

Nan Goeller To Teach In Canal Zone

LEWIS AND CLARK COLLEGE, Portland, May 31—Neva Nan Goeller, education major, will be among the seven graduate students who will receive the master's degree in education along with 99 candidates for the bachelor's degree to be awarded by President Morgan S. Odell at Lewis and Clark commencement June 6. Exercises will be held on the east lawn of the campus at 4 p. m., weather permitting.

Dr. Peter Odegard, president of Reed college, Portland, will deliver the address on the topic, "Frontiers of Freedom," at the 81st annual commencement for the largest class in the history of the college. Dr. Odegard, after three years at Reed, has resigned to become head of the department of political science at the University of California, Berkeley. He is interim chairman of the Oregon UNESCO commission. During the war he was consultant and special assistant to the secretary of the treasury.

Miss Goeller is one of 25 students who have already signed contracts for teaching positions. She has received an appointment to instruct at the government schools in the Canal zone, Panama.

A graduate of Klamath Union high school, she served with the Waves, women's branch of the navy, during the war. She is the daughter of Mr. and Mrs. Harry Goeller, 434 Main street, Klamath Falls.

HEAT-RESISTANT CONCRETE Concrete for use in high-temperature furnaces is now available. It is a high-strength chrome-base material that can be poured or plastered into place and which is able to withstand heat as high as 3100 degrees F.

Stachel To Be Deported

WASHINGTON, June 1 (AP)—The justice department today announced the arrest for deportation of Jacob Abraham Stachel, national director of education for the American communist party.

The department said Stachel was picked up by immigration agents in front of his residence at 203 West 94th street, New York city, this morning. He was removed to Ellis Island to await deportation proceedings.

Stachel is accused of illegally entering this country and of joining a subversive organization after his entry.

DAMPNESS PROTECTIVE

A soil covering of asphalt roofing offers an effective means of protecting the house without a basement from dampness, suggests the department of agriculture. Its studies showed that houses built on wet sites became dry within three months after the roofing was rolled out on the soil.
