"KEEP SAVING USED FATS!"

... It's a Habit That Pays"

"My conscience wouldn't let me throw out even a drop of used fats when I know they're still needed so badly. Why, today's shortage of fats and oils is still very serious, our government says."

"I really get a kick out of seeing how much extra fat I can save... by melting down trimmings, skimming gravies, and scraping pans. I re-use it, certainly. But there's always something left to make saving worth while!"

"Have you ever stopped to think that used fats are the only kitchen waste that can be turned into cash? That's a good point to remember in these days of higher food costs."
