today.

While frequent reports of numerous dead swans found on the ranches in Tulelake vicinity have been made, the official said it was probably the normal culling out of nature with the birds dying at the end of their normal life span. He said the percentage of death was

"You can't make a bad cup of M.J.B."

says VIRGINIA FIELD co-starring in "Dream Girl" a Paramount Picture

Made extra mild or rich and strong, The flavor's right...you can't go wrong

1. Each year we search the world to find the finest crops for M.J.B.'s richer blend. On each plantation, coffee quality varies from season to season—but only the top crops come to M.J.B.

2. "Individual roasting" coaxes out all the secret goodness locked in every bean of M.J.B.'s top-of-the-crop coffee. These subtle extra flavors are lost by most roasting methods.

3. Highest-vacuum pack seals in every whiff of M.J.B.'s fragrant goodness till it reaches your cup. Try it today and you'll agree—you can't make a bad cup of M.J.B.
