KU Board Interviews Coaches

Klamath union high school board is now in the process of interviewing candidates for the job of coaching the Pelican football team next year.

Two aspirants have already been in conference with the board, and other such sessions are on schedule.

At a meeting this week, the board considered the pay schedule of football coaching here as compared with that elsewhere and it was indicated that some increase may be made. Coach Ed Ryan, who handled the job last year, received \$4408, of which \$705.50 was for Pelican grid coaching and \$3225 for coaching freshman basketball.

There are also indications that the salaries of football and basketball coaches may be brought closer together. In 1947-48, the KUHS basketball coach received \$450 for coaching, plus pay for teaching. Basketball in many schools is being spread out over the fall months, and this adds weight to the argument that pay for the two coaching assignments should be equalized, school officials said.

No action has been taken on the position of basketball coach for next year. Wayne Scott, who coached the team last year, has indicated he will not handle the job in 1948-49, but at last report, had filed no formal statement with the board. A decision on the basketball coaching position—whether it is vacant, at least—will probably be made next Monday night.

The high school and grade school boards prepared a salary schedule for next year, subject to approval of the voters at a special budget election in May. The schedule is the same as last year, except that additions have been made for teachers with nine and 10 years of experience.

For instance, a teacher with a BA degree and nine years experience will get \$3700, and 10 years, \$3800. One with an MA degree gets \$4000 after nine years, \$4100 after 10.

Landry Heads Newbury Drive

Paul Landry, Klamath Falls insurance man and president of the city council, has been named Klamath county campaign chairman for Earl T. Newbury of Ashland. Newbury is a republican candidate for nomination as secretary of state.

State chairman of the Newbury committee is Gene Rossman of Portland and headquarters are in room 220, Lumberman's building, Portland.

Newbury was appointed secretary of state by Gov. John Hall after the accidental plane crash death of Robert Farrell last fall. He was formerly a state representative.

Cascade Summit Trapper Completes Cascade Trip On Skis

(Continued from Page One)

handle for longer swings, he had no difficulty making a fire.

Additional supplies of food were dropped by a pilot who kept a guardian eye upon the skier when weather permitted. Steaks were dropped and eggs—the eggs wrapped in newspapers one time and excelsior once, were uncracked, but Meissner smashed one in his pack and also broke the thermometer which was dropped from the sky without mishap—so he didn't know how cold it was.

His camp was snug and at his evening campfire he cooked the dried fruit which he ate for breakfast—about 6 a. m.—with oatmeal, before starting out for a day's skiing.

Meissner stopped several times a day to wax his skis, depending on weather and snow conditions. He used climbing wax rather than his sealskins for uphill work. His feet bothered him not at all, snug in a pair of Olympic downhill boots, a gift from a sporting goods house.

One near accident sent the chills and thrills along Jack's spine as he found himself in deep snow on a ledge with a 50-foot drop on one side. He had to remove a ski to extricate himself from that one.

With two cameras, one for 35 mm color film and a 620 for black and white, the lone traveler took pictures which he expects to use for an article about the jaunt. He has been in correspondence with five magazine editors who are interested in the project. Jack kept a diary of his experiences and expects to get "ghost" help in recounting his adventure.

He arrived in Klamath Falls Thursday evening and was interviewed over KFLW on the Managing Editor's Report program, by Malcolm Epley of The Herald and News.

After the broadcast he was all ready to take a hike around town, not appearing in the least exhausted after his experiences.

Publishers Change Name Of Book

NEW YORK, April 9 (AP)—Charles Scribner's Sons, publishers, announced today it has retitled "Mis-souri Waltz" by Maurice Milligan to "The Inside Story of the Pendergast Machine by the man who smashed it."

The publishers declined to give the reason for change of title of the book published April 5. It deals with Kansas City politics.

There has been no change of text in two new printings which have been ordered, the publishers said. The only change will be on the cover and title page. Figures on the book's sales thus far were unavailable.

At Kansas City Milligan said he did not know why the title of his book had been changed.

