care of The Herald and News, and I will turn them over to Mr. Hatton and Mr. Patty.

There is no need to go here into the whole story of cancer, which killed 1800 Oregonians last year. Great strides are being made in research into methods and control and cure of this terrible disease. These efforts are largely financed by the American Cancer society.

I urge the friends of the cancer control program to give Mr. Patty and Mr. Hatton the kind of support and help they gave me.

These Days

By GEORGE E. SKOLSKY

PROFESSOR FREDERICK L. SCHUMAN of Williams college, in a letter objecting to my comments on an article of his which was issued by "Soviet Russia Today," says:

"I have, I believe, been more consistently opposed to the extension of communism and the enhancement of Soviet power than Mr. Skolsky . . ."

Well, let's look at the record:

In 1917, I went to Russia as a reporter and found employment on the "Russian Daily News," in Petrograd, owned by the British mission and published by H. Curtis Vesey. When the bolsheviks came to power, this newspaper, which I then edited for Vesey, opposed the bolsheviks. The newspaper was seized; I was excluded from the premises and finally was "permitted" to leave the country via Siberia on the express get-away in the spring of 1918.

In China from 1918 to 1931, I was actively engaged in anti-communist work, as a reporter on the "North China Star" in Tientsin, as political writer for the "North China Daily News" in Shanghai, as editor of the "Far Eastern Review" and as associate and political adviser to Chinese officials. The only time I helped Russian communists was in 1927-8 when Chiang Kai-shek had put some of them in bamboo cages, to be dragged from village to village for exhibition purposes, and that was out of compassion for fellow human beings.

Consistent Opposition

SINCE 1931, I have been in the United States, consistently opposing Russian imperialism, as a Sunday feature writer for the "New York Times," and a columnist for the "New York Herald Tribune" and "New York Sun" and in this column. My book, "The Tinderbox of Asia," published in 1932, outlined the present program of Russian imperialism; in a series of articles in the "Atlantic Monthly," from 1932 to 1937, I outlined the present communist poison in the United States. In a series of broadcasts made under the sponsorship of the National Association of Manufacturers from 1937 to 1941 I attacked communism constantly. In a word, I offer a record from 1917 to 1948 of consistent and constant effort which brought me the enmity of a great number of so-called liberals and a mean smearing by the La Follette committee.

In contrast, this is Schuman's record:

American Committee for Anti-Nazi Literature, sponsor, letterhead, March 24, 1939; American Committee for Protection of Foreign Born, sponsor, program, Statue of Liberty Anniversary dinner, Oct. 27, 1946; American Council on Soviet Relations, signer of open letter to the president, official folder; American League for Peace and Democracy, sponsor, China Aid Council, letterhead, June 11, 1938; American Russian Institute, sponsor, official folder; American Slav Congress, sponsor, Pepper dinner, program, Oct. 12, 1947; Civil Rights Congress, sponsor, "People's Daily Worker," Oct. 28, 1947, P. 4; Civil Rights Congress, signer of statement defending communist party, "Daily Worker," April 15, 1947, P. 2; Committee for a Boycott Against Japanese Aggression, signer, "Daily Worker," 1938; Congress on Civil Rights, sponsor, official program, April 27-28, 1946, Detroit, Michigan; Friends of the Soviet Union, speaker, official program; Friends of the Soviet Union, speaker, announcement, mass meeting; "Hour," editorial consultant, index of issues;

International Association for Social Insurance, speaker, official program; Lawyers Committee on American Relations With Spain, sent greetings, official prospectus and review; League of Professional Groups for Foster and Ford, pledged support, "Daily Worker," Sept. 14, 1932, P. 1; League of Professional Groups for Foster and Ford, signer of open letter, pamphlet, "Culture and Crisis," Nation Associates, sponsor, program, Oct. 13, 1947; National Citizens Political Action Committee, member, official list; National Committee for the Student Congress Against War, member, official program, Dec. 27-29, 1932, Chicago, Illinois; "New Masses," contributor, April 24, 1934, P. 26; open letter for closer cooperation with the Soviet Union, signer, "Soviet Russia Today," Sept. 1939, P. 25; "Science and Society," book reviewer, winter, 1937, P. 265; "Soviet Russia Today," contributor, January, 1948; P. 3; contributor, April 1948, P. 7; contributor, January, 1947, P. 3; contributor, May, 1947, P. 8; book reviewer, July, 1947, P. 21; contributor, November, 1947, P. 7; contributor, May, 1942, P. 9.

His books on Russia have been regarded as the best apology for the Russian position published in any country outside of Russia. They are so effective on one side of the question that they have become standard textbooks in American universities.

He has little to worry about. However, if an Rh negative person were given several Rh positive blood transfusions he might get undesirable reactions. Rh negative women can also become sensitive to Rh positive blood by carrying a child with Rh positive blood.

