# Judean Hills Battle Rages On Highway

By CARTER DAVIDSON  
JERUSALEM, May 11 (AP)—Two Haganah brigades drove the Arabs off the Tel Aviv-Jerusalem supply route Monday and carried the raging fight into the Judean hills.

The road itself, though still slashed by Arab barricades, is safe. The Haganah fighters scored their success at Bab El Wad, ten miles west of Jerusalem.

This reporter and three other newsmen walked through the mountain pass today. Sounds of fighting came from all four sides of us and occasional stray bullets whined above.

Deathly Stillness  
Inside the deep gorge through which the macadam road winds as a funnel for supplies needed in Jerusalem, there otherwise was deathly stillness. A Haganah escort got within sight of the first layers of Arab stonework across the road and refused to go on.

"We haven't taken those two hills yet," he said, pointing to crests he identified as hills seven and 21. He left him by the roadside and walked on. There was not a movement in the hills. Not a shot was fired at us, although we were obviously targets because we walked from the Jewish lines.

After climbing over eight barriers of stone, we returned to the command post of the Haganah advance battalion. A young and battle-seasoned major there expressed surprise that we weren't shot. He sent a patrol out hastily to investigate.

A reliable Jewish source previously had said Haganah had occupied all strategic heights on both sides of Bab El Wad.

A Red Cross representative, Jacques Deryniet, said today the agency is awaiting a written request from Arabs and Jews to take over Jerusalem as a neutral zone. The highest Arab and Jewish authorities already have approved, he said.

The conversion of Jerusalem into a Red Cross zone would entail the disarming of all Jews and Arabs in the city.

Great Britain is to give up her 25-year-old mandate over the Holy Land Friday midnight.

# Lewis To End Coal Contract

WASHINGTON, May 11 (AP)—John L. Lewis Monday gave hard coal operators a 60-day notice of intention to end the UMW contract covering 80,000 anthracite miners.

Lewis told the producers that he wants a new contract for the United Mine Workers by July 10. He asked for wage conferences to begin May 20, unless a later date is mutually agreed upon.

The hard coal industry has been operating since 1946 under a contract carrying no termination date, but allowing either party to give 30 days notice of termination whenever desired.

By giving 60 days notice, Lewis apparently was conforming to a Taft-Hartley labor act requirement that a party wanting to end an agreement allow that much time.

Lewis gave similar notice on April 30 to the soft coal operators, whose contract expires June 30.

The bituminous contract negotiations are to begin May 18 in Washington.

The bulk of the hard coal mines are in Eastern Pennsylvania.

Sale of the Roosevelt apartments on LeRoy street in the Hot Springs district by Mr. and Mrs. H. E. Roskamp to Mr. and Mrs. Nicholas E. Long, all of this city, was announced today.

# Tax Hearing Due Friday

SALEM, May 11 (AP)—Circuit Judge George R. Duncan will hear arguments next Friday in the suit to determine if state income tax surpluses can be used to pay expenses of the state government.

The suit was brought by former Governor Charles A. Sprague in order to get a court ruling on Attorney General George Neuner's ruling. Neuner ruled that the money could be used to pay state expenses.

So far, income tax money has been used to reduce property taxes. The surplus revenues total \$35,000,000, and probably will reach \$55,000,000 by the end of the biennium on July 1, 1949.

Attorneys for Sprague and the tax commission will ask for a quick ruling in order to get the case before the state supreme court.