CARNIVAL By Dick Turner

"Not only does this treatment reduce stiffness of the radius and ulna, but it is also used to stimulate collection of bills!"

Jews Capture Vital Point.

JERUSALEM, April 9 (AP)—Haganah fighters re-occupied the strategic village of Kastel at dawn today, a Jewish agency spokesman announced.

Earlier an official source said some 300 Jews attacked the Arab village of Dir Yasin, four miles southeast of Kastel, but separated from it by a deep valley.

Jewish informants said the Dir Yasin operation was carried out by a detachment of Irgun Zvai Leumi (Jewish extremists).

At the coastal plain end of the Tel Aviv-Jerusalem high Haganah forces attacked the former army camp of Wadi Sarzar where 500 Iraqi troops are concentrated.

Kastel—stride the Jewish convoy route to food-short Jerusalem—was re-taken by the Arabs in a bloody thrust yesterday after being held for six days by Haganah forces.

The Jewish militia fought bitterly to hold Kastel after seizing the Arab village Saturday in a drive to open Jerusalem's supply route to Tel Aviv.

Condon Still On The Spot

WASHINGTON, April 9 (AP)—Speaker Martin (R-Mass.), predicted Thursday the house will insist that Secretary of Commerce Harrison produce a letter relating to the loyalty of Dr. Edward U. Condon.

Martin placed the house leadership squarely behind an attempt of the un-American activities committee to get the letter. The house will vote next week on a committee-sponsored resolution directing Harrison to hand it over, despite a presidential order to the contrary.

The letter was written to the secretary last May 15 by FBI Director J. Edgar Hoover. It contains a report on an investigation of Condon as head of the bureau of standards, testing agency for many top-secret military projects.

An un-American activities subcommittee quoted part of the letter in a report accusing Condon of being one of the weakest links in the nation's atomic security.

Knowingly or unknowingly associating with suspected Russian spies.

Condon has said he is absolutely reliable.

Wheat Crop Estimate Up

WASHINGTON, April 9 (AP)—The agricultural department today forecast this year's winter wheat crop at 860,521,000 bushels.

This estimate is an increase of 21,000,000 bushels from a department forecast of 839,000,000 bushels made shortly after the planting season last December.

It compares with last year's winter wheat crop of 1,067,000,000 bushels and with the ten-year (1937-46) average of 688,606,000 bushels.

No forecast was given for spring wheat inasmuch as the planting season is just drawing to a close. But officials have said a spring crop of 272,000,000 bushels is possible.

On this basis, the total 1948 wheat crop would be 1,132,000,000. This figure compares with last year's record crop of 1,364,000,000 and with the ten-year average of 890,306,000. In only four years has the crop exceeded 1,000,000,000 bushels.

Bay Improvement Gets Go Ahead

WASHINGTON, April 9 (AP)—Projects for improvement of two bays on the Oregon coast were approved today by a house public works subcommittee.

Col. Wayne S. Moore of the army engineers told the committee that proposed dredging of a small boat basin and construction of an approach at Tillamook bay would cost an estimated \$70,000.

He said work on the other, at Umpqua harbor and river at Winchester bay, would cost \$34,500. This would provide for a channel 12 feet deep and 100 feet wide from deep water in the river to the docks in Winchester bay. Also included would be a mooring and turning basin.

Taft Backs Air Growth, Draft Law

(Continued from Page 1)

of the three armed services. These are preliminary to getting down to the actual job of bill writing.

Tied into what these bills will contain is the question of whether the air force should be increased from 55 to 7 groups. Forrestal favors 55.

Although major attention was centered on boosting the nation's air power, other moves, followed the lines laid down by Secretary of Defense Forrestal. He cautioned congress not to build up one military arm at the expense of any other. "National security demands balanced forces," the secretary declared, adding "dollars alone do not guarantee the delivery" of military goods.