If both parents have Rh negative blood, the child will always be Rh negative. If the father has Rh positive blood and the mother Rh negative blood the child may be Rh positive and, therefore, react badly with the mother. However, the first child, and often others, of an Rh negative woman married to an Rh positive man will almost always be healthy unless the mother has received Rh positive blood transfusions.

Only one woman in from 25 to 50 with Rh negative blood who has an Rh positive husband becomes sensitive to the Rh factor and gives birth to a baby with erythroblastosis. Even if this should occur, transfusions of blood to a baby with erythroblastosis will save the lives of a large proportion of such infants.

The relation of Rh factor to childbirth may be summarized:

Both parents Rh positive—little to worry about.

Both parents Rh negative—nothing to worry about.

Father Rh positive, mother Rh negative—occasional difficulty.

The Doctor Answers

QUESTION: What is chronic leukoplakia? Is it cancerous?

ANSWER: Leukoplakia consists of white patches in the mucous membrane of the mouth and around the gums and may involve the tongue. Often the cause cannot be discovered, but heavy smoking is responsible sometimes. It is not cancerous.

When a person with Rh negative blood is sensitive to Rh positive blood a severe reaction with chills and fever can develop from a blood transfusion of Rh positive blood. Also if a sensitive Rh negative mother carries an Rh positive child, the child may have a disease called erythroblastosis fetalis; such a child is jaundiced and may die.

Men or women who are Rh positive have little to worry about. However, if an Rh negative person were given several Rh positive blood transfusions he might get undesirable reactions. Rh negative women can also become sensitive to Rh positive blood by carrying a child with Rh positive blood.

If both parents have Rh negative blood, the child will always be Rh negative. If the father has Rh positive blood and the mother Rh negative blood the child may be Rh positive and, therefore, react badly with the mother. However, the first child, and often others, of an Rh negative woman married to an Rh positive man will almost always be healthy unless the mother has received Rh positive blood transfusions.

Water Rights Case Stalled

The Swan lake water rights adjudication which has been going on for two weeks or more apparently is nowhere near a conclusion. Sessions are being held in the circuit courtroom but occasionally have to shift to the city hall or veterans' memorial building for room.

The hearings are being conducted by the state engineer's office to try to determine the water rights of ranchers of the Swan lake area to water from the lake.

Douglas Whitelie, represented by Attorney J. H. Carnahan, is opposing the Liskey ranch, represented by Attorney A. C. Yaden. When the hearing is concluded the state engineer is to make a finding of fact to be presented to the circuit court.

The legal action was started in December, 1944, in circuit court here.

Stench Bomb Fails To Break Up Meet

AKRON, Ohio, April 9 (AP)—A stench bomb last night failed to halt an anti-communist rally at which author and lecturer Upton Close spoke.

The bomb apparently operated by time mechanism, went off under the stage as a vested choir opened the meeting. The choir fled from the stage, but Close opened his address a few moments later and continued through to the end.

"Hoodlums use hoodlum methods," he observed at the beginning, choking from the fumes.

The meeting in the Akron armory was attended by some 300 persons.

Molalla Pioneer Plant To Be Sold

OREGON CITY, April 9 (AP)—The weekly newspaper, The Molalla Pioneer, will go into the hands of a California purchaser May 1.

Owner Monroe Sweetland disclosed here he had sold the paper to Charles H. Burger, Glendale, Calif. The price was not revealed. Sweetland recently acquired The Newport News.

Burger, recently in advertising in Los Angeles, formerly owned three newspapers in California.

County Clerk To Keep Office Open

County Clerk Charles DeLap said today he was making arrangements to keep his office open each evening from 7 to 9:30 p. m. on Monday on the purpose of taking late voter registrations.

The office will not be open Saturday afternoons or nights. Registration deadline is 5 p. m. April 20. DeLap plans to start a day-by-day tabulation of registrations but can not get an accurate tally because registrations are being taken in towns and camps throughout the county.

Seeds for growing the metasequoia, a tree that thrived one hundred million years ago and was long thought extinct, have arrived in the U. S. from China.

The World Today

By DEWITT MACKENZIE
AP Foreign Affairs Analyst

The idea of creating a new German reich out of the three western zones of allied occupation gathers momentum as it becomes increasingly clear that Russia has sealed off and assumed permanent control of Eastern Germany.

Further striking indication of this trend comes from a speech delivered before the German state legislature in the British zone by General Sir Brian Robertson, the military governor. Speaking with the professional approval of British Foreign Secretary Bevin, we are authoritatively informed, Sir Brian said:

"Come forward determined to make the best of that larger part of your country which is on the right side of the iron curtain. Make up your minds to stand against these gentlemen who with democracy on their lips and truncheons behind their backs, would fitch your German freedom from you."

Well, that's plain talk. The general didn't mention communists specifically but there's no doubt that he was talking about them and was advising the Germans to reconcile themselves to losing Russian occupied Eastern Germany, together with their capital, at least for the time being. And as I pointed out in a previous column, the inability to reconstitute the country with Berlin as the capital is a major tragedy to the people, not only for sentimental reasons but because it is one of the world's greatest cities and is the hub of European rail transport.

