Philippine Hero To Get Medal

MANILA, May 28 (AP)—Joey, the Philippines' best known war heroine, will get the United States' highest civilian decoration Saturday in a special ceremony.

Joey, in private life is Mrs. Josefina V. Guerrero.

During the war she risked her life daily to get food and medicine to allied prisoners. She also supplied General MacArthur's headquarters with valuable intelligence under the name of Joey.

Her decoration will be the Medal of Freedom with a Silver Palm.

The U. S. army commander in the Philippines, Maj. Gen. George F. Moore, will personally decorate her.

The special ceremony will be attended by Cardinal Spellman of New York.

Mrs. Guerrero is a leper. She is confined to the Tala leproarium outside of Manila.

Steinseifer Buys No. 1 Ticket

Carl Steinseifer, local business man, is shown purchasing the No. 1 ticket for the Shrine club benefit dance set for June 5 at the armory. Steinseifer paid \$100 for the ticket. The sale to Steinseifer started the ticket sale to the general public, with all proceeds going to the Shrine's crippled children's program. Ted Reeves, left, is chairman of the dance committee, and Paul Matthews, right, is president of the Klamath Shrine club.

Three Thousand Attend May-December Wedding

BRUSHTON, N. Y., May 28 (AP)—A bride nearly a century old settled down today with the "young, strong man" she prefers to a pension.

It was a gay "fusterin" wedding yesterday for tiny, crippled Mrs. Eliza Murray and 37-year-old Clarence McGee, even though her wedding ring cost only 50 cents.

The lanky farm hand and his bride spent their wedding night at her modest home in this rural Northern New York village near the

Leak Found In Wickiup Reservoir

MADRAS, May 28 (AP)—A leak in the Wickiup reservoir which threatened serious curtailment of water in storage for 50,000 acres, has been located and temporary repairs are being made.

J. W. Taylor, construction engineer for the reclamation bureau, said the leak was at a geologic fault and 150 second feet of water had been pouring out of the reservoir.

A dike is expected to halt most of the leakage now, he said, and in the summer when the water level is low permanent repairs will be made.

When the leak was first noticed the reservoir held 130,000 acre feet. It now holds 126,000. Its present capacity is 180,000.

Navy Air Sign-Ups To Be Unlimited

Navy recruiter John Marsh announced today that enlistments for the rating of naval aviation air crewman will be unlimited for the first week of June 1948.

This program is open to high

Band Trip Tickets At Local Chamber

Persons wishing to help the Klamath Union high school band finance its trip to the Rose Festival at Portland in June can get tickets or make contributions at the chamber of commerce offices.

The band is selling tickets to the Rose Festival, and will receive full proceeds of the ticket sales for the trip finance. Whether people plan to go to the festival or not, they are asked to buy tickets or make contributions to help make the trip possible.

The band, considered one of the best high school outfits in the Northwest, will participate in a giant musical extravaganza at the festival.

Canadian Train Crashes Into Creek

LUNDBRECK, Alta., May 28 (AP)—Three members of a Canadian Pacific railway freight train crew were killed near here Wednesday night when the engine and seven cars crashed into Rock creek where a bridge had been washed out by floods.

Lundbreck is about 80 miles west of Lethbridge.

The three killed were Engineer W. M. Donnet, Fireman Edward Lewis James and Head-end Trainman G. H. Cripps. All lived in Lethbridge.

The creek, ordinarily placid, rose suddenly last night, swollen by melting-snow waters.

Nominated

Charles Franklin Brannan (above) has been nominated by President Truman to be the new secretary of agriculture succeeding Clinton P. Anderson who resigned. Brannan is now assistant secretary of the department.

Chancellor Sued For Divorce

CHICAGO, May 28 (AP)—Mrs. Maude Phelps Hutchins, wife of Robert Maynard Hutchins, chancellor of the University of Chicago, filed suit for divorce Thursday charging desertion.

She asked custody of their two minor children and alimony and support.

The couple's three children are Frances, 22; Joanne, 12, and Charles, 6.

Mrs. Hutchins, sculptor and writer, has been living apart from the chancellor for more than a year. He has been staying at a south side hotel, while she has lived at the "chancellor's house" of the university.

MAKES YOUR CAR RIDE LIKE A '48

Greatest talking point for '48 cars is the new low pressure ride—but you don't need a new car to enjoy the most modern improvement.

You can get Fisk Airbornes, that new kind of tire. They float your car on 1200 more cubic inches of air at low pressure...soak up bumps. At the same time, they are easy to steer...put a safer foot on the road. And remember this, Fisk Airbornes fit any rim. No need to change wheels.

We can put four on your car today—and give you a liberal allowance for your old tires.

DICK B. MILLER CO. HAS IT!

FISK Airborne TIRES

WHY YOU GET MORE COMFORT EASIER STEERING LONGER CAR LIFE

Airborne is bigger, holds more air volume at low pressure. Being softer, it soaks up the bumps before they hit the car. Steers easier because its tread is narrower. More miles, too.

DICK B. MILLER CO.

What it takes to handle 19 Million calls a day

1. Down the line come telephone instruments... your first link with an amazing system. They're sensitive and complex—but just a small part of the facilities required to connect your home with millions of others—and handle nineteen million calls a day. That's Pacific Telephone's present average. In 1940 it was 11,000,000 calls a day.

2. Intricate switching equipment like this must be practically custom made and installed before telephones can be used. You've probably never seen it...but it's on the job every time you make a call. And there's still more to the story. Land and buildings and other equipment must be provided—all of it's expensive.

3. "Roadways of speech"...telephone lines and cables...have to be ready to carry the calls. There's nearly fourteen million miles of wire now at work in the West...and more is being added every day. Handling more calls than ever in our history keeps all our facilities mighty busy—along with the telephone people who man them.

4. Where does the money come from? Millions of new working dollars...needed to extend and improve service...must come, not from telephone bills, but from thousands of people who put their savings to work in the telephone business. To attract these working dollars, we must pay a reasonable amount for their use. This depends on the sale of our services at fair and adequate prices.

The Pacific Telephone and Telegraph Company

More than 70,000 people working together to furnish ever-better telephone service to the West