Love Of Cello Brings Change

VANCOUVER, B. C., April 9 (CP)—Devotion to his 250-year-old Cappa cello, valued at \$10,000, today sent Barton Frank back to his native United States.

The 21-year-old Philadelphia cellist brought his instrument and six boxes, worth \$750, to Canada last September to play with the Vancouver symphony orchestra as first cellist. However, Canadian customs authorities stipulated the cello had to be out of the country by April 8 or Mr. Frank would lose his customs bond.

"And whether my cello goes, there go I," said the musician who gave his first Canadian recital here last Monday.

He now plans to spend part of the summer studying in Paris and intends to return to Canada in October.

Schortgen Estate Filed For Probate

The estate of Henry Ernest Schortgen, who died January 23, 1940, has been filed for probate here and a son, Donald Blair Schortgen, was appointed administrator.

Schortgen did not leave a will, but the probate papers list his heirs as the widow, Mrs. Ruth A. Hodre, and two sons, Donald Blair and Henry Leon Schortgen. D. E. Van Vactor is attorney for the estate, which is valued at \$4000.

A bill is considered feminine in most countries, and is referred to as "she."

In The Day's News

armies that under my command accomplished the revolutionary campaigns with glory."

He then added, speaking seriously and deliberately:

"I refuse to admit defeat, because our fighting strength is still powerful."

...

They are brave words. But words never yet stopped equipped and disciplined armies.

Let's not let ourselves that they will now. Without help, the Chinese communist armies will overwhelm weak and inflation-ridden Nationalist China.

...

The Chinese communists are backed to the limit by Russia and if Russia means business.

...

At the beginning of World War I and again at the beginning of World War II, we spent far too much time kidding ourselves.

Let's not repeat that mistake. The game we're playing now is for keeps, and all our marbles are in it.

Cherry Blossom Queen Selected

WASHINGTON, April 9 (AP)—Sixteen-year-old Doris Sheldon is queen of Washington's annual cherry blossom festival.

The Wilmington, Del., high school sophomore was chosen from a field of 48 beauties representing most of the states, Puerto Rico, Hawaii and Alaska.

Doris, five feet, six inches tall and weighing 120 pounds, will preside over the festival at Hains Point tomorrow. Her court will include the 47 "princesses" who were in last night's contest.

Life, Health, Accident

Wholesale and Group — Life, Health, Accident and Hospitalization including members of families. For details write Box 102, Herald-News. All our salesmen have been advised of this ad.

GE Plants Face Strike

NEW YORK, April 9 (AP)—General Electric company officials expect GE plants in various parts of the country to be hit, possibly today, by a series of labor demonstrations and perhaps work stoppages.

George H. Pfeil, head of the company's employee relations division, said the disorders were foreseen as a protest against the company's resistance to union wage demands.

Pfeil has represented the company since March 2 in wage negotiations with the CIO United Electrical Workers.

Commenting on Pfeil's prediction of labor demonstrations, Joseph Dermody, international representative of the union, said yesterday a "growing restlessness and impatience" among GE workers would not be surprising.

The union has announced a demand for "substantial" wage increases in a contract modification affecting 125,000 GE workers.

The company says the pay of "hourly rated" workers now averages \$33.83 weekly.

Faculty Women Plan OVS Party

OVS, April 9—The Oregon Vocational School Faculty Women's club will hold its first social event, a card party, at 8 p. m. Friday, April 16, in the campus guest house.

Refreshments and prizes are planned with pinocle, bridge and 800 in play.

All are invited.

Molotov On Way Out Is Rumor

LONDON, April 9 (AP)—New Review, a weekly magazine, says the ouster of V. M. Molotov as Russian foreign minister "may shortly have to be considered as a possibility." There was no confirmation of this report in other quarters today. Some students of Russian politics classify Molotov as the No. 1 candidate for Prime Minister Stalin's job when Stalin dies.

News Review said Molotov's program was criticized at a February meeting of the politburo, but Molotov later received a vote of confidence. The politburo, headed by Stalin, includes the top leaders of the Soviet Union.