While Sir Brian was making this significant declaration, Maurice Couve de Murville, distinguished French negotiator for German affairs, arrived in Berlin to be the guest of General Lucius Clay, commander of the American zone. Wes Gallagher, AP chief of bureau in Berlin, tells us that De Murville's trip is interpreted in authoritative quarters as a move to remove the difficulties in way of a merger of the French with the British and American zones. The latter two already have established politico-economic cooperation.

If the western allies decide to combine their three zones, the new reich will have a population of about 43,600,000 as against some 20,732,000 in the Russian zone. And because of the split, there will have to be a sweeping and arduous re-adjustment of the economy of both sections.

Obviously it will take long to rehabilitate a new reich and create a fresh economic structure. The war devastation in many parts of Western Germany is terrific, especially in that all-important industrial Ruhr. Whole cities have been destroyed.

Still, Western Germany can be rebuilt into a new state. We can go further and say it must be rebuilt, for it is needed as a keystone for the Western European economic structure.

Trio Jailed After Scrap

Two Indians and a white man, all from Chiloquin, are in the county jail today as a result of a brawl during a dance at the fairgrounds last night.

Lloyd Leland Hood, 28, was treated at Klamath Valley hospital for knife wounds about his head before being arrested. He accused the white man, 26-year-old Richard Dean Ware, of using a knife in the fight.

The third man jailed is Calvin Lee Summers, 22. Summers is booked for disorderly conduct and illegal possession of liquor. Hood for drunk and disorderly and Ware for disorderly conduct.

They were arrested by state police. Shortly after midnight a city patrol car intercepted a speeding vehicle coming up S. 6th and driven by Summers. The injured man, Hood, was in the car and was escorted to the hospital by the police.

At the hospital Hood and Summers were turned over to state officers and Ware was picked up on Main street shortly afterwards.

Today's Roundup

By MALCOLM EPLEY

INDICATIONS are the county school board's foot slippin in the matter of replacing Harold Ashley as the superintendent of county unit schools. A technical error—failure to notify Mr. Ashley by March 15 that his services were no longer desired—may make it necessary to keep the outgoing superintendent on his 1947-48 pay through the coming year, even though he steps over to a teaching position which ordinarily would receive less pay than that of superintendent.

The law requires that a school board must give written notice of election or dismissal of teachers for the following year by March 15. In case of failure to notify, the teacher is deemed to have been elected at a salary at least equal to that received the previous year. This provision is non-effective if the teacher fails by April 1 to notify the board of acceptance or rejection of the job.

The attorney general has given an opinion that the county unit school superintendent comes under these provisions. Mr. Ashley says he was not told that his services were no longer wanted until after March 15—therefore, he is making a claim for superintendent's salary for the coming year, regardless of his assignment in the system.

Frank Policy Best

It appears that the board did not see openly with Mr. Ashley as it should. Its right to conclude his services as superintendent is unquestioned—school boards are elected to make such decisions. But there is evidence here of reluctance to go frankly to Mr. Ashley with a statement of the decision and its reasons, which is the only fair way to treat an employe, difficult as the job may be.

On the legal point, the board was probably simply uninformed or uncertain. The fact that the attorney general was asked for an opinion is evidence that there was uncertainty about the law's effect in this situation. In most cases, presumably, the lay members of the school board rely on the superintendent for information on school law; in this case, of course, that was a little difficult, and the board might well have sought legal advice elsewhere before acting.

Whether Mr. Ashley stands on his claims for superintendent's pay next year is his choice to make, and we will not comment upon it. The latest information indicates he has a legal basis for that position.

There is considerable feeling of sympathy for Mr. Ashley in this situation. That is fair enough, but that feeling should not be translated into sentiment that is unfavorable to his successor, Carroll B. Howe. Mr. Howe had nothing to do with the board's dealings with Mr. Ashley. He has agreed to accept the position in good faith, and the welfare of the school district requires that the ruckus between Mr. Ashley and the board be not carried over to embarrass or handicap the administration of school affairs by Mr. Howe.

Funds For Cancer War

LOSE to the heart of this scribe is the annual effort in Klamath county to produce a sizeable contribution to the great war against cancer. For several years, I headed this campaign, and will never forget the outpouring of voluntary contributions that always made it possible for us to say, "Klamath is doing its part."

This year, the American Cancer Society's Klamath leader is Al Hatton, and the drive is being conducted by the 20-30 club under chairmanship of Tom Patty.

Because there have been so many fund efforts here this year, the cancer campaign people hope they can raise their quota without too much high pressure solicitation. That is the way it was done in the past, with the money coming from hundreds of people who recognized the great threat of cancer and wanted, personally and without being pushed, to do their part. Many of these contributions came from people who knew cancer as a great personal tragedy.

So contributions to the cancer fund are now in order. Those who wish to give may mail their checks to PO Box 778, to Al Hatton at the Shaw Stationery store, or, if they wish, to Malcolm Epley.
